# U.S. IMPORTERS' QUESTIONNAIRE STEEL WHEELS FROM CHINA 

## This questionnaire must be received by the Commission by November 26, 2018 See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing duty and antidumping duty investigations concerning steel wheels from China (Inv. Nos. 701-TA-602 and 731-TA-1412 (Final)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

## CERTIFICATION

I certify that the information herein supplied in response to this questionnaire is complete and correct to the best of my knowledge and belief and understand that the information submitted is subject to audit and verification by the Commission. By means of this certification I also grant consent for the Commission, and its employees and contract personnel, to use the information provided in this questionnaire and throughout this proceeding in any other import-injury proceedings conducted by the Commission on the same or similar merchandise.
$I$, the undersigned, acknowledge that information submitted in response to this request for information and throughout this proceeding or other proceedings may be disclosed to and used: (i) by the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. I understand that all contract personnel will sign appropriate nondisclosure agreements.

## PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on March 27, 2018, by Accuride Corporation, Evansville, Indiana, and Maxion Wheels Akron LLC, Akron, Ohio. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2018/steel wheels china/final.htm.

Steel wheels covered by these investigations are certain on-the-road steel wheels, discs, and rims for tubeless tires, with a nominal rim diameter of 22.5 inches and 24.5 inches, regardless of width. Certain on-the-road steel wheels with a nominal wheel diameter of 22.5 inches and 24.5 inches are generally for Class 6, 7, and 8 commercial vehicles (as classified by the Federal Highway Administration Gross Vehicle Weight Rating system), including tractors, semi-trailers, dump trucks, garbage trucks, concrete mixers, and buses, and are the current standard wheel diameters for such applications. The standard widths of certain on-the-road steel wheels are 7.5 inches, 8.25 inches, and 9.0 inches, but all certain on-the-road steel wheels, regardless of width, are covered by the scope. While 22.5 inches and 24.5 inches are standard wheel sizes used by Class 6, 7, and 8 commercial vehicles, the scope covers sizes that may be adopted in the future for Class 6, 7, and 8 commercial vehicles.

The scope includes certain on-the-road steel wheels with either a "hub-piloted" or "stud-piloted" mounting configuration, and includes rims and discs for such wheels, whether imported as an assembly or separately. The scope includes certain on-the-road steel wheels, discs, and rims, of carbon and/or alloy steel composition, whether cladded or not cladded, whether finished or not finished, and whether coated or uncoated. All on-the-road wheels sold in the United States are subject to the requirements of the National Highway Traffic Safety Administration and bear markings, such as the "DOT" symbol, indicating compliance with applicable motor vehicle standards. See 49 CFR 571.120. The scope includes certain on- the-road steel wheels imported with or without the required markings. Certain on-the-road steel wheels imported as an assembly with a tire mounted on the wheel and/or with a valve stem attached are included. However, if the certain on-the-road steel wheel is imported as an assembly with a tire mounted on the wheel and/or with a valve stem attached, the certain on- the-road steel wheel is covered by the scope, but the tire and/or valve stem is not covered by the scope.

Excluded from the scope are:
(1) steel wheels for tube-type tires that require a removable side ring;
(2) aluminum wheels;
(3) wheels where steel represents less than fifty percent of the product by weight; and
(4) steel wheels that do not meet National Highway Traffic Safety Administration requirements, other than the rim marking requirements found in 49 CFR 571.120S5.2.

Imports of the subject merchandise are currently classified under the following Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 8708.70.4530, 8708.70.4560, 8708.70.6030, 8708.70.6060, 8716.90 .5045 , and 8716.90.5059. Merchandise meeting the scope description may also enter under the following HTSUS subheadings: 4011.20.1015, 4011.20.5020, and 8708.99.4850. While HTSUS subheadings are provided for convenience and customs purposes, the written description of the subject merchandise is dispositive.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing steel wheels (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.-- The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods ("..") to delineate multiples of 1000 (e.g., one million would appear as $\$ 1.000 .000$ rather than $\$ 1,000,000$ ), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue are provided at the end of this questionnaire and are available upon request from Jordan Harriman (202-205-2610, jordan.harriman@usitc.gov).

