

FOREIGN PRODUCERS'/EXPORTERS' QUESTIONNAIRE

LARGE DIAMETER WELDED PIPE (LDWP) FROM CANADA, CHINA, GREECE, INDIA, KOREA, AND TURKEY

This questionnaire must be received by the Commission by **September 28, 2018**
See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing duty and antidumping duty investigations concerning large diameter welded pipe (LDWP) from Canada, China, Greece, India, Korea, and Turkey (Inv. Nos. 701-TA-593-596 and 731-TA-1401-1406 (Final)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII.

<p>Name of firm _____</p> <p>Address _____</p> <p>Website _____</p> <p>Has your firm produced or exported LDWP (as defined on next page) at any time since January 1, 2015?</p> <p><input type="checkbox"/> NO (Sign the certification below and promptly return only this page of the questionnaire to the Commission)</p> <p><input type="checkbox"/> YES (Complete all parts of the questionnaire, and return the entire questionnaire to the Commission)</p> <p>Data reported in this questionnaire relate to (Check one):</p> <p><input type="checkbox"/> CANADA <input type="checkbox"/> CHINA <input type="checkbox"/> GREECE <input type="checkbox"/> INDIA <input type="checkbox"/> KOREA <input type="checkbox"/> TURKEY</p> <p>Return questionnaire via the Commission <i>Drop Box</i> by clicking on the following link: https://dropbox.usitc.gov/oinv/. (PIN: PIPE)</p>
--

CERTIFICATION

I certify that the information herein supplied in response to this questionnaire is complete and correct to the best of my knowledge and belief and understand that the information submitted is subject to audit and verification by the Commission. By means of this certification I also grant consent for the Commission, and its employees and contract personnel, to use the information provided in this questionnaire and throughout this proceeding in any other import-injury proceedings conducted by the Commission on the same or similar merchandise.

I, the undersigned, acknowledge that information submitted in response to this request for information and throughout this proceeding or other proceedings may be disclosed to and used: (i) by the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. I understand that all contract personnel will sign appropriate nondisclosure agreements.

Background. --This proceeding was instituted in response to a petition filed on January 17, 2018, by American Cast Iron Pipe Company (Birmingham, Alabama), Berg Steel Pipe Corp. (Panama City, Florida), Berg Spiral Pipe Corp. (Mobile, Alabama), Dura-Bond Industries, Inc. (Export, Pennsylvania), Skyline Steel (Newington, Virginia), and Stupp Corporation (Baton Rouge, Louisiana). Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://usitc.gov/investigations/701731/2018/large_diameter_pipe_canada_china_greece_india/final.htm.

Large diameter welded pipe (LDWP) covered by these investigations is welded carbon and alloy steel pipe (including stainless steel pipe), more than 406.4 mm (16 inches) in nominal outside diameter (large diameter welded pipe), regardless of wall thickness, length, surface finish, grade, end finish, or stenciling. Large diameter welded pipe may be used to transport oil, gas, slurry, steam, or other fluids, liquids, or gases. It may also be used for structural purposes, including, but not limited to, piling. Specifically, not included is large diameter welded pipe produced only to specifications of the American Water Works Association (AWWA) for water and sewage pipe.

Large diameter welded pipe used to transport oil, gas, or natural gas liquids is normally produced to the American Petroleum Institute (API) specification 5L. Large diameter welded pipe may also be produced to American Society for Testing and Materials (ASTM) standards A500, A252, or A53, or other relevant domestic specifications, grades and/or standards. Large diameter welded pipe can be produced to comparable foreign specifications, grades and/or standards or to proprietary specifications, grades and/or standards, or can be non-graded material. All pipe meeting the physical description set forth above is covered by the scope of this investigation, whether or not produced according to a particular standard.

Subject merchandise also includes large diameter welded pipe that has been further processed in a third country, including but not limited to coating, painting, notching, beveling, cutting, punching, welding, or any other processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the in-scope large diameter welded pipe.

Excluded from the countervailing duty investigation against Turkey are any products covered by the existing countervailing duty order on welded line pipe from the Republic of Turkey. See Welded Line Pipe from the Republic of Turkey: Countervailing Duty Order, 80 FR 75054 (December 1, 2015). Excluded from the antidumping duty investigations against Korea and Turkey are any products covered by the existing antidumping duty orders on welded line pipe from Korea and Turkey, respectively. See Welded Line Pipe from the Republic of Korea and the Republic of Turkey: Antidumping Duty Orders, 80 FR 75056 (December 1, 2015). Also excluded from the antidumping duty investigation against Korea are any products covered by the existing antidumping order on welded ASTM A-312 stainless steel pipe from Korea. See Welded ASTM A-312 Stainless Steel Pipe from South Korea: Antidumping Duty Order, 57 FR 62300 (December 30, 1992).

