

# Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 1557- 0248)

---

## TITLE OF INFORMATION COLLECTION:

Office of the Comptroller of the Currency - webinars evaluations/surveys – LIBOR & Alternative Reference Rates

## PURPOSE:

This data collection would be conducted in connection with an FFIEC industry outreach seminar that will inform supervised financial institutions and examiners about the possible effects of the potential discontinuation of LIBOR. The OCC and other FFIEC member agencies would use the collected data to improve further planned industry outreach programs on this topic.

In July of 2017, Andrew Bailey, who is the head of the United Kingdom’s, Financial Conduct Authority (FCA), the organization that regulates LIBOR, gave a public speech communicating that the FCA would no longer compel banks that participate on LIBOR panels to provide submissions beyond 2021. Given that submissions by banks will be voluntary, there is material risk that LIBOR will not be published after 2021.

The FFIEC has developed this webinar to raise awareness and educate banks about the effect of a potential LIBOR discontinuation on financial institutions and financial products as well as recent efforts worldwide to develop alternative reference rates.

This collection of information would seek information from webinar attendees regarding their preparedness for the potential discontinuation of LIBOR in order to help inform future educational efforts on LIBOR. The survey will be solicited during registration for the webinar or during the webinar.

## DESCRIPTION OF RESPONDENTS:

Respondents from the webinar include representatives from financial institutions supervised by FFIEC members.

We anticipate approximately 1000 representatives from financial institutions would participate and receive optional surveys. The survey results would be collected by the Federal Reserve Bank of St. Louis and would be shared with all FFIEC member agencies and the State Liaison Committee. No other FFIEC member agencies plan to request OMB clearance for this collection. The OCC’s burden estimate accounts for all respondents to this survey, including those whose primary federal regulator is a different FFIEC member agency.