D-GRIDS tool.--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macroenabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is optional. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

I-1. OMB statistics.--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire.

| Hours | Dollars |
| :---: | :---: |
|  |  |

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 40 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

I-2. Establishments covered.--Provide the name and address of establishment(s) covered by this questionnaire. If your firm is publicly traded, please specify the stock exchange and trading symbol.
"Establishment"--Each facility of a firm involved in the importation of steel wheels, including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

I-3. Ownership.--Is your firm owned, in whole or in part, by any other firm?Yes--List the following information

| Firm name |  | Extent of <br> ownership <br> (percent) |
| :--- | :--- | :--- |
|  | Address |  |
|  |  |  |
|  |  |  |

1-4. Related importers/exporters.--Does your firm have any related firms, either domestic or foreign, that are engaged in importing steel wheels from China into the United States or that are engaged in exporting steel wheels from China to the United States?No $\square$ Yes--List the following information.

| Firm name | Country | Affiliation |
| :--- | :--- | :--- |
|  |  |  |
|  |  |  |
|  |  |  |

I-5. Related producers.--Does your firm have any related firms, either domestic or foreign, that are engaged in the production of steel wheels?NoYes--List the following information.

| Firm name | Country | Affiliation |
| :--- | :--- | :--- |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |

I-8. FTZ, TIB, or bonded warehouses.--Please indicate whether your firm enters steel wheels into, or withdraws such merchandise from, foreign trade zones or bonded warehouses. Also indicate whether your firm imports steel wheels under the TIB (temporary importation under bond) program.
"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise, as well as other savings. A foreign trade zone must be designed as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.
"Bonded warehouse" is a secured facility supervised by U.S. customs, where dutiable landed imports are stored pending their re-export, or release after payment of import duties, taxes, and other charges. A bonded warehouse must be designed as such pursuant to the rules and procedures set forth in 19 U.S.C. § 1555.
"Temporary Importation under Bond ("TIB") program" is a procedure whereby imported merchandise may be entered under certain conditions for a limited time into the United States free of duty. Under the program, an importer posts a bond for twice the amount of duty, taxes, etc. that would otherwise be owed on the importation and agrees to export or destroy the merchandise within a specified time or pay liquidated damages. This program is restricted to certain categories of merchandise listed in subheadings 9813.00.05 through 9813.00.75 of the Harmonized Tariff Schedule of the United States (HTS).

## Definitions

"Imports" -Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty) or consignee (i.e., to which the merchandise was first delivered).
"Import quantities" -Quantities reported should be net of returns.
"Import values"-Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).
"U.S. commercial shipments" -Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

If your firm sells steel wheels (as described on page 2) with a tire already mounted on the wheel and/or with a valve stem attached, the value and weight of such sales reported in questions II-5, II-6, and II-7 should exclude the portion of the value and weight accounted for by the attached tire and/or valve stem.
"Internal consumption" -Product consumed internally by your firm. Such transactions are valued at fair market value.
"Transfers to related firms" -Shipments made to related domestic firms. Such transactions are valued at fair market value.
"Related firm" -A firm that your firm solely or jointly owns, manages, or otherwise controls.
"Export shipments" -Shipments to destinations outside the United States, including shipments to related firms.
"Inventories" -Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-5a. U.S. imports from China.-Report your firm's imports and your firm's shipments and inventories of steel wheels imported from China by your firm during the specified periods.