The large diameter welded pipe that is subject to this proceeding is currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) under statistical reporting numbers 7305.11.1030, 7305.11.1060, 7305.11.5000, 7305.12.1030, 7305.12.1060, 7305.12.5000, 7305.19.1030, 7305.19.1060, 7305.19.5000, 7305.31.4000, 7305.31.6010, 7305.31.6090, 7305.39.1000 and 7305.39.5000. While the HTSUS statistical reporting numbers are provided for convenience and customs purposes, the written description of the scope of this proceeding is dispositive.

LDW line pipe.--Large diameter welded pipe of a kind used for oil and gas pipelines and normally produced to the API specification 5L. Large diameter welded line pipe can also be produced to comparable domestic or foreign specifications or to proprietary grades.

LDW structural pipe.--Large diameter welded pipe normally produced to ASTM standards A500, A252, or A53. Large diameter welded structural pipe can also be produced to comparable domestic or foreign specifications or to proprietary grades, or be non-graded material.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, purchaser and/or foreign producer questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. §1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Abu B. Kanu (202-205-2597, abu.kanu@usitc.gov).

Special Korea instruction.--Korean producers Husteel and Hyundai are asked to submit their response to this questionnaire in two separate filings. One submission for their LDWP operations relating to merchandise less equal to or less than 24" OD, and a second submission for their LDWP operations relating to merchandise greater than 24" OD merchandise.

I-1. **OMB statistics.**--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 20 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

I-2. **Establishments covered.**--Provide the name and address of establishment(s) covered by this questionnaire. If your firm is publicly traded, please specify the stock exchange and trading symbol.

“Establishment”-- Each facility of a firm in Canada, China, Greece, India, Korea, and Turkey involved in the production or export of LDWP, including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities. Firms operating more than one establishment in Canada, China, Greece, India, Korea, and Turkey should combine the data for all establishments into a single report.

--

I-3. **Related producers.**--Does your firm or any related firm produce, have the capability to produce, or have any plans to produce LDWP in the United States or other countries?

No Yes--Please name the firm(s) and country (ies) below and, if U.S. producer(s), ensure that they complete the Commission's producer questionnaire.

--

I-4. **Related U.S. importers.**--Does your firm or any related firm import or have any plans to import LDWP into the United States?

- No Yes--Please name the firm(s) below and ensure that they complete the Commission's importer questionnaire.

--

I-5. **U.S. importers.**--Please provide the names, street addresses (not P.O. boxes), contacts, telephone numbers, and e-mail addresses of the **FIVE** largest U.S. importers of your firm's LDWP in 2017.

	Importer's name	Contact person	Email	Telephone	Share of your firm's 2017 U.S. exports (%)

PART II.--TRADE AND RELATED INFORMATION

Further information on this part of the questionnaire can be obtained from Abu B. Kanu (202-205-2597, abu.kanu@usitc.gov). **Supply all data requested on a calendar-year basis.**

II-1. **Contact information.**--Please identify the responsible individual and the manner by which Commission staff may contact that individual regarding the confidential information submitted in part II.

Name	
Title	
Email	
Telephone	
Fax	

II-2. **Changes in operations.**--Please indicate whether your firm has experienced any of the following changes in relation to the production of LDWP since January 1, 2015.

<i>(check as many as appropriate)</i>		<i>(If checked, please describe; leave blank if not applicable)</i>
<input type="checkbox"/>	plant openings	
<input type="checkbox"/>	plant closings	
<input type="checkbox"/>	relocations	
<input type="checkbox"/>	expansions	
<input type="checkbox"/>	acquisitions	
<input type="checkbox"/>	consolidations	
<input type="checkbox"/>	prolonged shutdowns or production curtailments	
<input type="checkbox"/>	revised labor agreements	
<input type="checkbox"/>	other (e.g., technology)	

II-3a. **Anticipated changes in operations.**--Does your firm anticipate any changes in the character of its operations or organization (as noted above) relating to the production of LDWP in the future?

No

Yes--Supply details as to the time, nature, and significance of such changes and provide underlying assumptions, along with relevant portions of business plans or other supporting documentation that address this issue. **Include in the response a specific projection of your firm's capacity to produce LDWP (short tons) for 2018 and 2019.**

II-3b. **Facility Detail.**-- Please describe the type of mill used to produce LDWP and the type of pipe(s) produced in that facility.

