Small Diameter Graphite Electrodes from China

This questionnaire must be received by the Commission by **November 8, 2019**
See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its review of the antidumping duty order concerning small diameter graphite electrodes from China (Inv. No. 731-TA-1143 (Second Review)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII.

CERTIFICATION

I certify that the information herein supplied in response to this questionnaire is complete and correct to the best of my knowledge and belief and understand that the information submitted is subject to audit and verification by the Commission. By means of this certification I also grant consent for the Commission, and its employees and contract personnel, to use the information provided in this questionnaire and throughout this proceeding in any other import-injury proceedings or reviews conducted by the Commission on the same or similar merchandise.

I, the undersigned, acknowledge that information submitted in response to this request for information and throughout this proceeding or other proceeding may be disclosed to and used: (i) by the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. I understand that all contract personnel will sign appropriate nondisclosure agreements.

PART I.--GENERAL INFORMATION

Background.--On February 26, 2009, the Department of Commerce ("Commerce") issued an antidumping duty order on imports of small Diameter Graphite Electrodes from China. On May 1, 2019, the Commission instituted a review pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)) (the Act) to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. If both the Commission and Commerce make an affirmative determination, the order will remain in place. If either the Commission or Commerce makes a negative determination, Commerce will revoke the order. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2019/small_diameter_graphite_electrodes_china/second_review_full.htm.

Small diameter graphite electrodes covered by this review are: (A) All small diameter graphite electrodes of any length, whether or not finished, of a kind used in furnaces, with a nominal or actual diameter of 400 millimeters (16 inches) or less, and whether or not attached to a graphite pin joining system or any other type of joining system or hardware. The merchandise covered by the order also includes graphite pin joining systems for small diameter graphite electrodes, of any length, whether or not finished, of a kind used in furnaces, and whether or not the graphite pin joining system is attached to, sold with, or sold separately from, the small diameter graphite electrodes. Small diameter graphite electrodes and graphite pin joining systems for small diameter graphite electrodes are most commonly used in primary melting, ladle metallurgy, and specialty furnace applications in industries including foundries, smelters, and steel refining operations. Small diameter graphite electrodes and graphite pin joining systems for small diameter graphite electrodes that are subject to the order are currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) 8545.11.0010, 3801.10, and 8545.11.0020. The HTS statistical reporting numbers are provided for convenience and customs purposes, but written description of the scope is dispositive.

Reporting of information.--If information is not readily available from your records in exactly the form requested, furnish carefully prepared estimates. If your firm is completing more than one questionnaire in connection with this proceeding (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions in the questionnaires.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the

Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Nitin Joshi (202-708-1669, nitin.joshi@usitc.gov).

I-1. **OMB statistics.**--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 30 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

I-2. **Establishments covered.**--Provide the name and address of establishment(s) covered by this questionnaire.

"Establishment"-- Each facility of a firm in China involved in the production or export of small diameter graphite electrodes , including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities. Firms operating more than one establishment in China should combine the data for all establishments into a single report.

I-3. **Stock symbol information.**-- If your firm or any of the entities reported in question I-2 are publicly traded in the United States, please specify the stock exchange and trading symbol (including American Depository Receipts, if applicable): _____.

I-4. **External counsel.**-- If your firm or parent firm is represented by external counsel in relation to this proceeding, please specify the name of the law firm and the lead attorney(s).

Law firm: _____.
Lead attorney(s): _____.

I-5. **U.S. importers.**--Please provide the names, contacts, email addresses, and telephone numbers of the **FIVE** largest U.S. importers of your firm's small diameter graphite electrodes in 2018.

No.	Importer's name	Contact person	Email address	Area code and telephone number	Share of your firm's 2018 U.S. exports (%)

I-6. **U.S. or other country production.**--Does your firm or any related firm produce, have the capability to produce, or have any plans to produce small diameter graphite electrodes in the United States or other countries?