## II-5a. U.S. imports from China.-Continued

RECONCILIATION OF SHIPMENTS, IMPORTS, AND INVENTORIES.--Generally, the data reported for the end-of-period inventories (i.e., line L) should be equal to the beginning-of-period inventories (i.e., line A), plus imports (i.e., line B), less total shipments (i.e., lines D, F, H, and J). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

## II-6a. U.S. imports from Mexico.-Continued

RECONCILIATION OF SHIPMENTS, IMPORTS, AND INVENTORIES.--Generally, the data reported for the end-of-period inventories (i.e., line L) should be equal to the beginning-of-period inventories (i.e., line A), plus imports (i.e., line B), less total shipments (i.e., lines D, F, H, and J). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

## PRICE DATA

III-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2015 of the following products your firm imported from China, Canada, or Mexico:

Product 1.--22.5 inches by 8.25 inches steel wheels, regardless of coating, weighing 60 to 75 lbs ., inclusive, sold to OEMs.

Product 2.--22.5 inches by 8.25 inches steel wheels, regardless of coating, weighing 60 to 75 lbs., inclusive, sold to the aftermarket.

Product 3.--22.5 inches by 8.25 inches steel wheels, regardless of coating, weighing more than $75 \mathrm{lbs} .$, sold to OEMs.

Product 4.--22.5 inches by 8.25 inches steel wheels, regardless of coating, weighing more than $75 \mathrm{lbs} .$, sold to the aftermarket.

Note: Aftermarket includes aftermarket or replacement distributors, original equipment service ("OES") providers (both product distribution centers and dealer direct shipments), and other aftermarket firms.

Please note that values should be f.o.b., U.S. point of shipment and should not include U.S.-inland transportation costs. Values should reflect the final net amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

During January 2015-September 2018, did your firm import from China or Mexico and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

U.S. Importers' Questionnaire - Steel wheels

III-2 (c). Price data checklist.--Please check that the pricing data in questions III-2(a) and (b) has been correctly reported.

| Is the price data reported above: | V if Yes |
| :--- | :---: |
| In actual dollars (not $\$ 1,000$ )? | $\square$ |
| F.o.b. U.S. point of shipment (i.e., does not include U.S. transport costs)? | $\square$ |
| Net of all discounts and rebates? | $\square$ |
| Have returns credited to the quarter in which the sale occurred? | $\square$ |
| Less than reported commercial shipments in part II in each year? | $\square$ |

III-2(d). Pricing data methodology.--Please describe the method and the kinds of documents/records that were used to compile your price data.
$\square$
Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the price data, as Commission staff may contact your firm regarding questions on the price data. The Commission may also request that your company submit copies of the supporting documents/records (such as sales journal, invoices, etc.) used to compile these data.

III-3. Price setting.--How does your firm determine the prices that it charges for sales of steel wheels (check all that apply)? If your firm issues price lists, please submit sample pages of a recent list.

| Transaction <br> by <br> transaction | Contracts | Set <br> price <br> lists | Other |  |
| :---: | :---: | :---: | :---: | :--- |

III-8. Lead times.--What is your firm's share of sales of steel wheels imported from China from inventory and produced to order and what is the typical lead time between a customer's order and the date of delivery for your firm's sales of steel wheels?

| Source | Share of 2017 sales | Lead time <br> (Average number <br> of days) |
| :--- | ---: | :---: |
| From your firm's U.S. inventory | $\%$ |  |
| From foreign manufacturers' inventory | $\%$ |  |
| Produced to order | $\%$ |  |
| Total (should sum to 100.0\%) | $0.0 \%$ |  |

## III-9. Shipping information.-

(a) What is the approximate percentage of the cost of steel wheels imported from China that is accounted for by U.S. inland transportation costs? percent.
(b) Who generally arranges the transportation to your firm's customers' locations? $\square$ Your firm $\square$ Purchaser (check one)
(c) When your firm sells steel wheels imported from China, from where is it shipped?
$\square$ Point of importation $\square$ Storage facility (check one)
(d) Indicate the approximate percentage of your firm's sales of steel wheels imported from China that are delivered the following distances from your firm's U.S. point of shipment.

| Distance from your firm's U.S. point of shipment | Share |
| :--- | :---: |
| Within 100 miles | $\%$ |
| 101 to 1,000 miles | $\%$ |
| Over 1,000 miles | $\%$ |
| Total (should sum to $100.0 \%)$ | $0.0 \quad \%$ |

