U.S. PRODUCERS' QUESTIONNAIRE

ACETONE FROM BELGIUM, KOREA, SINGAPORE, SOUTH AFRICA, AND SPAIN

This questionnaire must be received by the Commission by <u>September 3, 2019</u>

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its antidumping investigations concerning acetone from Belgium, Korea, Singapore, South Africa, and Spain Inv. No. 731-TA-1435-1436 and 1438-1440 (Final)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on February 19, 2019, by AdvanSix Inc., Parsippany, New Jersey, Altivia Petrochemicals, LLC, Haverhill, Ohio, and Olin Corporation, Clayton, Missouri. Antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of dumping. Questionnaires and other information pertinent to this proceeding are available at:

https://www.usitc.gov/investigations/701731/2019/acetone_belgium_korea_saudi_arabia_singapore_s outh/final.htm

<u>Acetone</u> covered by this investigations is acetone of all grades of liquid or aqueous acetone. Acetone is also known under the International Union of Pure and Applied Chemistry ("IUPAC") name propan-2-one. In addition to the IUPAC name, acetone is also referred to as ß-ketopropane (or "beta-ketopropane"), ketone propane, methyl ketone, dimethyl ketone, DMK, dimethyl carbonyl, propanone, 2-propanone, dimethyl formaldehyde, pyroacetic acid, pyroacetic ether, and pyroactic spirit. Acetone is an isomer of the chemical formula C3H6O, with a specific molecular formula of CH3COCH3 or (CH3)2CO.

The scope includes acetone that is combined or mixed with other products, including, but not limited to, benzene, diethyl ether, methanol, chloroform, and ethanol. For such combined products, only the acetone component is covered by the scope of these investigations. Acetone that has been combined with other products is included within the scope, regardless of whether the combining occurs in third countries.

Acetone that is otherwise subject to these investigations is not excluded when commingled with acetone from sources not subject to these investigations. Only the subject merchandise component of such commingled products is covered by the scope of these investigations. The Chemical Abstracts Service ("CAS") registry number for acetone is 67-64-1.

The merchandise covered by these investigations is currently classifiable under Harmonized Tariff Schedule of the United States ("HTSUS") subheadings 2914.11.1000 and 2914.11.5000. Although these HTSUS subheadings and CAS registry number are provided for convenience and customs purposes, the written description of the scope of these investigations is dispositive.

Reporting of information.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

<u>D-GRIDS tool.</u>--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macroenabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

I-1a. OMB statistics.--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 50 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

	other (e.g., technology)	

II-3a. **Production using same machinery.--**Please report your firm's production of products using the same equipment, machinery, or employees as used to produce acetone, and the combined production capacity on this shared equipment, machinery, or employees in the periods indicated.

"Overall production capacity" or "capacity" – The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup).

Note.--If your firm does not produce any out-of-scope merchandise on the same machinery and equipment as scope merchandise then the "overall production capacity" numbers reported in this question should be exactly equal to the "average production capacity" numbers reported in question II-9. If, however, your firm does produce out-of-scope merchandise using the same machinery and equipment as scope merchandise, then the "average production capacity" reported in question II-9 should exclude the portion of "overall production capacity" that was used to produce this out-of-scope merchandise.

"Production" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

Fischer-Tropsch synthesis process	
Other process ¹	
¹ Describe the process your firm uses:	

II-3g.	Acetone vs phenol ratioIf your firm reported co-/by-product (phenol) production in II-3a,
	what was the average ratio of acetone production to the co-/by-products (phenol) production
	your firm achieved over the January 2016 through June 2019 period? percent (acetone to phenol).
	Also was there variability in this ratio of primary product (acetone) to co-/by-product (phenol)

No	Yes	If yesPlease describe the range in the ratio and how it changed over the January 2016 through June 2019 period, and indicate to what degree this variability was controlled by your firm.

II-4. **Tolling**.--Since January 1, 2016, has your firm been involved in a toll agreement regarding the production of acetone?

"Toll agreement"--Agreement between two firms whereby the first firm furnishes the raw materials and the second firm uses the raw materials to produce a product that it then returns to the first firm with a charge for processing costs, overhead, etc.

No	Yes	If yes Please describe the toll arrangement(s) and name the firm(s) involved.

