Termination of a lease is automatic and statutorily imposed by Congress. Alternatively, reinstatement terms are also set by Congress. The lessees petitioned for reinstatement of the leases and met all filing requirements for a Class II reinstatement. The lessees agreed to the amended lease terms for rentals of \$10 per acre, or fraction thereof, per year and royalty rates of 16 ⅔ percent, and additional lease stipulations. The lessees have paid the required \$500 administrative fee and the \$151 cost of publishing this notice. The lessees meet the requirements for reinstatement of the leases per Sec. 31(d) and (e) of the Mineral Leasing Act of 1920 (30 U.S.C. 188). Reinstatement of these leases conforms to the terms and conditions of all applicable land use plans and other applicable National Environmental Policy Act documents. The BLM proposes to reinstate the leases with an effective date of November 1, 2018, under the amended terms and conditions of the leases and the increased rental and royalty rates cited above. The leases will be reinstated 30 days after publication of the notice of proposed reinstatement in the **Federal Register**.

Abstract: The National Park Service (NPS) is authorized by regulations codified in 36 CFR 7.13(l), Special Regulations; Areas of the National Park System; Yellowstone National Park; Winter Use, to establish a management framework that allows the public to experience the unique winter resources and values at Yellowstone National Park (YELL). Access to most of the park in the winter, is limited by distance and the harsh winter environment, which presents challenges to safety and park operations. In response, the NPS provides opportunities for park visitors to experience Yellowstone in the winter via over-snow vehicles (snowmobiles and snowcoaches, collectively OSVs). The final rule includes provisions that allow greater flexibility for commercial tour operators, provide mechanisms to make the park cleaner and quieter during the winter seasons, reward over-snow vehicle innovations and technologies, and allow increases in visitation. All over-snow vehicles (OSV) operating in the park are required to meet air and sound emission standards and be accompanied by a guide. As directed by the regulation, commercial OSV operators must complete the *OSV Monthly Use Report* (Form 10-650) and maintain certain records regarding:

Emission and Sound Standards (§ 7.13(l)(4)(vii) and (5)). Only OSVs that meet NPS emission and sound standards may operate in the park. Before the start of each winter season:

(a) Snowcoach manufacturers or commercial tour operators must demonstrate, by means acceptable to the Superintendent, that their snowcoaches meet the standards.

(b) Snowmobile manufacturers must demonstrate, by means acceptable to the Superintendent, that their snowmobiles meet the standards.

Transportation Events (§ 7.13(l)(11)(i)-(iii)). To monitor compliance with the required average and maximum size of transportation

events, as of December 15, 2014, each commercial tour operator must:

(a) Maintain accurate and complete records on the number of snowmobiles and snowcoaches he or she brings into the park on a daily basis. These records must be made available for inspection by the park upon request.

(b) Provide a monthly use report on their activities. Form 10-650, "Concessioner Monthly Use Report", available on the park website, is used to collect information for transportation events.

Enhanced Emission Standards (§ 7.13(l)(11)(iv)). To qualify for the increased average size of snowmobile transportation events or increased maximum size of snowcoach transportation events, each commercial tour operator must:

(a) Before the start of each winter season, demonstrate, by means acceptable to the Superintendent, that his or her snowmobiles or snowcoaches meet the enhanced emission standards; and

(b) Maintain separate records for snowmobiles and snowcoaches that meet enhanced emission standards and those that do not.

We will use the information collected to: (1) Ensure that OSVs meet NPS emission standards to operate in the park; (2) evaluate commercial tour operators' compliance with allocated transportation events and daily and seasonal OSV group size limits; (3) ensure that established daily transportation event limits for the park are not exceeded, (4) confirm that commercial tour operators do not run out of authorizations before the end of the season and create a gap when prospective visitors cannot be accommodated, and (5) guarantee compliance with applicable laws and regulations.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-610 and 731-TA-1425-1426 (Final)]

Refillable Stainless Steel Kegs From China and Germany

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that an industry in the United States is materially retarded by reason of imports of refillable stainless steel kegs from China and Germany, provided for in subheadings 7310.10 and 7310.29 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce ("Commerce") to be sold in the United States at less than fair value ("LTFV"),² and to be subsidized by the government of China.^{3 4 5}

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

² 84 FR 57010, October 24, 2019, and 84 FR 57008, October 24, 2019.

³ 84 FR 57005, October 24, 2019.

⁴ The Commission also finds that imports subject to Commerce's affirmative critical circumstances determinations are not likely to undermine seriously the remedial effect of the countervailing and antidumping duty orders on refillable stainless steel kegs from China.

⁵ Commissioners Randolph J. Stayin and Amy A. Karpel did not participate in these investigations.

Background

The Commission instituted these investigations effective September 20, 2018, following receipt of a petition filed with the Commission and Commerce by American Keg Company, LLC, Pottstown, Pennsylvania. Effective June 4, 2019, the Commission established a general schedule for the conduct of the final phase of the investigations following notification of preliminary determinations by Commerce that imports of refillable stainless steel kegs were being subsidized by the government of China⁶ within the meaning of section 703(b) of the Act and that imports of refillable stainless steel kegs from China,⁷ Germany,⁸ and Mexico⁹ were being sold at LTFV within the meaning of 733(b) of the Act. Notice of the scheduling of the final phase of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on June 17, 2019 (84 FR 28070). The hearing was held in Washington, DC, on August 14, 2019, and all persons who requested the opportunity were permitted to appear in person or by counsel.

Following notification of final determinations by Commerce that imports of refillable stainless steel kegs were being subsidized by the government of China and that imports of refillable stainless steel kegs from China and Germany were being sold in the United States at LTFV, notice of the supplemental scheduling of the final phase of the Commission's countervailing and antidumping duty investigations was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of November 6, 2019 (84 FR 59840).

The Commission made these determinations pursuant to sections 705(b) and 735(b) of the Act (19 U.S.C. 1671d(b) and 19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on December 9, 2019. The views of the Commission are contained in USITC Publication 5002 (December 2019), entitled *Refillable Stainless Steel Kegs from China and Germany: Investigation Nos. 701-TA-610 and 731-TA-1425-1426 (Final)*.

⁸ 84 FR 25736, June 4, 2019.
