Logon Required

Unauthorized access to this United States Government Computer System and software is prohibited by Title 18, United States Code 1030. This statute states that: Whoever knowingly or intentionally accesses a computer without authorization or exceeds authorized access, and by means of such conduct obtains, alters, damages, destroys, or discloses information or prevents authorized use of (data or a computer owned by or operated for) the Government of the United States, shall be punished by a fine under this title or imprisonment for not more than 10 years, or both. All activities on this system and network may be monitored, intercepted, recorded, read, copied, or captured in any manner and disclosed in any manner, by authorized personnel.

THERE IS NO RIGHT OF PRIVACY IN THIS SYSTEM. System personnel may give to law enforcement officials any potential evidence of crime found on USDA computer systems. USE OF THIS SYSTEM BY ANY USER, AUTHORIZED OR UNAUTHORIZED, CONSTITUTES CONSENT TO THIS MONITORING, INTERCEPTION, RECORDING, READING, COPYING OR CAPTURING AND DISCLOSURE. REPORT UNAUTHORIZED USE TO AN INFORMATION SYSTEM SECURITY OFFICER.

Annual Wildfire Summary Report

AWSR

Version 4.0.0

The Cooperative Forestry Assistance Act of 1978 requires the U.S. Department of Agriculture (USDA), Forest Service to collect information about wildfire suppression efforts by State and local fire fighting agencies to ensure that Congress has adequate information to implement its oversight responsibilities and to provide accountability for expenditures and activities under the Act. The Forest Service works cooperatively with State and local fire fighting agencies and provides supplemental funding to these agencies to support their fire suppression efforts through the Forest Service State and Private Forestry Cooperative Fire Program. The Annual Wildfire Summary Report, FS-3100-8 form, is used to record and report State reportable wildfires and all qualifying non-Federal acreages burned.

The Annual Wildfire Summary Report application (AWSR) enables State Foresters to electronically maintain the required data on the Annual Wildfire Summary Report (FS-3100-8 form). The data is stored in an Oracle database that resides on an ADX database server at the National Interagency Technology Center (NITC).

Non-Discrimination and Burden Statement (OMB 0596-0025 Exp: 07/31/2013)

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0596-0025. The time required to complete this information collection is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at 202-720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

Announcements

- 10/09/2006** - ATTENTION AWSR USERS: The following is a list of changes that will be applied on October 14th, 2006.
 - AWSR has been re-designed to incorporate the new look-and-feel of the FAMWEB home page.
 - The Total Acreage Protected field has been changed to only allow numeric values. The FS-3100-8 report was updated to reflect this change.
 - 04/20/2006** - Attention AWSR Users. The version of AWSR has been changed from 1.3.0 to 2.0.0.
 - 01/22/2006** - Attention AWSR Users. The following is a list of changes that were applied on 1/22/06.
 - Validation code has been added so that a date value cannot be entered beyond the current calendar year.
 - A new query button was added to all AWSR Insert and Update screens.
 - Validation was added to the query screens to require users to enter search criteria before executing a query.
- Click on [Complete List](#) to view all of the Announcements.