U.S. Producers' Questionnaire - Acetone (Final	U.S.	. Producers'	Questionnaire	- Acetone	(Fina
--	------	--------------	----------------------	-----------	-------

	II.	-5.	Foreign	trade	zones
--	-----	-----	----------------	-------	-------

(a)	Firm's FTZ operationsDoes your firm produce acetone in and/or admit acetone into a
	foreign trade zone (FTZ)?

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise. A foreign trade zone must be designated as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

No	Yes	If yes Describe the nature of your firms operations in FTZs and identify the specific FTZ site(s).

(b) Other firms' FTZ operations.--To your knowledge, do any firms in the United States import acetone into a foreign trade zone (FTZ) for use in distribution of acetone and/or the production of downstream articles?

No	Yes	If yesIdentify the firms and the FTZs.

II-6a. <u>Production decisions.</u>—If your firm is a by-/co-product producer, indicate which product primarily drives your firm's production decisions for acetone (check only one option) and describe the primary factors involved in the production decision(s).

Solely acetone	Primarily acetone	Equally acetone and phenol	Primarily phenol	Solely phenol

Please describe the factors driving the production decision(s).				

II-7. <u>Storage capacity</u>.--Report the <u>total</u> storage capacity (i.e., both owned and leased, including barges) associated with your firm's acetone and phenol operations at the end of the specified period (i.e., December 31)?

	Quantity (in	short tons)					
	Calend	ar years ended (Decemb	er 31)

² Can your firm's phen no capital investment or money, and effort that v storage capacity:	me of the firm(s) from which sold storage capacity be switch retooling? Yes. Now yould be required to convert. The sold is the firm(s) from which we have sold in the firm(s) from which we have sold in the firm(s) from which we of the firm(s) from which we will be sold in the firm(s) from which we will be sold in the firm(s) from which we will be sold in the firm(s) from which we will be sold in the firm(s) from which we will be sold in the firm(s) from which we will be sold in the firm(s) from which we will be sold in the firm(s) from which we will be sold in the firm(s).	ched to acetone storage on the control of the contr	apacity with minimal to e the amount of time, age capacity to acetone				

II-8a. Storage expansion decisions.--Please report any periods during which your firm was required to purchase or lease additional storage capacity for your acetone operations since January 1, 2016. In your response, please identify the date the new capacity was required, the volume of that new capacity, your reasons for adding capacity in that time period, and whether the decision to add storage capacity was affected by (or affected) acetone prices.

Select definitions

"Average production capacity" or "capacity" – The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).

"Production" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

"Commercial U.S. shipments" – Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report <u>net values</u> (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm. Such transactions are valued at fair market value.

"Transfers to related firms" – Shipments made to related firms. Such transactions are valued at fair market value.

"Related firm" —A firm that your firm solely or jointly owned, managed, or otherwise controlled; a firm that solely or jointly owned, managed, or otherwise controlled your firm; and/or a firm that was solely or jointly owned, managed, or otherwise controlled by a firm that also solely or jointly owned, managed, or otherwise controlled your firm.

"Export shipments" – Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" — Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-9. <u>Production, shipment, and inventory data</u>.--Report your firm's production capacity, production, shipments, and inventories related to the production of acetone in its U.S. establishment(s) during the specified periods.

Quantity (in short tons) and value (in \$1,000)

Specialty grades (e.g., low water, NF grade) (T)	

<u>RECONCILIATION OF SHIPMENTS BY TYPE</u>.--Please ensure that the quantity reported for shipments by type (i.e., lines Q through T) in this question equal the quantity reported for U.S. shipments (i.e., lines D, F, and H) in 2018 in question II-10. If the calculated fields below return values other than zero (i.e., "0"), the data reported must be revised prior to submission to the Commission.

Reconciliation	Calendar year 2018
Q + S - D - F - H= zero ("0"), if not revise.	0

II-12. **Employment data**.--Report your firm's employment-related data to the production of acetone and provide an explanation for any trends in these data.

"Production and Related Workers" (PRWs) includes working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations. Average number employed may be computed by adding the number of employees, both full time and part time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 6. For the January to June periods, calculate similarly and divide by 6.

"Hours worked" includes time paid for sick leave, holidays, and vacation time. Include overtime hours actually worked; do not convert overtime pay to its equivalent in straight time hours.

