

Graduate Students

To apply for a graduate student research experience at NCI, submit an **iCURE graduate student application**. An **eRA Commons ID will be required to access the iCURE Management System**. Information required for the application includes the following: name, email address, citizenship, underrepresented group, immediate and long-term career goals, current support by NCI IRP funding with supporting dates and reasons for the end of your support, and any additional information that you feel is relevant for reviewers to know. Optional: if interested in a specific NCI IRP group, please include the IRP Investigator's name.

You will also be asked to provide the following:

1. **Curriculum Vitae (CV):** Your CV should include your academic history and research experience as well as any honors, professional experience, publications, and grant applications and awards, if applicable.
2. **Transcript:** A copy of your most recent **transcript** is required.
3. **Three References:** provide reference names, titles, institutions, addresses, and email and phone contact information. iCURE will request letters of recommendation directly from your references.

Note: iCURE strongly encourages applications from underrepresented students and scientists. This information will not be used to determine your eligibility for an iCURE award. **iCURE graduate student research experience awards will be for two years**. Once selected for iCURE support, iCURE scholars must follow the Graduate Partnerships Program (GPP) Individual Partnership registration and MOU generation process.
