GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on September 18, 2018, by Corsicana Mattress Company (Dallas, TX), Elite Comfort Solutions (Newnan, GA), Future Foam Inc. (Council Bluffs, IA), FXI, Inc. (Media, PA), Innocor, Inc. (Red Bank, NJ), Kolcraft Enterprises Inc. (Chicago, IL), Leggett & Platt, Incorporated (Carthage, MO), Serta Simmons Bedding, LLC (Atlanta, GA), and Tempur Sealy International, Inc. (Lexington, KY). Antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2018/mattresses_china/preliminary.htm.

Mattresses.--Mattresses covered by these investigations are an assembly of materials that generally includes a "core" as well as "upholstery" and/or "ticking." The scope of this petition is restricted to only "adult mattresses" and "youth mattresses," but broadly encompasses all types of "innerspring mattresses," "non-innerspring mattresses," and "hybrid mattresses."

Mattresses covered by the scope of this petition may be sold independently or as a part of furniture (e.g., convertible sofa bed mattresses, corner group mattresses, day-bed mattresses, roll-away bed mattresses, high risers, trundle bed mattresses, crib mattresses), or as part of a set in combination with a "mattress foundation."

Mattresses are covered by these investigations with or without "ticking," the outermost cover. Also included are, mattresses that are packed and sold to end users in boxes, such as those marketed as "bed(s)-in-a-box," "mattress(es)-in-a-box," and/or "compressed mattress(es)."

Excluded from the scope are "futon" mattresses. Also excluded are airbeds (included inflatable mattresses) and waterbeds, which consist of air- or liquid-filled bladders as the core or main support system of the mattress.

Mattresses are currently imported under statistical reporting numbers 9404.21.0010, 9404.21.0013, 9404.29.1005, 9404.29.1013, 9404.29.9085, and 9404.29.9087 of the Harmonized Tariff Schedule of the United States (HTSUS). They may also be imported under HTSUS statistical reporting numbers 9404.21.0095, 9404.29.1095, and 9404.29.9095. Prior to 2016, mattresses were imported under HTSUS statistical reporting numbers 9404.21.0090, 9404.29.1090, and 9404.29.9091. The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

Mattress innersprings are a series of metal springs joined together in sizes that correspond to the dimensions of finished mattresses. Innersprings may be comprised of wrapped coils or open/non-wrapped coils. Wrapped innerspring coils consist of coils that are individually encased in a nonwoven or woven material in rows, which rows are then bound together to form an innerspring. Open/non-wrapped coils are generally joined together by helical wire. For purposes of this investigation, mattresses that contain innersprings are referred to as "innerspring mattresses" or "hybrid mattresses."

"Non-innerspring mattresses" are those that do not contain any coils or innerspring units. They are generally produced from foam (e.g., polyurethane, memory (viscoelastic), latex, gel, thermobonded polyester, polyethylene) or other resilient filling.

"Hybrid mattresses" contain two or more support systems as the core, such as layers of both memory foam and innerspring units.
