Manufacturer Production Report for Heavy-Duty and Medium-Duty Engines and Vehicles

Last Revision: December 2014

Production Report - INSTRUCTIONS

This template allows engine and vehicle manufacturers to submit their annual production data in a simple, consistent format. The reporting of production numbers is required. The number of engines produced by engine family and configuration is required. Your report **must** include production information on each certified engine family, even if the production was zero. Report zero production into the "Exemptions" worksheet. This template should **not** be used to report production data for Part 1037 engines and vehicles.

Submission Template

Production data for all non-exempt engines or vehicles should be entered in the Submission Template worksheet. Reporting of production numbers is required only for Part 1033. The fields for Max Power, Displacement and Fuel System Type only apply to Part 1033. Note that the reporting of engine serial number data for Part 86/1036 engines is not required.

Exemptions

If exempted locomotives are identified in the "# Exempted Engines" field in the Submission Template worksheet. Basic information as entered in the Submission Template worksheet will appear at the top of the Exemptions worksheet (Locomotive). In addition to identifying information for each exempt engine/locomotive, the associated buyer information is required.

Paperwork Reduction Act Notice

The public reporting and recordkeeping burden for this collection of information is estimated to average 453.7 hours per respondent. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 120 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number 2060-0338 in any correspondence. Do not send the completed form to this address.

and Nonroad Engine/Equipment Manufacturers

Version Number: 3.3.1

consistent format. It is intended that a copy of this template be created for each industry for which configuration (if required by regulation) should be entered into the "Submission Template" worksheet. zero. If you have produced locomotives that are exempt, the relevant information can be entered on engines.

sheet. Note that some fields are required only for certain industries. The Locomotive Model field is required for Nonroad CI Part 1039 submittals. Finally, data on Number of Exempted Engines is only required if not required at this time.

sheet, additional information on each exempted locomotive must be entered in the "Exemptions" Exemptions worksheet. Note that this worksheet only applies only to 40 CFR Part 1033 and shipping destination should also be provided.

9 hours per estimates, tion 10 pendence.	OMB No. 2060-0338 Approval Expires on October 31, 2022 EPA Form 5900-90