II-4a. **Production using same machinery.**-- Please report your firm's production of products made on the same equipment and machinery used to produce LDWP, and the combined production capacity on this shared equipment and machinery.

"Overall production capacity" or "capacity" --The level of production that your establishment(s) could reasonably have expected to attain during the specified periods for all products manufactured in that establishment using the same manufacturing equipment. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup).

"Production" --All production in your establishment(s) in Canada, China, Greece, India, Korea, and Turkey, including production consumed internally within your firm.

"Line pipe" --Large diameter welded pipe used to transport oil, gas, or natural gas liquids is normally produced to the API specification 5L.

"Structural pipe" --Large diameter welded produced to ASTM standards A500, A252, or A53. Large diameter welded pipe can be produced to comparable foreign specifications or to proprietary grades, or non-graded material.

Item	Quantity (in short tons)

Total	0	0	0	0	0
LDW structural pipe					
Overall production capacity					
Production of:					
LDW structural pipe ³	0	0	0	0	0
LDW line pipe					
Other products ⁴					
Total	0	0	0	0	0
¹ Data entered for production of LDW line pipe will populate here once reported in question II-9, row C. ² Please identify these products: _____. ³ Data entered for production of LDW structural pipe will populate here once reported in question II-11, row C. ⁴ Please identify these products: _____.					

Note.--All LDW line pipe production data reported for Turkey should exclude circular welded line pipe with an outside diameter of 24" or less. Imports of circular welded line pipe from Turkey not more than 24" in nominal outside diameter are currently subject to an antidumping duty order and a countervailing duty order. Such data, however, should be included in the production of "other products."

II-4b. **Operating parameters.**--The production capacity reported in II-4a is based on operating _____ hours per week, _____ weeks per year.

II-4c. **Capacity calculation.**--Please describe the methodology used to calculate overall production capacity reported in II-4a, and explain any changes in reported capacity.

II-4d. **Production constraints.**--Please describe the constraint(s) that set the limit(s) on your firm's production capacity.

II-4e. **Product shifting.**—

(i). Is your firm able to switch production (capacity) between LDWP and other products using the same equipment and/or labor?

No

Yes--(i.e., have produced other products or are able to produce other products). Please identify other actual or potential products:

_____.

(ii). Please describe the factors that affect your firm's ability to shift production capacity between products (e.g., time, cost, relative price change, etc.), and the degree to which these factors enhance or constrain such shifts.

II-5. **Share of sales.**--What percentage of your firm's total sales in its most recent fiscal year was represented by sales of LDWP? _____ percent.

II-6. **Firm's estimated share of production in Canada, China, Greece, India, Korea, and Turkey.**--Please estimate the percentage of total production of LDWP in the country specified on the certification page accounted for by your firm's production in 2017. _____ percent.

II-7. **Firm's estimated share of country's exports.**--Please estimate the percentage of total exports to the United States of LDWP from the country specified on the certification page accounted for by your firm's exports in 2017. _____ percent.

II-8. **Third country trade actions.**--Is the LDWP exported by your firm subject to antidumping/countervailing duty/safeguard findings, remedies, or proceedings?

No

Yes--List the products(s), countries affected, and the date of such findings/remedies/proceedings.

II-9. **Trade data instructions and definitions.**—Report your firm's production capacity, production, shipments, and inventories related to the production of LDW line pipe, breaking out line pipe and structural pipe production, in your establishment(s) in Canada, China, Greece, India, Korea, and/or Turkey during the specified periods. Do not include resales of LDWP that your firm did not produce in this question; those data to the degree they are exported to the United States should only be reported in question II-10.

Do not submit data by manufacturing facility if they are in the same country. If your firm has multiple manufacturing establishments within one country, you are required to combine data for those establishments within one foreign producer questionnaire response.

Do not submit data on multiple countries combined. The establishments reported here should all be located in the country of the firm's address reported on the certification page. Multinational companies with production in multiple subject countries should submit separate foreign producer questionnaire responses for each subject country.

"Average production capacity" or "capacity"—The level of production that your establishment(s) could reasonably have expected to attain during the specified periods for all products manufactured in that establishment using the same manufacturing equipment. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).

"Production"—All production in your establishment(s) in Canada, China, Greece, India, Korea, and Turkey, including production consumed internally within your firm.

"Shipments"—Shipments of products produced in your establishment(s) in Canada, China, Greece, India, Korea, and Turkey. Quantities reported should be net of returns.

"Home market commercial shipments"—Shipments, other than internal consumption and transfers to related firms, within Canada, China, Greece, India, Korea, and Turkey.

