TITLE OF INFORMATION COLLECTION:

OE Web-Based survey for collection of Customer satisfaction and feedback

PURPOSE:

In accordance with Title 14 Code of Federal Regulations (14 CFR) Part 77, *Safe, Efficient Use, and Preservation of the Navigable Airspace*, the Obstruction Evaluation Group (OEG) analyzes vertical obstructions to preserve the safety of air navigation and efficient utilization of navigable airspace. We analyze information provided by the public to evaluate structures that could be a hazard to the National Airspace. The process is certified under The International Organization for Standardization (ISO) 9001:2015 and managed within OEG’s Quality Management System (QMS). In maintaining our certification, we are required to analyze and consider feedback from our customer (ISO 9001: 2015 Clauses 8.2.1, 8.5.5, 9.1.2). In order to accomplish this, we are interested in sending customer satisfaction surveys once the determination process is completed.

DESCRIPTION OF RESPONDENTS:

The respondents are the public who have contacted the Federal Aviation Administration to receive determinations for their planned or existing structure that may be a hazard to the National Airspace. They have initiated their relationship with the FAA by submitting a request for evaluation through our web based database.
