PART I.—GENERAL INFORMATION

Background.-- This proceeding was instituted in response to a petition filed on August 9, 2017, by North Pacific Paper Company (“NORPAC”), Longview, Washington. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce (“Commerce”) makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://usitc.gov/investigations/701731/2017/certain_uncoated_groundwood_paper_canada/preliminary.htm.

Uncoated ground wood paper covered by these investigations includes certain paper that has not been coated on either side and with 50 percent or more of the cellulose fiber content consisting of groundwood pulp, or deinked pulp made from recycled ONP (old newspapers), weighing not more than 90 grams per square meter. Groundwood pulp includes all forms of pulp produced from a mechanical process, such as thermo-mechanical process (“TMP”), chemi-thermo mechanical process (“CTMP”), or bleached chemi-thermo mechanical process (“BCTMP”) or any other process other than the bleached Kraft process. The scope includes paper shipped in any form, including both rolls and sheets.

Certain uncoated groundwood paper includes but is not limited to standard newsprint, high bright newsprint, book publishing, directory, and printing and writing papers. The scope includes paper that is white, off-white, cream, or colored.

Specifically excluded from the scope are imports of paper printed with final content of printed text or graphic. Also excluded are papers that otherwise meet this definition, but which have undergone a supercalendering process.

UGW paper is currently imported under statistical reporting numbers 4801.00.0120, 4801.00.0140, 4802.61.1000, 4802.61.2000, 4802.61.3010, 4802.61.3110, 4802.61.3191, 4802.61.6040, 4802.62.1000, 4802.62.2000, 4802.62.3000, 4802.62.6140, 4802.69.1000, 4802.69.2000, and 4802.69.3000¹ of the Harmonized Tariff Schedule of the United States (HTSUS). The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

High Bright Paper. -- Any paper that meets the definition of certain uncoated groundwood paper (defined above) with ISO brightness of 65 or greater.

Regular UGW paper.—Any paper that meets the definition of certain uncoated groundwood paper (defined above) with ISO brightness that is below 65.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing UGW paper (as defined above) into the United States from a foreign manufacturer or through its selling agent.

¹ From 2014 to 2016, UGW paper was imported under statistical reporting numbers 4801.00.0020, 4801.00.0040, 4802.61.3091, and 4802.62.6040. These numbers were discontinued in 2017. UGW paper imported under 4801.00.0020 is now imported under 4801.61.0120. UGW paper imported under 4801.00.0040 is now imported under 4801.00.0140. UGW paper imported under 4802.61.3091 is now imported under 4802.61.3191. UGW paper imported under 4802.62.6040 is now imported under 4802.62.6140.

Reporting of information.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.-- The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Calvin Chang (202-205-3062, hangyul.chang@usitc.gov).

III-23. **Other explanations.**--If your firm would like to further explain a response to a question in Part III that did not provide a narrative response box, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

Correcting Valid number error messages.--If you are completing a Commission questionnaire in a country that uses periods (“.”) to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission’s questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system’s number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer’s number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. “Italian (Italy)”) to “English (United States)” (see screen shots below)

When you do this the number “twelve million dollars and thirty five cents” would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the questionnaire. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.
