PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on April 23, 2019, by the Dried Tart Cherry Trade Committee. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce (“Commerce”) makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2019/dried_tart_cherries_turkey/preliminary.htm.

Dried tart cherries covered by these investigations may also be referred to as dried sour cherries or dried red tart cherries. Dried tart cherries may be processed from any variety of tart cherries. Tart cherries are generally classified as *Prunus cerasus*. Types of tart cherries include, but are not limited to, Amarelle, Kutahya, Lutowka, Montmorency, Morello, and Oblacinska. Dried tart cherries are covered by the scope of these investigations regardless of the horticulture method through which the cherries were produced (*e.g.*, organic or not).

Dried tart cherries are covered by the scope of these investigations whether or not they contain any added sugar or other sweetening matter, whether or not they are coated in oil or rice flour, whether infused or not infused, and regardless of the infusion ingredients, including sugar, sucrose, fruit juice, and any other infusion ingredients. The subject merchandise covers all shapes, sizes, and colors of dried tart cherries, whether pitted or unpitted, and whether whole, chopped, minced, crumbled, in granules, broken, or otherwise reduced in size. The scope covers dried tart cherries in all types of packaging, regardless of the size or packaging material.

Included in the scope of these investigations are dried tart cherries that otherwise meet the definition above that are packaged with non-subject products, including, but not limited to, mixtures of dried fruits and mixtures of dried fruits and nuts. Only the dried tart cherry components of such products are covered by these investigations; the scope does not include the non-subject components of such products.

Included in the scope of these investigations are all dried tart cherries produced in Turkey, including dried tart cherries that have been further processed in a third country, including but not limited to processing by sweetening, coating, chopping, mincing, crumbling, packaging with non-subject products, or other packaging, or any other processing that would not otherwise remove the merchandise from the scope of the investigations if performed in Turkey.

The scope of these investigations does not cover finished bakery and confectionery items (cakes, cookies, candy, etc.) that incorporate dried tart cherries as an ingredient.

The subject merchandise is currently classifiable under 0813.40.3000 of the Harmonized Tariff Schedule of the United States (HTSUS). The subject merchandise may also enter under subheadings 0813.40.9000, 0813.50.0020, 0813.50.0060, 2006.00.2000, and 2008.60.0060. The HTSUS subheadings set forth above are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

Reporting of information.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (*i.e.*, a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. In addition, if your firm is a U.S. producer, the information you provide on your production and imports of dried tart cherries and your responses to the questions in Part I of the producer questionnaire will be provided to the U.S. Department of Commerce, upon its request, for use in connection with (and only in connection with) its requirement pursuant to section 702(c)(4)/732(c)(4) of the Act (19 U.S.C. § 1671a(c)(4)/1673a(c)(4)) to make a determination concerning the extent of industry support for the petition requesting this proceeding. Any information provided to Commerce will be transmitted under the confidentiality and release guidelines set forth above. Your response to these questions constitutes your consent that such information be provided to Commerce under the conditions described above.

D-GRIDS tool--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macro-enabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm’s nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.*
