

**Antarctic Conservation Act
Permit Application Form
(NSF Form 1078)**

According to the regulations pursuant to the Antarctic Conservation Act as amended by the Antarctic Science, Tourism, and Conservation Act, a permit is required to “take” native animals or birds, engage in harmful interference, enter Antarctic Specially Protected Areas, introduce nonindigenous species into Antarctica, or import/export any antarctic fauna and flora into/from the United States.

Applicants should note that processing a permit application takes approximately 45-60 days primarily as a result of the required 30-day public comment period [Section 670.9(g)]. Questions on the Antarctic Conservation Act should be directed to:

PRIVACY ACT AND PUBLIC BURDEN STATEMENTS

The information requested in this application is solicited under the authority of the Antarctic Conservation Act (ACA), as amended, the National Science Foundation Act of 1950, as amended, and NSF regulations at 45 CFR Part 670. The information will be used in administration of the ACA, particularly to make a determination on eligibility for an ACA permit. The information requested may be disclosed to other Federal agencies or a court, administrative, or adjudicative body involved in implementing or enforcing the ACA; to Federal, state, or local agencies, or foreign governments, where necessary to obtain records in connection with an investigation, or to persons, including witnesses, who may have information, documents, or knowledge relevant to an ACA investigation or enforcement proceeding; to other Federal agencies when relevant to a decision by that agency on a security clearance, on the award of a contract or grant, on the issuance of a license or other benefit, or on a disciplinary or other administrative action concerning its employee; to government contractors, experts, volunteers and researchers as necessary to complete assigned work; to a grantee institution or contractor in connection with an investigation or enforcement proceeding where an ACA violation is alleged against it or one of its employees, researchers, or subcontractors; and to another Federal agency, court or party in a court or Federal administrative proceeding if the government is a party. See Systems of Records, NSF-56, "Antarctic Conservation Act Files," 59 Federal Register 5784 (February 8, 1994). Submission of this information is voluntary. However, failure to provide full and complete information necessary for an eligibility determination may reduce the possibility of receiving a permit.

Public reporting burden for this collection of information is estimated to average one half hour per response, including the time for reviewing instructions. Send comments regarding this burden estimate and any other aspect of this collection of information, including suggestions to reduce this burden, to the NSF Reports Clearance Officer at c/o the address directly below.
