

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0583-0171. The time required to complete this information collection is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

U.S. DEPARTMENT OF AGRICULTURE  
FOOD SAFETY AND INSPECTION SERVICE

## Establishment Sorting Record

Establishment Name: \_\_\_\_\_ Date: \_\_\_\_\_

**Instructions:** Establishments operating under the New Swine Slaughter Inspection System (NSIS) are to complete this form to document the number of animals and carcasses disposed of per production day by establishment sorters before FSIS inspection and the reasons that the animals and carcasses were disposed of (see 9 CFR 309.19 and 310.26). For boxes one and two, write the total number of animals and carcasses sorted and removed per production day. For box three, write the number of animals and carcasses sorted and removed because of the listed condition. This record is subject to review and evaluation by FSIS personnel.

1. Total Number of Hogs Sorted and Removed *Before* FSIS Ante-Mortem Inspection:
2. Total Number of Carcasses Sorted and Removed *Before* FSIS Post-Mortem Inspection:
3. Primary Reasons for Removal

### Conditions Identified and Removed Before FSIS Ante-Mortem Inspection and Slaughter