"Wages paid" – Total wages paid before deductions of any kind (e.g., withholding taxes, old-age and unemployment insurance, group insurance, union dues, bonds, etc.). Include wages paid directly by your firm for overtime, holidays, vacations, and sick leave.

		Calendar years		Januar	y-June
Item	2016	2017	2018	2018	2019
Average number of PRWs (number)

II-14. Related firms.--If your firm reported transfers to related firms in question II-7, please identify the firm(s) and indicate the nature of the relationship between your firm and the related firms (e.g., joint venture, wholly owned subsidiary), whether the transfers were priced at market value or by a non-market formula, whether your firm retained marketing rights to all transfers, and whether the related firms also processed inputs from sources other than your firm.

II-15. <u>Purchases</u>. -- Has your firm purchased acetone produced in the United States or in other countries since January 1, 2016? (Do not include imports for which your firm was the importer of record. These should be reported in an importer questionnaire).

"Purchase" – A transaction to buy product from a U.S. corporate entity such as another U.S. producer, a U.S. distributor, or a U.S. firm that has directly imported the product.

"Import" —A transaction to buy from a foreign supplier where your firm is the importer of record.

No	If yes Report such purchases in the table below and explain the reasons for your firms' purchases.

Note: If your firm served as the importer of record for any purchases from foreign suppliers, either for your own account or as a service for another entity, those purchases are to be considered "imports" not "purchases" and **should not** be included in the table below

III-8.	Inputs purchased from related suppliersPlease confirm that the inputs purchased from
	related suppliers, as identified in III-7, were reported in III-9d (financial results on acetone) in a
	manner consistent with your firm's accounting books and records.

Yes	If noIn the space below, please report the valuation basis of inputs purchased from related suppliers as reported in question III-9a.

III-9a. <u>Co-products or by-products</u>.--Does your firm's production process for acetone result in the production of additional chemicals that are commercially sold?

No	Accounting treatment of non-acetone products	Yes	If yesPlease identify the other (non-acetone) coproducts or by-products.
	Co-products		
	By-products		

III-9b.	<u>Co-product cost allocations.</u> If your firm reported co-product(s) in III-9a, please describe the
	major shared costs between acetone and its co-products, and describe how those costs are
	apportioned between acetone and the co-product(s).

III-9c. (i) <u>By-product revenue.</u>— If your firm reported yes to by-product accounting treatment in III-9a, report your firm's total by-product sales revenue, net of relevant processing costs, associated with the acetone products operations of your U.S. establishment(s). Provide data for the three most recently completed fiscal years, and for the specified interim periods. **Note: the data provided below will appear in question III-9d as a reduction to COGS.**

Note -- The table above contains calculations that will appear when you have entered data in the MS Word form fields.

² Less discounts, returns, allowances, and prepaid freight. The quantities and values should approximate the corresponding shipment quantities and values reported in Part II of this questionnaire.

³ COGS (whether for domestic or export sales) should include costs associated with CS, IC, and Transfers.

⁴ Data on raw material costs will populate here once reported in question III-9f.

III-9e. <u>Financial data reconciliation</u>.--The calculable line items from question III-9a (i.e., total net sales quantities and values, total COGS, gross profit (or loss), total SG&A, and net income (or loss)) have been calculated from the data submitted in the other line items. Do the calculated fields return the correct data according to your firm's financial records ignoring non-material differences that may arise due to rounding?

Yes	No	If no If the calculated fields do not show the correct data, please double check the feeder data for data entry errors and revise. Also, check signs accorded to the post operating income line items; the two expense line items should report positive numbers (i.e., expenses are positive and incomes or reversals are negativeinstances of the latter should be rare in those lines) while the income line item also in most instances should have its value be a positive number (i.e., income is positive, expenses or reversals are negative). If after reviewing and potentially revising the feeder data your firm has provided, the differences between your records and the calculated fields persist please identify and discuss the differences in the space below.

III-9f. Raw materials.- Report the raw materials costs related to your firm's sales of acetone in the specified periods by method of production and sourcing of material inputs.

III-11.	Classification of identified nonrecurring items (charges and gains) in the accounting books and
	<u>records of the company</u> If non-recurring items were reported in question III-10 above, please
	identify where your company recorded these items in your accounting books and records in the normal course of business; i.e., just as responses to question III-10 identify where these items are reported in question III-9d.