No	Yes	If yes--Please name the firm(s) and country(ies) below and, if U.S. producer(s), ensure that they complete the Commission's producer questionnaire.
<input type="checkbox"/>	<input type="checkbox"/>	

I-7. **U.S. importation.**--Does your firm or any related firm import or have any plans to import small diameter graphite electrodes into the United States?

No	Yes	If yes--Please name the firm(s) below and ensure that they complete the Commission's importer questionnaire.
<input type="checkbox"/>	<input type="checkbox"/>	

I-8. **Business plan.**--In Parts II and III of this questionnaire we request a copy of your company's business plan. Does your company or any related firm have a business plan or any internal documents that describe, discuss, or analyze expected future market conditions for small diameter graphite electrodes?

No	Yes	If yes--Please provide the requested documents. If you are not providing the requested documents, please explain why not.
<input type="checkbox"/>	<input type="checkbox"/>	

PART II.--TRADE AND RELATED INFORMATION

Further information on this part of the questionnaire can be obtained from Nitin Joshi (202-708-1669, nitin.joshi@usitc.gov). **Supply all data requested on a calendar-year basis.**

II-1. **Contact information.**--Please identify the responsible individual and the manner by which Commission staff may contact that individual regarding the confidential information submitted in part II.

II-2. **Changes in operations.**--Please indicate whether your firm has experienced any of the following changes in relation to the production of small diameter graphite electrodes since January 1, 2014.

<i>Check as many as appropriate.</i>	<i>If checked, please describe; leave blank if not applicable.</i>
<input type="checkbox"/> Plant openings	
<input type="checkbox"/> Plant closings	
<input type="checkbox"/> Relocations	
<input type="checkbox"/> Expansions

<input type="checkbox"/> Other (e.g., technology)	

II -2b **Anticipated changes in operations.**--Does your firm anticipate any changes in in the character of its operations or organization relating to the production of small diameter graphite electrodes in the future?

No	Yes	If yes, supply details as to the time, nature, and significance of such changes and provide underlying assumptions, along with relevant portions of business plans or other supporting documentations that address this issue.
<input type="checkbox"/>	<input type="checkbox"/>	

II-3a. **Production using same machinery.**--Please report your firm’s production of products made on the same equipment, machinery, or employees as used to produce small diameter graphite electrodes , and the combined production capacity on this shared equipment, machinery, or employees in the periods indicated.

“Overall production capacity” or “capacity” --The level of production that your establishment(s) could reasonably have expected to attain during the specified periods for all products manufactured in that establishment using the same manufacturing equipment. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup).

Note.--If your firm does not produce any out-of-scope merchandise on the same machinery and equipment as scope merchandise then the "overall production capacity" numbers reported in this question should be exactly equal to the "average production capacity" numbers reported in question II-11. If, however, your firm does produce out-of-scope merchandise using the same machinery and equipment as scope merchandise, then the "average production capacity" reported in question II-11 should exclude the portion of "overall production capacity" that was used to produce this out-of-scope merchandise.

“Production” --All production in your establishment(s) in China, including production consumed internally within your firm.

II-3a. **Production using same machinery.**—Continued

Hours per week	Weeks per year

II-3c. **Capacity calculation.**--Please describe the methodology used to calculate overall production capacity reported in II-3a, and explain any changes in reported capacity.

II-3d. **Production constraints.**--Please describe the constraint(s) that set the limit(s) on your firm's production capacity.

II-3e. **Product shifting.**

(i). Is your firm able to switch production (capacity) between small diameter graphite electrodes and other products using the same equipment and/or labor?

No	Yes	If yes—(i.e., have produced other products or are able to produce other products) Please identify other actual or potential products:
<input type="checkbox"/>	<input type="checkbox"/>	

(ii). Please describe the factors that affect your firm's ability to shift production capacity between products (e.g., time, cost, relative price change, etc.), and the degree to which these factors enhance or constrain such shifts.

II-4. **Share of sales.**--What percentage of your firm's total sales in its most recent fiscal year was represented by sales of small diameter graphite electrodes? _____ percent.

