

Change

Detailed Information

Edited language in the background section	Made minor update to the language in the background discussion to clarify and provide additional context. We also provided detailed information on the changes to the collection burden and the causes
SSA-Section 1	Replaced the FISMA cite with an updated cite
SSA-Section 3	replaced 99% with all and cited that exploring using digital signature
SSA-Section 6	made minor updates to add that there are a number of statutory and regulatory requirements
SSA-Section 10	Updated the language to reflect that there is a new system that tracks the disclosure
SSA-Section 12	Made changes to the wages and hourly costs.
SSA-Section 12	In addition, recent experience has shown that the time to complete an LDS DUA has slightly increased.
SSA-Section 12	The state DUA form and the Medicaid Agency DUA form have been removed.
SSA-Section 14	the government hourly wage was increased to include fringe benefits
Signature Addendum form	There were slight modifications to the signature addendum form

Reason for the change

Make a few technical corrections and clarify language

the existing cite is outdated

we only receive electronic requests and are exploring the use of digital signature for all non-federal stakeholders

wanted to reflect that there are requirements beyond CMS policies and procedures that dictate the collection

There is a new system, EPPE, that tracks the disclosure

Since this estimates the respondents' costs, we used the BLS rather than the GS schedule for the wage estimates. We also included fringe benefits

We wanted to reflect the feedback that this was a more accurate estimate

The state DUA form and the Medicaid Agency DUA form are no longer in use so they have been removed.

this is consistent with approach used in other PRA packages

Reflects feedback from users
