Today we are conducting a visitor survey that includes a listening portion which directs your attention to the sounds of the park. If you are interested in participating, you will be asked to fill out a checklist to identify sounds you heard today. This survey will be used to help the National Park Service (NPS) understand the effects of natural and human sounds in the park. This exercise is voluntary and anonymous. It will take approximately 15 minutes to complete.

Step 1: The listening portion of this survey will be led by a survey administrator. Remember that all sounds are included, both human and natural.

Step 2: Close your eyes and relax, and keep track of each individual sound that you heard.

Step 3: While holding your concentration, focus on the sounds you have heard. Now, please take a moment to fill out the attached sheet before speaking with other participants about what you have heard. This exercise begins on the next page.

Step 4: Please select each sound that you heard during the exercise. If a sound is not listed, please write the sound(s) in the blank spaces (next to "Other") provided at the bottom of the SOUNDS column. Again, only mark next to each sound that you actually heard during the exercise.

Step 5: Under the ACCEPTABILITY OF SOUNDS AT THIS LOCATION column, please select one number which best describes how unacceptable or acceptable the sound was for this location in the park: The scale is on a continuum from: - 2 as very unacceptable, - 1 as unacceptable, 0 as neutral, +1 as acceptable, and + 2 as very acceptable.

We are seeking to help park managers understand visitor perception of natural and man-made sounds in the park. Your participation is voluntary. We would like to ask you to follow the instructions below to complete this brief questionnaire.

1. While walking along the trail, take the time to be mindful of the various sounds that you hear.
2. Please stop every 30 to 60 minutes (a total of 4 to 6 times) during your hike to reflect upon the all of the sounds you've heard during that time interval.
3. When you are at a safe place, off the trail, please complete the questions below for each location. Record the time, answer the questions and mark your approximate location on the map (on the back page of the booklet).
4. Your safety and wellbeing are our highest concern today. When you stop, be careful to step off the trail so that others may pass. Please use your best judgment when stopping along the trail.
5. Remember that all sounds are included, both man-made and natural.
6. Please return this survey to us at the end of your hike. If, no one is there, please take it to the Ranger Station, Visitor Center, or entry/exit gate.

TOPIC AREA 8: ENVIROMENTAL HEALTH AND RESOURCE MANAGEMENT

Questions in this topic area collect information concerning the public's awareness and observations of the natural and social environments in the parks. Preferences, motives and attitudes will be measured to determine how individual observations influence overall experiences. For purposes of the programmatic clearance process, perception questions will be limited to topics the park or the NPS can manage and control as well as current or potential goods and services. The questions in this topic area could be used to provide information that will provide resource managers with an understanding of the public's values, perceptions and beliefs as well as the social consequences of management actions.
