Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

Context:

This symbol might appear on the labeling on infant sleep products, such as cribs, bassinets, and play yards.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

Context:

This symbol might appear on labeling on certain types of furniture, such as dressers or clothing storage units.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

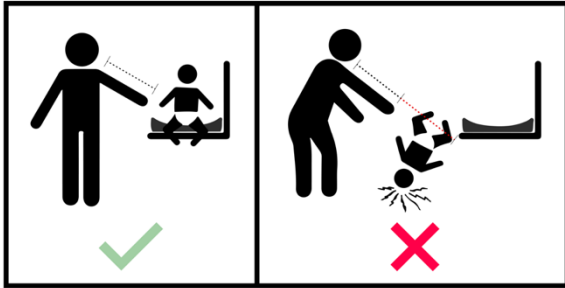

Context:

This symbol might appear on the labeling on baby changing tables or changing pads.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

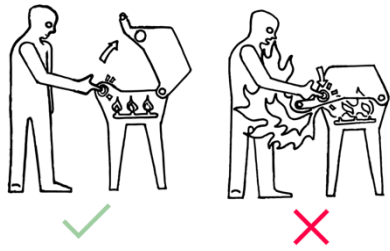

Context:

This symbol might appear on the labeling on baby changing tables or changing pads.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

Context:
This symbol might appear on the labeling on propane gas grills.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

Context:

This symbol might appear on the labeling on containers of laundry detergent packets.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

Context:
This symbol might appear on labeling on certain types of furniture, such as dressers or clothing storage chests.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

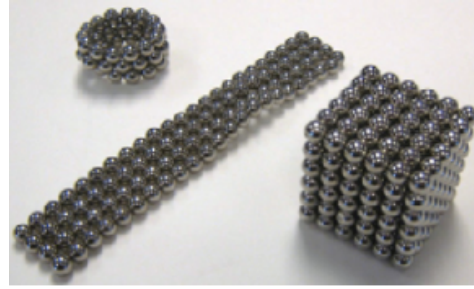

Context:
This symbol might appear on the labeling on window blinds, window shades, and other window coverings.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

Context:
This symbol appears on potentially hazardous products and/or equipment.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

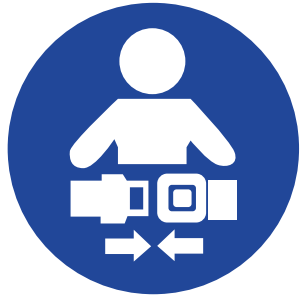

Context:

This symbol might appear on various children's products, such as high chairs, baby changing products, strollers, or infant swings.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

Context:

This symbol might appear on children's products, such as high chairs, infant carriers, strollers, or infant swings.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

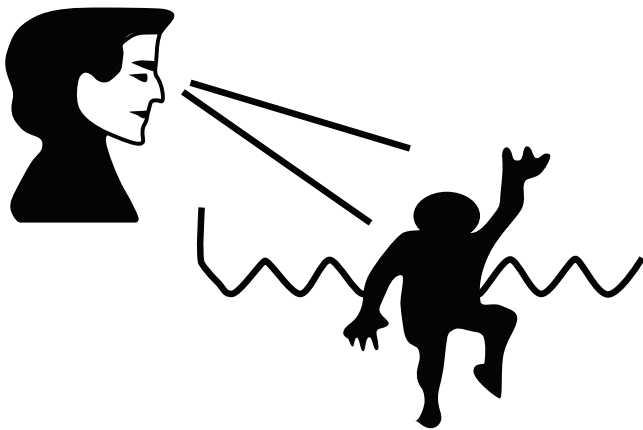

Context:
This symbol might appear on children's toys.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

Context:
This symbol might appear on aboveground residential pools or portable pools.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

Context:
This symbol might appear on or near swimming pools.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?

0-36m

Context:

This symbol might appear on children's products such as infant chairs, baby bouncers, infant swings, or toys.

Exactly what do you think this symbol means?

What action should you take in response to this symbol?

What could happen if you ignore the symbol's message?