III-10. Geographical shipments.--In which U.S. geographic market area(s) has your firm sold steel wheels imported from China since January 1, 2015 (check all that apply)?

| Geographic area | China |
| :--- | :---: |
| Northeast.-CT, ME, MA, NH, NJ, NY, PA, RI, and VT. | $\square$ |
| Midwest.-IL, IN, IA, KS, MI, MN, MO, NE, ND, OH, SD, and WI. | $\square$ |

U.S. Importers' Questionnaire - Steel wheels

III-12. Demand trends.-
(a) Indicate how overall demand within the United States and outside of the United States (if known) for steel wheels has changed since January 1, 2015. Explain any trends and describe the principal factors that have affected these changes in demand.

| Market | Overall <br> increase | No <br> change | Overall <br> decrease | Fluctuate <br> with no <br> clear trend | Explanation and factors |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Within the United States | $\square$ | $\square$ | $\square$ | $\square$ |  |
| Outside the United States | $\square$ | $\square$ | $\square$ | $\square$ |  |

(b) Indicate how demand within the United States for steel wheels has changed since January 1, 2015 for the uses specified below.

| U.S. demand for steel <br> wheels for: | Overall <br> increase | No <br> change | Fluctuate <br> Overall <br> decrease | with no <br> clear trend | Explanation and factors |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Truck OEM | $\square$ | $\square$ | $\square$ | $\square$ |  |
| Trailer OEM | $\square$ | $\square$ | $\square$ | $\square$ |  |
| Bus OEM | $\square$ | $\square$ | $\square$ | $\square$ |  |
| Service/repair | $\square$ | $\square$ | $\square$ | $\square$ |  |

III-13. Product changes.--Have there been any significant changes in the product range, product mix or marketing of steel wheels since January 1, 2015?

| No | Yes | If yes, please describe. |
| :---: | :---: | :--- |
| $\square$ | $\square$ |  |

III-14. Conditions of competition.-
(a) Is the market for steel wheels subject to business cycles (other than general economy-wide conditions) and/or other conditions of competition distinctive to steel wheels?

| Check all that apply. | Please describe. |
| :--- | :--- | :--- |
| $\square \quad$ No | Skip to question III-15. |
| $\square$Yes-Business cycles (e.g. <br> seasonal business) |  |
| Yes-Other distinctive <br> conditions of competition |  |
| $\square$ |  |

(b) If yes, have there been any changes in the business cycles or conditions of competition for steel wheels since January 1, 2015?

| No | Yes | If yes, describe. |
| :---: | :---: | :--- |
| $\square$ | $\square$ |  |

III-15. Supply constraints.--Has your firm refused, declined, or been unable to supply steel wheels since January 1, 2015 (examples include placing customers on allocation or "controlled order entry," declining to accept new customers or renew existing customers, delivering less than the quantity promised, being unable to meet timely shipment commitments, etc.)?

| No | Yes | If yes, please describe. |
| :---: | :---: | :--- |
| $\square$ | $\square$ |  |

III-16. Raw materials.--How have steel wheels' raw material prices changed since January 1, 2015?

| Overall | No | Overall |  |  |
| :---: | :---: | :---: | :---: | :---: |
| increase | Fluctuate <br> with no <br> change <br> decrease | Explain, noting how raw material price changes, <br> including the section 232 steel tariffs imposed in <br> March 2018, have affected your firm's selling <br> prices for steel wheels. |  |  |
| $\square$ | $\square$ | $\square$ | $\square$ |  |

III-17. Impact of the section 301 investigation.--This question concerns the section 301 investigation and subsequent announcement on additional tariffs that include steel wheels proposed and implemented by the United States in response to Chinese trade practices. On September 17, 2018, the White House announced the placement of an additional 10 percent tariff on steel wheels imported from China under HTS subheadings 4011.20.10, 4011.20.50, 8708.70.45, 8708.70.60, 8708.99.48, and 8716.90.50, which took effect on September 24, 2018. Effective January 1, 2019, these tariffs will rise to 25 percent. (See https://www.gpo.gov/fdsys/granule/FR-2018-07-17/2018-15090 and https://www.whitehouse.gov/briefings-statements/statement-from-the-president-4/)
(a) Did the imposition of the additional 10 percent tariffs and/or announcement of the future increase in these tariffs impact, or do you anticipate that they will impact, your firm's steel wheels business and/or the U.S. steel wheels market as a whole?

