### Section C — Number of Employees and Employee Compensation

- Report the number of employees on the payroll at the end of FY 2014 including part-time employees, but excluding temporary and contract employees not included on your payroll records. A count taken at some other date during the reporting period may be given provided it is a reasonable estimate of employees on the payroll at the end of FY 2014. If the number of employees at the end of FY 2014 (or when the count was taken) was unusually high or low due to temporary factors (e.g., a strike), enter the number of employees that reflects normal operations. If the number of employees fluctuates widely during the year due to seasonal business variations, report the average number of employees on the payroll during FY 2014. Base such an average on the number of employees on the payroll at the end of each pay period, month or quarter. If precise figures are not available, give your best estimate.
- Report employee compensation expenditures made by an employer in connection with the employment of workers, including cash payments, payments-in-kind, and employer expenditures for employee benefit plans including those required by statute. Base compensation data on payroll records. Report compensation which relates to activities that occurred during the reporting period regardless of whether the activities were charged as an expense on the income statement, charged to inventories, or capitalized. EXCLUDE data related to activities of a prior period, such as those capitalized or charged to inventories in prior periods. EXCLUDE compensation of contract workers not carried on the payroll of this affiliate. Total employee compensation consists of wages and salaries of employees and employer expenditures for all employee benefit plans.
- Wages and salaries INCLUDE gross earnings of all employees before deduction of employees' payroll withholding taxes, social insurance contributions, group insurance premiums, union dues, etc. INCLUDE time and piece-rate payments, cost of living adjustments, overtime pay and shift differentials, bonuses, profit-sharing amounts, stock-based compensation, and commissions. ### **155** — **157**

ONLY

**Leases** — Disaggregate lease payments into their component parts. Report return of capital, consisting of principal payments for capital leases and the depreciation component for operating leases, in 155 and 156. Report the interest component under capital leases in 157.

If the foreign affiliate has leased equipment to/from the U.S. Reporter under a long-term operating lease (i.e., the lease is for more than one year), then:

- **INCLUDE** the FY 2014 closing net book value of the leased equipment in column (1), and
- **INCLUDE** the FY 2013 closing net book value of the leased equipment in column (2).

**Derivative Contracts** — Do NOT report either the value of outstanding financial derivative contracts or any payments or receipts resulting from the settlement of those contracts. For example, the settlements of interest rate derivatives should not be reported as interest or as another type of transaction on this form. Derivatives contracts are covered by the Treasury International Capital (TIC) Form D-Report of Holdings of, and Transactions in, Financial Derivatives Contracts with Foreign Residents.

Section C — Change in U.S. Reporter's Equity in Capital Stock and/or Additional Paid-in Capital of Incorporated Foreign Affiliate or Equity Investment in Unincorporated Foreign Affiliate.

### **158 — 160**

Increase in U.S. Reporter's Equity Interest in This Affiliate — For a newly established or acquired affiliate, report what the U.S. Reporter paid and/or borrowed to establish or acquire the affiliate in 158 or 160 as appropriate. Do not report the book value of the equity interest if it differs from what was paid.

### **161** — **163**

Decrease in U.S. Reporter's Equity Interest in This Affiliate — For an affiliate that is sold, report the sale price in 161 or 163 as appropriate. INCLUDE foreign income taxes, if any, on gains (and tax refunds on losses) in the calculation of these items. Report the ending intercompany debt position for the affiliate (in column (1) of 155 and 156) as zero. (If debt positions still exist, they are between a U.S. person and an unaffiliated foreign person, and may be reportable on the Department of the Treasury International Capital report forms.)

For investments written off, enter zero in 161 – 163. Report the amount written off in 165 or 166 as appropriate. If an account receivable due to the U.S. Reporter from the affiliate is written off, report the amount of the receivable in 159 as a capital contribution and include in the computation of 165 or 166 as appropriate.

### **165** — **166**

Transaction Value Exceeds or is Less Than the Value Carried on the Books of the Affiliate — If the book value of the U.S. Reporter's equity investment changed by more or less than the value of the consideration paid, received, or owed, enter the amount of the difference in 165 or 166 as appropriate. For example, if the book value of an affiliate was \$10 million and the affiliate was sold for \$11 million, enter \$1 million in column (2) of 165. Report the amount gross of U.S. income taxes, if any.

# Section B — Debt and Other Intercompany Balances and Interest Receipts and Payments Between the U.S. Reporter and the Foreign Affiliate — Continued

Report in 155 and 156 all current and long-term intercompany receivables and payables between the U.S. Reporter and the foreign affiliate. ### Part VI — U.S. Exports To and U.S. Imports From Majority-Owned Foreign Affiliate

Goods only valued f.a.s. at port of exportation; EXCLUDE services — See Instruction Booklet, Part V.