II-5. **Firm's estimated share of production in country.**--Please estimate the percentage of total production of small diameter graphite electrodes in the country specified on the certification page accounted for by your firm's production in 2018. _____ percent.

II-6. **Firm's estimated share of country's exports.**--Please estimate the percentage of total exports to the United States of small diameter graphite electrodes from the country specified on the certification page accounted for by your firm's exports in 2018. _____ percent.

II-7. **Third country trade actions.**--Is the small diameter graphite electrodes exported by your firm subject to antidumping/countervailing duty/safeguard findings, remedies, or proceedings?

No	Yes	If yes— List the products(s), countries affected, and the date of such findings/remedies/proceedings
<input type="checkbox"/>	<input type="checkbox"/>	

II-8. **Other export markets.**--Identify export markets (other than the United States) that your firm has developed or where it has increased its sales of small diameter graphite electrodes since 2014. Please identify and discuss below.

II-9. **Significance of antidumping duty order.**--Describe the significance of the existing antidumping duty order covering imports of small diameter graphite electrodes from China in terms of its effect on your firm's production capacity, production, home market shipments, exports to the United States and other markets, and inventories. You may wish to compare your firm's operations before and after the imposition of the order.

II-10. **Likely impact of revocation.**--Would your firm anticipate any changes in in the character of its operations or organization, including its production capacity, production, U.S. shipments, inventories, purchases, employment, revenues, costs, profits, cash flow, capital expenditures, research and development expenditures, or asset values relating to the production of small diameter graphite electrodes in the future if the antidumping duty order on small diameter graphite electrodes from China were to be revoked?

		If yes, supply details as to the time, nature, and significance of such changes and provide underlying assumptions, along with relevant portions of business plans or other supporting documentations that address this issue. Include in your response a specific projection of your firm's capacity to produce small diameter graphite electrodes (in metric tons) for 2019 and 2020.
No	Yes	
<input type="checkbox"/>	<input type="checkbox"/>	

- II-11. **Trade data.**--Report your firm's production capacity, production, shipments, and inventories related to the production of small diameter graphite electrodes in your establishment(s) in China during the specified periods. Do not include resales of small diameter graphite electrodes that your firm did not produce in this question; those data to the degree they are exported to the United States should only be reported in question II-12.

Do not submit data by manufacturing facility if they are in the same country. If your firm has multiple manufacturing establishments within one country, you are required to combine data for those establishments within one foreign producer questionnaire response.

Do not submit data on multiple countries combined. The establishments reported here should all be located in the country of the firm's address reported on the certification page. Multinational companies with production in multiple subject countries should submit separate foreign producer questionnaire responses for each subject country.

"Average production capacity" or "capacity" --The level of production that your establishment(s) could reasonably have expected to attain during the specified periods for all products manufactured in that establishment using the same manufacturing equipment. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).

"Production" --All production in your establishment(s) in China, including production consumed internally within your firm.

"Shipments" --Shipments of products produced in your establishment(s) in China. Quantities reported should be net of returns. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment in China.

"Home market commercial shipments" --Shipments, other than internal consumption and transfers to related firms, within China.

"Home market internal consumption/transfers to related firms" --Shipments made to related firms in China, including product consumed internally by your firm.

"Export shipments" --Shipments to destinations outside China, including shipments to related firms.

"Inventories" --Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

III-4. **Lead times.**--What is your firm’s share of sales from inventory and produced to order and what is the typical lead time between a customer’s order and the date of delivery for your firm’s sales of small diameter graphite electrodes?

Source	Share of 2018 sales	Lead time (average number of days)
From inventory	%	
Produced to order	%	
Total (should sum to 100.0%)	0.0 %	

III-5. **Raw materials.**--Indicate how small diameter graphite electrodes raw materials prices have changed since January 1, 2014, and how you expect they will change in the future.

Raw materials prices	Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explain, noting how raw material price changes have affected your firm's selling prices for small diameter graphite electrodes.