III-12. <u>Asset values</u>.--Report the <u>total</u> assets (i.e., both current and long-term assets) associated with the production, warehousing, and sale of acetone. If your firm does not maintain some or all of the specific asset information necessary to calculate total assets for acetone in the normal course of business, please estimate this information based upon a method (such as production, sales, or costs) that is consistent with relevant cost allocations in question III-9d. Provide data as of the end of your firm's three most recently completed fiscal years.

Note: Total assets should reflect <u>net assets</u> after any accumulated depreciation and allowances deducted.

Total assets should be <u>allocated to the subject products</u> if these assets are also related to other products. Please provide a <u>brief explanation if there are any substantial changes</u> in total asset value during the period (e.g., due to asset write-offs, revaluation, and major purchases) as well as a brief explanation of any allocation methodologies used for assets used in co-production.

² Please describe the nature, focus, and significance of your firm's R&D expenses related to subject product, as well as a brief explanation of any allocation methodologies used for research and development expenses covering both subject product and any co-product(s). ______

110	Dradusars'	Questionnaire -	A	/Final
U.S.	Producers	Questionnaire -	Acetone	trinai

III-14.	Data consistency and reconciliation Please indicate whether your firm's financial data for
	guestions III-9d, 12, and 13 are based on a calendar year or on your firm's fiscal year:

Calendar year	Fiscal year	Specify fiscal year

Please note the quantities and values reported in question III-9d should reconcile with the data reported in question II-9 (including export shipments) as long as they are reported on the same calendar year basis.

RECONCILIATION OF TRADE VS FINANCIAL DATA.--Please ensure that the quantities and values reported for total shipments in part II equal the quantities and values reported for total net sales in part III of this questionnaire in each time period unless the financial data from part III are reported on a fiscal year basis, in which case only the interim periods must reconcile. If the calculated fields below return values other than zero (i.e., "0") and both are being reported on a calendar basis, please explain the discrepancy below.

	Fiscal years ended January-June			y-June	
Reconciliation	2016	2017	2018	2018	2019
Quantity: Trade data from question II-9 (lines D, F, H, and J) less financial total net sales quantity data from question III-9d, = zero ("0").	0	0	0	0	0
Value: Trade data from question II-9 (lines E, G, I, and K) less financial total net sales value data from question III-9d, = zero ("0").	0	0	0	0	0

Do these data in question III-9d reconcile with data in question II-9?

Yes	No	If no, please explain.

If your responses to any of the items in questions III-15, III-16, and III-17 differ by country, please describe these differences and, as applicable, indicate which country or countries your response refers to in the relevant form fields.

III-15. <u>Effects of imports on investment</u>.--Since January 1, 2016, has your firm experienced any actual negative effects on its return on investment or the scale of capital investments as a result of imports of acetone from Belgium, Korea, Singapore, South Africa and/or Spain?

No	Yes		
		If yes, my firm has experien	nced actual negative effects as follows.
	(check	as many as appropriate)	(please describe)
		Cancellation, postponement, or rejection of expansion projects	
		Denial or rejection of investment proposal	
		Reduction in the size of capital investments	
		Return on specific investments negatively impacted

PRICE DATA

- IV-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2016 of the following products produced by your firm.
 - **Product 1.**--Standard grade acetone, sold in bulk to distributors, spot/short-term contract sales.
 - Product 2.--Standard grade acetone, sold in bulk to distributors, annual/long-term contract sales.
 - **Product 3.**--Standard grade acetone, sold in bulk to end users, spot/short-term contract sales.
 - Product 4.--Standard grade acetone, sold in bulk to end users, annual/long-term contract sales.

For purposes of these pricing products, "bulk" shipments are full-barge, railcar, or tanker truck containers. "Short-term contracts" are less than 12 months in duration, and "annual/long-term" contracts are for 12 months or longer.

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> <u>point of shipment</u> and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

IV-2a. During January 2016-June 2019, did your firm produce and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

YesPlease complete the following pricing data table as appropriate.
NoSkip to question IV-3.

IV-2b. <u>Price data</u>.--Report below the quarterly price data¹ for pricing products² produced and sold by your firm.