### **IMPORTANT NOTES**

Report U.S. exports of goods to and U.S. imports of goods from the foreign affiliate in FY 2014. Report all goods that physically left or entered the U.S. customs area. Report data on a "shipped" basis, i.e., on the basis of when and to (or by) whom the goods were shipped. This is the same basis as official U.S. trade statistics to which these data will be compared. Do not record a U.S. import or export if the goods did not physically enter or leave (i.e., were not physically shipped to or from) the United States, even if they were charged to the foreign affiliate by, or charged by the foreign affiliate to, a U.S. person.

Foreign affiliates normally keep their accounting records on a "charged" basis, i.e., on the basis of when and to (or by) whom the goods were charged. The "charged" basis may be used if there is no material difference between it and the "shipped" basis. If there is a material difference, the "shipped" basis must be used or adjustments made to the data on a "charged" basis to approximate a "shipped" basis. The data should include goods only; they should **EXCLUDE** services.

**Capital goods** — **INCLUDE** capital goods but exclude the value of ships, planes, railroad rolling stock, and trucks that were temporarily outside the United States transporting people or goods.

Consigned goods — INCLUDE consigned goods in the trade figures when shipped or received, even though they are not normally recorded as sales or purchases, or entered into intercompany accounts when initially consigned.

In-transit goods — EXCLUDE from exports and imports the value of goods that are in-transit. In-transit goods are goods that are not processed or consumed by residents in the intermediate country(ies) through which they transit; the in-transit goods enter that country(ies) only because that country(ies) is along the shipping lines between the exporting and importing countries. In-transit imports are goods en route from one foreign country to another via the United States (such as from Canada to Mexico via the United States), and in-transit exports are goods en route from one part of the United States to another part via a foreign country (such as from Alaska to Washington State via Canada).

Packaged general use computer software — INCLUDE exports and imports of packaged general use computer software. Value such exports and imports at the full transaction value, i.e., the market value of the media on which the software is recorded and the value of the information contained on the media. **EXCLUDE** exports and imports of customized software designed to meet the needs of a specific user. This type of software is considered a service and should not be included as trade in goods. Also **EXCLUDE** negotiated leasing fees for software that is to be used on networks.

Natural gas, electricity, and water — Report ONLY the product value of natural gas, electricity, and water that you produce or sell at wholesale as exports and imports of goods. DO NOT report the service value (transmission and distribution).

# 2014 ANNUAL SURVEY OF U.S. DIRECT INVESTMENT ABROAD FORM BE-10B — ADDITIONAL INSTRUCTIONS BY ITEM

### Part IV, Section A — Distribution of Sales or Gross Operating Revenues

### 101 - 104

Disaggregate the total sales or gross operating revenues into sales of goods, sales of services, and investment income.

- **Sales of goods** Goods are normally economic outputs that are tangible. Report as sales of goods:
  - Mass produced media, including exposed film, video tapes, DVDs, audio tapes, and CDs.
  - Books. NOTE: Book publishers To the extent feasible, report as sales of services all revenues associated with the design, editing, and marketing activities necessary for producing and distributing books that you both publish and sell. If you cannot unbundle (i.e., separate) these revenues from the value of the books you sell, then report your total sales as sales of goods or services based on the activity that accounts for a majority of the value.
  - Energy trading activities where you take title to the goods. NOTE: If you act in the capacity of a broker or agent to facilitate the sale of goods and you do not take title to the goods, report your revenue (i.e., commissions) as sale of services in 103.
  - Magazines and periodicals sold in retail stores. NOTE: Report subscription sales as sales of services in 103.
  - · Packaged general use computer software.
  - · Structures sold by businesses in real estate.
  - Revenues earned from building structures by businesses in construction
  - Electricity, natural gas, and water. NOTE: Revenues derived from transmitting and/or distributing these goods, as opposed to revenues derived from the sale of the actual product, should to the extent feasible, be reported as sales of services in 103.
- **Sales of services** Services are normally economic outputs that are intangible. Report as sales of services:
  - · Advertising revenue.
  - Commissions and fees earned by companies engaged in finance and real estate activities.

- Mass produced audiovisual media that are delivered electronically, including film, music, manuscripts, or other digital content.
- Commissions earned by agents or brokers (i.e., wholesalers) who act on behalf of buyers and sellers in the wholesale distribution of goods. NOTE: Agents or brokers do not take title to the goods being sold.
- Magazines and periodicals sold through subscriptions. NOTE: Report magazines and periodicals sold through retail stores, as sales of goods in 102.
- · Newspapers.
- Pipeline transportation.
- · Royalty income.
- Software downloaded from the Internet, electronic mail, an Extranet, an Electronic Data Interchange network, or some other online system.
- · Computer systems design and related services.
- Negotiated licensing fees for software to be used on networks.
  Licensing fees associated with rights to reproduce or distribute software.
- Electricity transmission and distribution, natural gas distribution, and water distribution.

