

speeding and pose national security threats. SBTC urges FMCSA to look carefully at the unintended consequences of the ELD rule when deciding whether or not to grant the exemption. SBTC also suggests that FMCSA temporarily grant the exemption “if for no other reason than to press the pause button while [FMCSA] studies these unintended consequences and their adverse effects on safety. We contend this would indeed achieve a greater level of overall safety than the current status quo.”

## DEPARTMENT OF TRANSPORTATION

### Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2019-0102]

#### Agency Information Collection Activities; Renewal of a Currently-Approved Collection: Driver Qualification Files

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), DOT.

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 (PRA), FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for its review and approval and invites public comment. FMCSA requests approval to revise and renew an ICR titled “Driver Qualification Files,” OMB Control Number 2126-0004. The ICR estimates the burden commercial motor vehicle (CMV) drivers and motor carriers incur to comply with the reporting and recordkeeping tasks required for motor carriers to maintain driver qualification (DQ) files. The Agency’s regulations pertaining to maintaining DQ files are unchanged and impose no increased information collection (IC) burden on individual drivers and motor carriers. However, the Agency increases its estimate of the total IC burden of these regulations primarily because both the number of CMV drivers and the frequency of their hiring have increased since the Agency’s 2016 estimate of this burden.

**DATES:** Please send your comments by November 29, 2019. OMB must receive your comments by this date in order to act on the ICR.

All comments should reference Federal Docket Management System Docket Number FMCSA-2019-0102. Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the attention of the Desk Officer, Department of Transportation/Federal Motor Carrier Safety Administration, and sent via electronic mail to [oir\\_submission@omb.eop.gov](mailto:oir_submission@omb.eop.gov), faxed to (202) 395-6974, or mailed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW, Washington, DC 20503.

**FOR FURTHER INFORMATION CONTACT:** Ms. Pearl Robinson, FMCSA Driver and Carrier Operations Division Department of Transportation, FMCSA, West Building 6th Floor, 1200 New Jersey Avenue SE, Washington, DC 20590. Telephone: 202-366-4325. Email: [MCPSD@dot.gov](mailto:MCPSD@dot.gov).

#### SUPPLEMENTARY INFORMATION:

*Title:* Driver Qualification Files.

*OMB Control Number:* 2126-0004.

*Type of Request:* Renewal and revision of a currently-approved information collection.

*Respondents:* CMV motor carriers and drivers.

*Estimated Number of Respondents:* 6.89 million (6.35 million drivers + 0.54 million motor carriers).

*Expiration Date:* January 31, 2020.

*Frequency of Response:* The information on some DQ documents is only provided one time, such as that furnished at the time the individual applies for employment as a driver. Other information must be obtained by the motor carrier within 30 days of the date the driver begins to drive a CMV for the employer. Other information, such as the driver’s motor vehicle record, is only updated once a year.

*Estimated Total Annual Burden:* 12.26 million hours.

#### Background

The Motor Carrier Safety Act of 1984 (Pub. L. 98-554, Title II, 98 Stat. 2834 (October 30, 1984)) requires the Secretary of Transportation to issue regulations pertaining to commercial motor vehicle (CMV) safety. Part 391 of volume 49 of the Code of Federal Regulations (CFR) contains the

minimum qualifications of drivers of CMVs in interstate commerce.

Motor carriers may not require or permit an unqualified driver to operate a CMV. The foremost proof of driver qualification is the information that part 391 requires be collected and maintained in the driver qualification file (DQ file) (49 CFR 391.51). Motor carriers must obtain this information from sources specified in the regulations, such as the driver, previous employers of the driver, and officials of the State of driver licensure. Motor carriers are not required to forward DQ information to FMCSA, but must maintain the information in a DQ file and make it available to State and Federal safety investigators on demand.

Through this ICR, FMCSA is asking OMB’s approval to renew and revise its estimate of the paperwork burden imposed by its DQ file regulations. The regulations have not been amended; the IC burden imposed on individual drivers and motor carriers by the regulations is unchanged. The current IC burden estimate approved by OMB is 10.21 million hours. The Agency has increased its estimate of the total IC burden from 10.21 million hours to 12.26 million hours. The increase in burden hours is primarily the result of a larger driver population and a higher driver turnover rate, both of which affect the volume of documents produced and filed in DQ files. This revised ICR removes the medical examiner’s certificate recordkeeping requirement from the estimate of burden hours and cost to eliminate double counting. Although the currently approved ICR did not monetize driver and motor carrier burden hours, the revised ICR monetizes such burden.

On June 10, 2019, FMCSA published a **Federal Register** notice allowing for a 60-day comment period on this ICR. There were no comments submitted to the docket in response to that notice.

#### Public Comments Invited

FMCSA requests that you comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for FMCSA to perform its functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The Agency will summarize or include your comments in the request for OMB’s clearance of this information collection.

Issued under the authority delegated in 49 CFR 1.87 on: October 23, 2019

### Federal Railroad Administration

#### Notice of Funding Opportunity for Magnetic Levitation Deployment Projects

**AGENCY:** Federal Railroad Administration (FRA), Department of Transportation.

**ACTION:** Notice of funding opportunity (NOFO or notice).

**SUMMARY:** This notice details the application requirements and procedures to obtain grant<sup>1</sup> funding for eligible projects under the Magnetic Levitation Technology Deployment Program (Maglev Grants Program). Maglev Grants Program funding under this notice is provided by two sources, totaling \$24,027,500. This funding includes \$10,000,000 (2019 Funds) as appropriated by the Consolidated Appropriations Act, 2019, (2019 Appropriation) and an additional \$14,027,500 (2008 Funds) as authorized by sections 1101(a)(18) and 1307 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users SAFETEA–LU, (SAFETEA–LU), as amended by the SAFETEA–LU Technical Corrections Act of 2008, (Technical Corrections Act). There are differing requirements for each of these funding sources as described in this notice. The opportunities described in this notice are made available under Catalog of Federal Domestic Assistance (CFDA) number 20.318, “Maglev Project Selection Program—SAFETEA–LU.”