Anticipated changes	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

III-6. **Changes in factors affecting supply.**--Have any changes occurred in any other factors affecting supply (e.g., changes in availability or prices of energy or labor; transportation conditions; production capacity and/or methods of production; technology; export markets; or alternative production opportunities) that affected the availability of China-produced small diameter graphite electrodes in the U.S. market since January 1, 2014?

No	Yes	If yes, please describe.
<input type="checkbox"/>	<input type="checkbox"/>	

III-7. **Availability of SUBJECT import supply.**--Do you anticipate any changes in terms of the availability of China-produced small diameter graphite electrodes in the U.S. market in the future?

Increase	No change	Decrease	If you anticipate changes in supply, please identify the changes, including the time period and the impact of such changes on shipment volumes and prices.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

III-8. **Product shifting.**--Describe how easily your firm can shift its sales of small diameter graphite electrodes between the U.S. market and alternative country markets. In your discussion, please describe any contracts, other sales arrangements, or other constraints (including any third-country trade barriers such as tariffs, quotas, or other non-tariff barriers) that would prevent or retard your firm from shifting small diameter graphite electrodes between the U.S. and alternative country markets within a 12-month period.

III-9. **Product range.**--Is the product range, product mix, or marketing of small diameter graphite electrodes in your firm's home market different from that of small diameter graphite electrodes for export to the United States or to third-country markets?

No	Yes	If yes, please explain.
<input type="checkbox"/>	<input type="checkbox"/>	

III-10. **Product changes.**--Have there been any significant changes in the product range, product mix, or marketing of small diameter graphite electrodes in your firm's home market, for export to the United States, or for export to third-country markets since January 1, 2014? Do you anticipate any future changes?

Changes since January 1, 2014	<input type="checkbox"/>	<input type="checkbox"/>	
Anticipated changes	<input type="checkbox"/>	<input type="checkbox"/>	

III-12. **Interchangeability.**--Is the small diameter graphite electrodes produced by your firm and sold in its home market interchangeable (i.e., can be used in the same applications) with your firm's small diameter graphite electrodes sold to the United States and/or to third-country markets?

Yes	No	If no, identify the market(s) and any differences in the products.
<input type="checkbox"/>	<input type="checkbox"/>	

III-13. **End uses.**—

- (a) Describe the end uses of the small diameter graphite electrodes that your firm manufactures and sell to your firm's home market. If these end uses differ from those of the small diameter graphite electrodes your firm sells to the U.S. market or to third-country markets, explain.

III-18. **Market studies.**--Please provide as a separate attachment to this request any studies, surveys, etc. that you are aware of that quantify and/or otherwise discuss small diameter graphite electrodes supply (including production capacity and capacity utilization) and demand in (1) the United States, (2) each of the other major producing/consuming countries, including China, and (3) the world as a whole. Of particular interest is such data from 2014 to the present and forecasts for the future.

III-19. **Other explanations.**--If your firm would like to further explain a response to a question in Part III for which a narrative box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

Correcting Valid number error messages.--If you are completing a Commission questionnaire in a country that uses periods (“.”) to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The U.S. International Trade Commission’s questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system’s number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer’s number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. “Italian (Italy)”) to “English (United States)” (see screen shots below)

When you do this the number “twelve million dollars and thirty five cents” would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC foreign producer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a “fillable” form in MS Word format on the Commission’s website at:

https://www.usitc.gov/investigations/701731/2019/small_diameter_graphite_electrodes_china/second_review_full.htm

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

- **Upload via Secure Drop Box.**—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission’s secure upload facility:

Web address: <https://dropbox.usitc.gov/oinv/> **Pin:** **ELECT**

- **E-mail.**—E-mail the MS Word questionnaire to nitin.joshi@usitc.gov; include a scanned copy of the signed certification page (page 1). *Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm’s nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.*

If your firm did not produce or export this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

Parties to this proceeding.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission’s Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