"Home market internal consumption/transfers to related firms"—Shipments made to related firms in Canada, China, Greece, India, Korea, and Turkey, including product consumed internally by your firm.

"Export shipments"—Shipments to destinations outside of the country indicated on page 1 (Canada, China, Greece, India, Korea, and Turkey), including shipments to related firms.

"Inventories"—Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-9. Trade data for LDW line pipe.--Continued

LDW line pipe

Total shipments (I) (should equal D+E+F+G)	0	0	0	0	0	0	0
End-of-period inventories (J)							

¹ Please explain the basis for your firm's projections. _____.

² The production capacity reported is based on operating _____ hours per week, _____ weeks per year. Please describe the methodology used to calculate production capacity, and explain any changes in reported capacity. _____.

³ Identify principal other export markets. _____.

Note.--Korean producers Husteel and Hyundai are asked to submit their response to this questionnaire in two separate filings. One submission for their LDW line pipe operations relating to merchandise less equal to or less than 24" OD, and a second submission for their LDW line pipe operations relating to merchandise greater than 24" OD merchandise.

Note.--All data reported for Turkey should exclude circular welded line pipe with an outside diameter of 24" or less. Imports of circular welded line pipe from Turkey not more than 24" in nominal outside diameter are currently subject to an antidumping duty order and a countervailing duty order.

Note.--All producers are requested to report their stainless steel LDW line pipe in a separate foreign producers' questionnaire submission from their non-stainless steel LDW line pipe (i.e., two separate submissions/filings). Please also then indicate whether the data submitted in this document relates to stainless steel LDW line pipe or other than stainless steel LDW line pipe below:

Stainless steel

Other than stainless steel

II-9. **Trade data for LDW line pipe.**—Continued.

RECONCILIATION OF SHIPMENTS, PRODUCTION, AND INVENTORY.--Generally, the data reported for the end-of-period inventories (i.e., line J) should be equal to the beginning-of-period inventories (i.e., line B), plus production (i.e., line C), less total shipments (i.e., lines D, E, F, and G). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

Item	Actual experience					Projections	
	Calendar year			January-June		Calendar year	
	2015	2016	2017	2017	2018	2018	2019

Exports of LDW structural pipe to the United States not produced by your firm ¹ (short tons)							
¹ List the producer(s). _____							

- II-13. **Other explanations.**--If your firm would like to further explain a response to a question in Part II that did not provide a narrative box, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

--

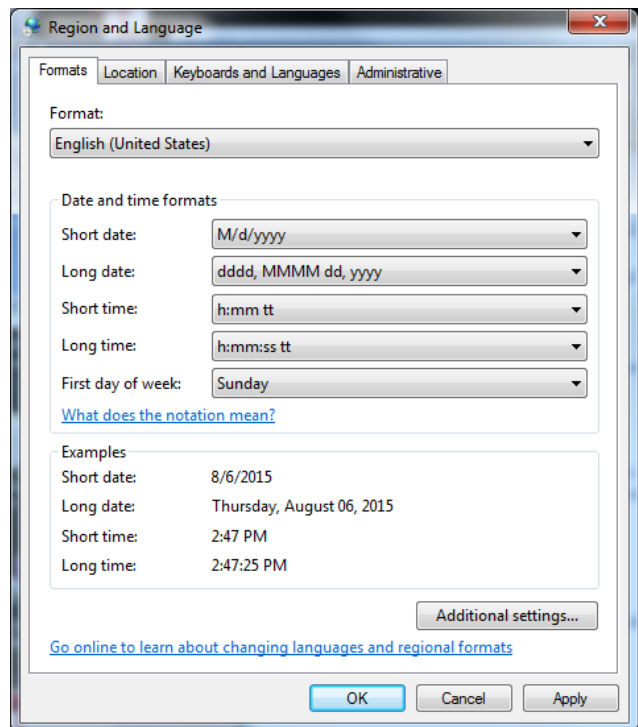

Correcting Valid number error messages.--If you are completing a Commission questionnaire in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC foreign producer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a “fillable” form in MS Word format on the Commission’s website at:

https://www.usitc.gov/investigations/701731/2018/large_diameter_pipe_canada_china_gr eece_india/final.htm.

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

- **Upload via Secure Drop Box.**—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission’s secure upload facility:

Web address: <https://dropbox.usitc.gov/oinv/> **Pin:** PIPE

- **E-mail.**—E-mail your questionnaire to abu.kanu@usitc.gov; include a scanned copy of the signed certification page (page 1). *Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm’s nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.*

If your firm did not produce or export this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

Parties to this proceeding.—If your firm is a party to this proceeding, you are required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission’s Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
