U.S. PURCHASERS' QUESTIONNAIRE

CARTON-CLOSING STAPLES FROM CHINA

This questionnaire must be received by the Commission by <u>December 20, 2017</u>

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its antidumping investigation concerning carton-closing staples from China (Inv. No. 731-TA-1359 (Final)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)). Further information on this questionnaire can be obtained from Yasnanhia Cabral (202-205-2230, yasnanhia.cabral@usitc.gov).

PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on March 31, 2017, by North American Steel & Wire, Inc./ISM Enterprises, Butler, PA. Antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of dumping. Questionnaires and other information pertinent to this proceeding are available at

https://www.usitc.gov/investigations/title 7/2017/carton closing staples china/final.htm.

<u>Carton-closing staples</u> may be manufactured from carbon, alloy, or stainless steel wire, and are included in the scope of the investigation regardless of whether they are uncoated or coated, regardless of the type of coating.

Carton-closing staples are generally made to American Society for Testing and Materials (ASTM) specification ASTM D1974/D1974M–16, but can also be made to other specifications. Regardless of specification, however, all carton-closing staples meeting the scope description are included in the scope. Carton-closing staples include stick staple products, often referred to as staple strips, and roll staple products, often referred to as coils. Stick staples are lightly cemented or lacquered together to facilitate handling and loading into stapling machines. Roll staples are taped together along their crowns. Carton-closing staples are covered regardless of whether they are imported in stick form or roll form.

Carton-closing staples vary by the size of the wire, the width of the crown, and the length of the leg. The nominal leg length ranges from 0.4095 inch to 1.375 inches and the nominal crown width ranges from 1.125 inches to 1.375 inches. The size of the wire used in the production of carton-closing staples varies from 0.029 to 0.064 inch (nominal thickness) by 0.064 to 0.100 inch (nominal width).

Carton-closing staples subject to this investigation are currently classifiable under subheadings 8305.20.00.00 and 7317.00.65.60 of the Harmonized Tariff Schedule of the United States ("HTSUS"). While the HTSUS subheadings and ASTM specification are provided for convenience and for customs purposes, the written description of the subject merchandise is dispositive.

<u>Purchaser</u>.--Any firm engaged, either directly or through a parent company or subsidiary, in purchasing carton-closing staples from another firm that produces, imports, or otherwise distributes carton-closing staples.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

I-1. OMB statistics.--Please report the actual number of hours required and the cost to your firm of completing this questionnaire.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 25 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

I-2.	<u>Establishments covered.</u> Provide the name and address of your U.S. establishment(s) covered by this questionnaire, if different from that listed on the cover page. Firms operating more than one establishment should combine the data for all establishments into a single response.

For any country-pair producing carton-closing staples which is *sometimes* or *never* interchangeable, please identify the country-pair and explain the factors that limit or preclude interchangeable use:

IV-2. <u>Factors other than price</u>.--Are differences other than price (e.g., quality, availability, transportation network, product range, technical support, *etc.*) between carton-closing staples produced in the United States and in other countries a significant factor in your firm's purchases of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = *no familiarity* with products from a specified country-pair

• E-mail.—E-mail the MS Word questionnaire to yasnanhia.cabral@usitc.gov; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.