**DATES:** Applications for funding under this solicitation are due no later than 5:00 p.m. EDT November 29, 2019. Applications for funding, or supplemental material in support of an application, received after 5:00 p.m. EDT on November 29, 2019 will not be considered for funding. Incomplete applications will not be considered for funding. See section D of this notice for additional information on the application process.

**ADDRESSES:** Applications must be submitted via [www.Grants.gov](http://www.Grants.gov). Only

<sup>1</sup> The term “grant” is used throughout this document and is intended to reference funding awarded through a grant agreement, as well as funding awarded through a cooperative agreement.

applicants who comply with all submission requirements described in this notice and submit applications through [www.Grants.gov](http://www.Grants.gov) will be eligible for award. For any supporting application materials that an applicant is unable to submit via [www.Grants.gov](http://www.Grants.gov), an applicant may submit an original and two (2) copies to Amy Houser, Office of Program Delivery, Federal Railroad Administration, 1200 New Jersey Avenue SE, Room W36–412, Washington, DC 20590. However, due to delays caused by enhanced screening of mail delivered via the U.S. Postal Service, applicants are advised to use other means of conveyance (such as courier service) to assure timely receipt of materials before the application deadline.

**FOR FURTHER INFORMATION CONTACT:** For further information regarding the Maglev Grants Program, please contact Ruthie Americus, Office of Policy and Planning, Federal Railroad Administration, 1200 New Jersey Avenue SE, Room W36–403, Washington, DC 20590; email: [ruthie.americus@dot.gov](mailto:ruthie.americus@dot.gov); phone: 202–493–0431. Grant application submission and processing questions should be addressed to Amy Houser, Office of Program Delivery, Federal Railroad Administration, 1200 New Jersey Avenue SE, Room W36–412, Washington, DC 20590; email: [amy.houser@dot.gov](mailto:amy.houser@dot.gov); phone: 202–493–0303.

#### SUPPLEMENTARY INFORMATION:

*Notice to applicants:* FRA recommends that applicants read this notice in its entirety prior to preparing application materials. Definitions of key terms used throughout the NOFO are provided in section A(2) below. These key terms are capitalized throughout the NOFO. There are several administrative prerequisites and eligibility requirements described herein that applicants must comply with. Additionally, applicants should note that the required Project Narrative component of the application package may not exceed 25 pages in length.

## A. Program Description

### 1. Overview

Under this NOFO, a total of \$24,027,500 is available for eligible capital project costs and preconstruction planning activities for eligible Maglev projects as discussed further in section C(3). The \$24,027,500 is composed of funding from two sources, \$14,027,500 in 2008 Funds and \$10,000,000 in 2019 Funds.

Section 102 of the Technical Corrections Act amended sections 1101(a)(18) and 1307 of SAFETEA–LU and provided \$45,000,000 in contract authority for each of fiscal years 2008 and 2009 for Maglev projects.<sup>2</sup> Based upon the clear Congressional direction in the Technical Corrections Act, the \$14,027,500 remaining for award and available under this NOFO is for the Pittsburgh, Baltimore–Washington, and Atlanta–Chattanooga projects only.

In the 2019 Appropriation, Congress appropriated an additional \$10,000,000 for the deployment of magnetic levitation transportation projects, consistent with the language in section 1307(a) through (c) of SAFETEA–LU, as amended by section 102 of the Technical Corrections Act. The 2019 Funds are not limited to the above three projects and are available to any otherwise eligible Maglev project.

To reiterate, only the Pittsburgh, Baltimore–Washington, and Atlanta–Chattanooga projects are eligible for the full \$24,027,500 available under this notice from the remaining 2008 Funds (\$14,027,500) and the 2019 Funds (\$10,000,000). Applicants with otherwise eligible Maglev projects may apply only for the \$10,000,000 in 2019 Funds available under this notice.

### 2. Definitions of Key Terms

a. “Full Project Cost” means the total capital costs of a Maglev project

<sup>2</sup> SAFETEA–LU allocated 50 percent of the available funding to a project between Las Vegas–Primm, NV and the other 50 percent to a project east of the Mississippi River. In the Joint Explanatory Statement of the House Transportation and Infrastructure Committee and the Senate Environmental and Public Works; Banking, Housing and Urban Affairs; and Commerce, Science and Transportation Committees accompanying the Technical Corrections Act, Congress explained that in amending SAFETEA–LU to allow FRA discretion to award funds to “projects” located east of the Mississippi River, “the intent is to limit the eligible projects to three existing projects east of the Mississippi River: Pittsburgh, Baltimore–Washington, and Atlanta–Chattanooga.” Congress repurposed the funds originally allocated to the Las Vegas–Primm, NV project in the Consolidated Appropriations Act, 2014, Div. L, Tit. I, Sec. 192, Public Law 113–76, (2014), for new intercity passenger rail capital, railroad safety technology, and corridor planning projects. This funding was competed in 2014 and awarded in 2015.