| Yes | No | Don't know | If yes, please explain. |
| :---: | :---: | :---: | :---: |
| $\square$ | $\square$ | $\square$ |  |

(b) Assessment of specific impacts of the section 301 investigation.--Please indicate the impact of the announcements and subsequent implementation of remedies in the section 301 investigation and tariff actions regarding steel wheels.

| Item |  |  |  | Fluctuate <br> with no <br> clear <br> No | Increase |
| :---: | :---: | :---: | :---: | :---: | :---: | change | Decrease |
| :---: |$\quad$ Explanation and factors

III-18. Interchangeability.--Are the steel wheels produced in the United States and in other countries interchangeable (i.e., can they physically be used in the same applications)?

Please indicate $A, F, S, N$, or 0 in the table below:
$A=$ the products from a specified country-pair are always interchangeable
$\mathrm{F}=$ the products are frequently interchangeable
$\mathrm{S}=$ the products are sometimes interchangeable
$\mathrm{N}=$ the products are never interchangeable
$0=$ no familiarity with products from a specified country-pair

| Country-pair | China | Mexico | Other countries |
| :--- | :--- | :--- | :--- |
| United States |  |  |  |
| China |  |  |  |
| Mexico |  |  |  |

For any country-pair producing steel wheels that is sometimes or never interchangeable, identify the country-pair and explain the factors that limit or preclude interchangeable use:

III-19. Factors other than price.--Are differences other than price (e.g., quality, availability, transportation network, product range, technical support, etc.) between steel wheels produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:
$\mathrm{A}=$ such differences are always significant
$\mathrm{F}=$ such differences are frequently significant
$\mathrm{S}=$ such differences are sometimes significant
$\mathrm{N}=$ such differences are never significant
$0=$ no familiarity with products from a specified country-pair

| Country-pair | China | Mexico | Other countries |
| :--- | :--- | :--- | :--- |
| United States |  |  |  |
| China |  |  |  |
| Mexico |  |  |  |
|  |  |  |  |

For any country-pair for which factors other than price always or frequently are a significant factor in your firm's sales of steel wheels, identify the country-pair and report the advantages or disadvantages imparted by such factors:

III-20. Customer identification.--List the names and contact information for your firm's 10 largest U.S. customers for steel wheels since January 1, 2015. Indicate the share of the quantity of your firm's total shipments of steel wheels that each of these customers accounted for in 2017.

| Customer's name |  | City | State | Share of 2017 sales (\%) |
| :--- | :--- | :--- | :--- | :--- |
| 1 |  |  |  |  |
| 2 |  |  |  |  |
| 3 |  |  |  |  |
| 4 |  |  |  |  |
| 5 |  |  |  |  |
| 6 |  |  |  |  |
| 7 |  |  |  |  |
| 8 |  |  |  |  |
| 9 |  |  |  |  |
| 10 |  |  |  |  |

III-21. Other explanations.--If your firm would like to further explain a response to a question in Part III for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.
$\square$

Correcting Valid number error messages.--If you are completing a Commission questionnaire in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as $\$ 1.000 .000$ instead of as $\$ 1,000,000)$, you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from $\$ 12.000 .000,35$ (Italy format) to $\$ 12,000,000.35$ (U.S. format), and then there will be no conflict with the questionnaire. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.

## HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:
https://www.usitc.gov/investigations/701731/2018/steel wheels china/final.htm.
Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

- Upload via Secure Drop Box. - Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: WHEEL

- E-mail.-E-mail the MS Word questionnaire to jordan.harriman@usitc.gov; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm did not import this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

Parties to this proceeding.-If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