Report the source of real estate rental income in columns (2) through (7) based on the location of the property.

**Investment income** — Report dividends and interest generated by finance and insurance activities as investment income. NOTE: Report commissions and fees as sales of services in 103.

Finance or insurance companies that include investment income in gross operating revenues should report the source of such investment income in columns (2) through (7) based on the location of the issuer of the financial instrument whether publicly issued or privately placed. If the location of the issuer is unknown, then substitute the nationality of the issuer. If both the location and nationality of the issuer are unknown, and an intermediary (e.g., trustee, custodian, or nominee) is used to manage the investment (financial instrument or real estate) use the country of location of the intermediary.

# Special Instructions for Dealers in Financial Instruments, Finance Companies, Insurance Companies, and Real Estate Companies

- A. Certain gains (losses) for (1) dealers in financial instruments and finance and insurance companies, and (2) real estate companies.
  - Dealers in financial instruments (including securities, currencies, derivatives, and other financial instruments) and finance and insurance companies — INCLUDE in 45
    - · impairment losses as defined by FASB ASC 320 (FAS 115),
    - · realized gains and losses on trading or dealing,
    - unrealized gains or losses, due to changes in the valuation of financial instruments, that flow through the income statement, and
    - goodwill impairment as defined by FASB ASC 350 (FAS 142).

**EXCLUDE** from **45**, unrealized gains or losses due to changes in the valuation of financial instruments that are taken to other comprehensive income. Reflect such changes in **68** (all other components of accumulated other comprehensive income (loss)). **EXCLUDE** from **45**, income from explicit fees and commissions. **INCLUDE** income from these fees and commissions as operating revenue in **35**, **42**, and also **96** or **101**, as appropriate and as sales of services in **103**.

- 2. Real estate companies INCLUDE in 45:
  - impairment losses as defined by FASB ASC 360 (FAS 144), and
  - goodwill impairment as defined by FASB ASC 350 (FAS 142).

**EXCLUDE** the income earned and expenses incurred from the sale of real estate you own. Such income should be reported as operating revenue in 36, 42, and also 96 or 101, as appropriate and as sales of goods in 102. Such expenses, including the net book value of the real estate sold, should be reported as cost of goods sold in 48. Do not net the expenses against the revenues.

### **B. Special instructions for insurance companies**

 When there is a difference between the financial and operating data reported to the stockholders and the data reported in the annual statement to an insurance department, prepare the BE-10 on the same basis as the annual report to the stockholders.

Valuation should be according to normal commercial accounting procedures, not at rates promulgated by national insurance

departments, e.g., **INCLUDE** assets not acceptable for inclusion in the annual statement to an insurance department, such as:
1. non-trusteed or free account assets, and 2. nonadmitted assets, including furniture and equipment, agents' debit balances, and all receivables deemed to be collectible. **INCLUDE** mandatory securities valuation reserves that are appropriations of retained earnings in the owners' equity section of the balance sheet, not in the liability section.

### 2. Instructions for reporting specific items

- a. Sales or gross operating revenues, excluding sales taxes ([42]) INCLUDE items such as earned premiums, annuity considerations, gross investment income, and items of a similar nature. EXCLUDE income from equity investments in unconsolidated business enterprises that is to be reported in [43] and EXCLUDE certain gains or losses that are to be reported in [45].
- b. Certain gains (losses) (45) See Special Instructions, A.1.
- c. Cost of goods sold or services rendered and selling, general, and administrative expenses (48) INCLUDE costs relating to sales or gross operating revenues, such as policy losses incurred, death benefits, matured endowments, other policy benefits, increases in liabilities for future policy benefits, and other underwriting expenses.
- **d. Sales of services (103) INCLUDE** premium income and income from other services, if any.

Calculate premiums earned by companies engaged in insurance activities as direct premiums written (including renewals) net of cancellations, plus reinsurance premiums assumed, minus reinsurance premiums ceded, plus unearned premiums at the beginning of the year, minus unearned premiums at the end of the year.

e. Investment income (104) — Report that portion of sales or gross operating revenues that is investment income. However, report any gains or losses on investments, in accordance with Special Instructions, A.1. See Additional Instructions for Part IV, Section A, 104, above to determine the location of the transactor of investment income.
