[If no acres planted, review Screening Survey Information Form, make notes, then go to item 4 on back page.]

Of the total (item 1), how many acres were planted for---

a. feed barley?

0051

b. malt barley?

c. other uses?

XXXX

I will follow a simple procedure to make a random selection from the barley fields planted for the 2019 crop.

TOTAL NUMBER OF FIELDS PLANTED

2. What is the TOTAL number of barley fields that were planted on this operation?

[If only one field, enter "1" and go to item 4.]

0020

3. Please list these fields according to identifying name/number or describe each field. Then I will tell you which field has been selected.

[If there are more than 18 fields, make sure item 2 is TOTAL fields planted and list only the 18 fields closest to the operator's permanent residence. If respondent is unable to identify or describe the fields, use the Field Selection Grid Supplement.]

[If the physical field in this survey spans multiple FSA administrative fields, please include the farm, tract, and field number for the largest administrative field. These numbers are field identifiers that USDA uses to administer farm programs like crop insurance, commodity programs, and conservation programs. Having this information helps USDA make better use of other data you have provided to USDA and will improve the types of statistical analysis that can be done with the responses from this survey.]
