### FOREIGN PRODUCERS'/EXPORTERS' QUESTIONNAIRE

# LARGE DIAMETER WELDED PIPE (LDWP) FROM CANADA, CHINA, GREECE, INDIA, KOREA, AND TURKEY

This questionnaire must be received by the Commission by <u>September 28, 2018</u>

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing duty and antidumping duty investigations concerning large diameter welded pipe (LDWP) from Canada, China, Greece, India, Korea, and Turkey (Inv. Nos. 701-TA-593-596 and 731-TA-1401-1406 (Final)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII.

**Background.** --This proceeding was instituted in response to a petition filed on January 17, 2018, by American Cast Iron Pipe Company (Birmingham, Alabama), Berg Steel Pipe Corp. (Panama City, Florida), Berg Spiral Pipe Corp. (Mobile, Alabama), Dura-Bond Industries, Inc. (Export, Pennsylvania), Skyline Steel (Newington, Virginia), and Stupp Corporation (Baton Rouge, Louisiana). Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at <a href="https://usitc.gov/investigations/701731/2018/large\_diameter\_pipe\_canada\_china\_greece\_india/final.htm">https://usitc.gov/investigations/701731/2018/large\_diameter\_pipe\_canada\_china\_greece\_india/final.htm</a>.

Large diameter welded pipe (LDWP) covered by these investigations is welded carbon and alloy steel pipe (including stainless steel pipe), more than 406.4 mm (16 inches) in nominal outside diameter (large diameter welded pipe), regardless of wall thickness, length, surface finish, grade, end finish, or stenciling. Large diameter welded pipe may be used to transport oil, gas, slurry, steam, or other fluids, liquids, or gases. It may also be used for structural purposes, including, but not limited to, piling. Specifically, not included is large diameter welded pipe produced only to specifications of the American Water Works Association (AWWA) for water and sewage pipe.

Large diameter welded pipe used to transport oil, gas, or natural gas liquids is normally produced to the American Petroleum Institute (API) specification 5L. Large diameter welded pipe may also be produced to American Society for Testing and Materials (ASTM) standards A500, A252, or A53, or other relevant domestic specifications, grades and/or standards. Large diameter welded pipe can be produced to comparable foreign specifications, grades and/or standards or to proprietary specifications, grades and/or standards, or can be non-graded material. All pipe meeting the physical description set forth above is covered by the scope of this investigation, whether or not produced according to a particular standard.

Subject merchandise also includes large diameter welded pipe that has been further processed in a third country, including but not limited to coating, painting, notching, beveling, cutting, punching, welding, or any other processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the in-scope large diameter welded pipe.

Excluded from the countervailing duty investigation against Turkey are any products covered by the existing countervailing duty order on welded line pipe from the Republic of Turkey. See Welded Line Pipe from the Republic of Turkey: Countervailing Duty Order, 80 FR 75054 (December 1, 2015). Excluded from the antidumping duty investigations against Korea and Turkey are any products covered by the existing antidumping duty orders on welded line pipe from Korea and Turkey, respectively. See Welded Line Pipe from the Republic of Korea and the Republic of Turkey: Antidumping Duty Orders, 80 FR 75056 (December 1, 2015). Also excluded from the antidumping duty investigation against Korea are any products covered by the existing antidumping order on welded ASTM A-312 stainless steel pipe from Korea. See Welded ASTM A-312 Stainless Steel Pipe from South Korea: Antidumping Duty Order, 57 FR 62300 (December 30, 1992).

The large diameter welded pipe that is subject to this proceeding is currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) under statistical reporting numbers 7305.11.1030, 7305.11.1060, 7305.11.5000, 7305.12.1030, 7305.12.1060, 7305.12.5000, 7305.19.1030, 7305.19.1060, 7305.19.5000, 7305.31.4000, 7305.31.6010, 7305.31.6090, 7305.39.1000 and 7305.39.5000. While the HTSUS statistical reporting numbers are provided for convenience and customs purposes, the written description of the scope of this proceeding is dispositive.

<u>LDW line pipe</u>.--Large diameter welded pipe of a kind used for oil and gas pipelines and normally produced to the API specification 5L. Large diameter welded line pipe can also be produced to comparable domestic or foreign specifications or to proprietary grades.

<u>LDW structural pipe</u>.--Large diameter welded pipe normally produced to ASTM standards A500, A252, or A53. Large diameter welded structural pipe can also be produced to comparable domestic or foreign specifications or to proprietary grades, or be non-graded material.

<u>Reporting of information</u>.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, purchaser and/or foreign producer questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. §1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

**Release of information**.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

<u>Valid number error messages.</u>—If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Abu B. Kanu (202-205-2597, <a href="mailto:abu.kanu@usitc.gov">abu.kanu@usitc.gov</a>).

<u>Special Korea instruction</u>.--Korean producers Husteel and Hyundai are asked to submit their response to this questionnaire in two separate filings. One submission for their LDWP operations relating to merchandise less equal to or less than 24" OD, and a second submission for their LDWP operations relating to merchandise greater than 24" OD merchandise.

| II-3a. | Anticipated changes in operationsDoes your firm anticipate any changes in the character of its operations or organization (as noted above) relating to the production of LDWP in the future?  |
|--------|---|
|        | No Yes—Supply details as to the time, nature, and significance of such changes and provide underlying assumptions, along with relevant portions of business plans or other supporting documentation that address this issue. Include in the response a specific projection of your firm's capacity to produce LDWP (short tons) for 2018 and 2019.  |
|        |   |
| II-3b. | <u>Facility Detail</u> Please describe the type of mill used to produce LDWP and the type of pipe(s) produced in that facility.   |
|        |   |
| II-4a. | <u>Production using same machinery</u> Please report your firm's production of products made on the same equipment and machinery used to produce LDWP, and the combined production capacity on this shared equipment and machinery.   |
|        | "Overall production capacity" or "capacity" –The level of production that your establishment(s) could reasonably have expected to attain during the specified periods for all products manufactured in that establishment using the same manufacturing equipment.  Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup). |

"Production" -- All production in your establishment(s) in Canada, China, Greece, India, Korea, and Turkey, including production consumed internally within your firm.