Report data in *short tons* and *actual dollars* (not 1,000s).

(Quantity in short tons, value in dollars)

			been any changes i uary 1, 2016?	n the business cycles or conditions of competition for
	No	Yes	If yes, describe.	
		-		f competition of <u>phenol</u> affected the business cycles one since January 1, 2016?
	No	Yes	If yes, describe.	

IV-16.	Supply	constraints
--------	--------	-------------

(a) Has your firm refused, declined, or been unable to supply acetone since January 1, 2016 (including an inability to supply the total volume requested formally or informally for the following calendar year)? (Examples include placing customers on allocation or "controlled order entry," declining to accept new customers or renew existing customers, declining to supply the quantity of acetone requested by new or existing customers seeking to commit volume for annual requirements, delivering less than the quantity promised, being unable to meet timely shipment commitments, force majeure, etc.)

No	Yes	If yes, please describe in detail, including the dates, customers, and quantities of acetone involved.

(b) Since January 1, 2016, have weather-related events or plant closures (including the timing of closure announcements versus actual closures) affected the overall supply of U.S.-produced acetone in the U.S. market?

No	Yes	If yes, please describe, noting the specific events, and dates that the market was affected.

IV-17. Raw materials.--How have acetone raw material prices changed since January 1, 2016?

Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explain, noting how raw material price changes have affected your firm's selling prices for acetone.

IV-18. <u>Interchangeability</u>.--Is acetone produced in the United States and in other countries interchangeable (i.e., can they physically be used in the same applications)?

Please indicate A, F, S, N, or 0 in the table below:

- A = the products from a specified country-pair are *always* interchangeable
- F = the products are *frequently* interchangeable
- S = the products are *sometimes* interchangeable
- N = the products are *never* interchangeable
- 0 = *no familiarity* with products from a specified country-pair

Country-pair	Belgium	Korea	Singapore	South Africa	Spain	Other countries
United States						
Belgium						
Korea		\times				
Singapore		\times	\times			
South Africa						
Spain		\times			>	

For any country-pair producing acetone that is *sometimes* or *never* interchangeable, identify the country-pair and explain the factors that limit or preclude interchangeable use:

IV-19. <u>Factors other than price.</u>--Are differences other than price (e.g., quality, availability, transportation network, product range, technical support, *etc.*) between acetone produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = no familiarity with products from a specified country-pair

Country-pair	Belgium	Korea	Singapore	South Africa	Spain	Other countries
United States						
Belgium						
Korea		\times				
Singapore		\times	\times			
South Africa						
Spain					><	

For any country-pair for which factors other than price *always* or *frequently* are a significant factor in your firm's sales of acetone, identify the country-pair and report the advantages or disadvantages imparted by such factors:

IV-20. <u>Customer identification</u>.--List the names and contact information for your firm's 10 largest U.S. customers for acetone since January 1, 2016. Indicate the share of the quantity of your firm's total shipments of acetone that each of these customers accounted for in 2018.

	Customer's name	City	State	Share of 2018 sales (%)
1				
2				
3				
4				
5				
6				
7				
8				
9				
10				

IV-21.	Com	petition	from	im	ports.	
--------	-----	----------	------	----	--------	--

(a) <u>Lost revenue</u>.--Since January 1, 2016: To avoid losing sales to competitors selling acetone from Belgium, Korea, Singapore, South Africa and/or Spain, did your firm:

Item	No	Yes
Reduce prices		
Roll back announced price increases		

(b) <u>Lost sales</u>.--Since January 1, 2016: Did your firm lose sales of acetone to imports of this product from Belgium, Korea, Singapore, South Africa and/or Spain?

No	Yes

IV-22.	Other explanationsIf your firm would like to further explain a response to a question in Part
	IV for which a narrative response box was not provided, please note the question number and
	the explanation in the space provided below. Please also use this space to highlight any issues
	your firm had in providing the data in this section, including but not limited to technical issues
	with the MS Word questionnaire.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at: https://www.usitc.gov/investigations/701731/2019/acetone_belgium_korea_saudi_arabia_singapore_south/final.htm

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: ACET

• E-mail.—E-mail the MS Word questionnaire to abu.kanu@usitc.gov; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm <u>does not</u> **produce this product**, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

<u>Parties to this proceeding</u>.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