"Line pipe" -- Large diameter welded pipe used to transport oil, gas, or natural gas liquids is normally produced to the API specification 5L.

"Structural pipe"--Large diameter welded produced to ASTM standards A500, A252, or A53. Large diameter welded pipe can be produced to comparable foreign specifications or to proprietary grades, or non-graded material.

| Produ | ct shifting.—   |       |
|-------|---|-------|
| (i).  | Is your firm able to switch production (capacity) between LDWP and other products the same equipment and/or labor?  | ısing |
|       | No Yes(i.e., have produced other products or are able to produce or products). Please identify other actual or potential products   |       |
| (ii). | Please describe the factors that affect your firm's ability to shift production capacity between products (e.g., time, cost, relative price change, etc.), and the degree to whit these factors enhance or constrain such shifts.       | ich   |
|       |   |       |
|       | of salesWhat percentage of your firm's total sales in its most recent fiscal year was ented by sales of LDWP? percent.  |       |
| estim | estimated share of production in Canada, China, Greece, India, Korea, and TurkeyP<br>te the percentage of total production of LDWP in the country specified on the certifica<br>ccounted for by your firm's production in 2017 percent. |       |
| the U | estimated share of country's exportsPlease estimate the percentage of total export ited States of LDWP from the country specified on the certification page accounted for rm's exports in 2017 percent.                                 |       |
|       | country trade actionsIs the LDWP exported by your firm subject to mping/countervailing duty/safeguard findings, remedies, or proceedings?   |       |
|       | YesList the products(s), countries affected, and the date of such   |       |

II-9. <u>Trade data instructions and definitions.</u>—Report your firm's production capacity, production, shipments, and inventories related to the production of LDW line pipe, breaking out line pipe and structural pipe production, in your establishment(s) in Canada, China, Greece, India, Korea, and/or Turkey during the specified periods. Do not include resales of LDWP that your firm did not produce in this question; those data to the degree they are exported to the United States should only be reported in question II-10.

<u>Do not submit data by manufacturing facility if they are in the same country.</u> If your firm has multiple manufacturing establishments within one country, you are required to combine data for those establishments within one foreign producer questionnaire response.

<u>Do not submit data on multiple countries combined</u>. The establishments reported here should all be located in the country of the firm's address reported on the certification page. Multinational companies with production in multiple subject countries should submit separate foreign producer questionnaire responses for each subject country.

"Average production capacity" or "capacity" –The level of production that your establishment(s) could reasonably have expected to attain during the specified periods for all products manufactured in that establishment using the same manufacturing equipment. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).

"Production" -- All production in your establishment(s) in Canada, China, Greece, India, Korea, and Turkey, including production consumed internally within your firm.

"Shipments"--Shipments of products produced in your establishment(s) in Canada, China, Greece, India, Korea, and Turkey. Quantities reported should be net of returns.

"Home market commercial shipments"--Shipments, other than internal consumption and transfers to related firms, within Canada, China, Greece, India, Korea, and Turkey.

"Home market internal consumption/transfers to related firms"--Shipments made to related firms in Canada, China, Greece, India, Korea, and Turkey, including product consumed internally by your firm.

"Export shipments"--Shipments to destinations outstide of the country indicacted on page 1 (Canada, China, Greece, India, Korea, and Turkey), including shipments to related firms.

"Inventories"--Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

#### II-9. <u>Trade data for LDW line pipe</u>.--Continued

| II-13. | Other explanationsIf your firm would like to further explain a response to a question in Part II that did not provide a narrative box, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire. |
|--------|---|
|        |   |

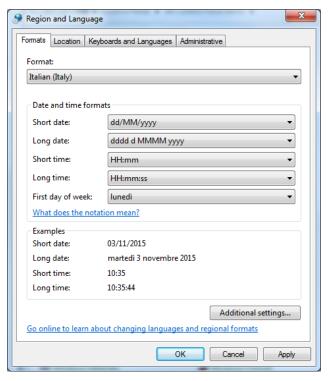

Correcting Valid number error messages.—If you are completing a Commission questionnaire in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

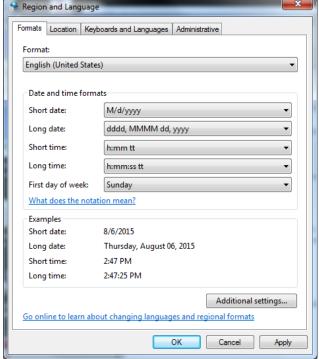

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tah
- Change the Format from your existing one (e.g. "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC foreign producer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.

### **HOW TO FILE YOUR QUESTIONNAIRE RESPONSE**

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

https://www.usitc.gov/investigations/701731/2018/large diameter pipe canada china gr eece india/final.htm.

**Please do not attempt to modify the format or permissions of the questionnaire document**. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box.</u>—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: <a href="https://dropbox.usitc.gov/oinv/">https://dropbox.usitc.gov/oinv/</a> Pin: PIPE

• E-mail.—E-mail your questionnaire to <a href="mailto:abu.kanu@usitc.gov">abu.kanu@usitc.gov</a>; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

**If your firm** <u>did not </u>**produce or export this product**, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

<u>Parties to this proceeding</u>.—If your firm is a party to this proceeding, you are required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
