

This non-substantive change request corrects clerical errors present in the currently approved ICR for Section 401 Requirements (OMB Control No. 2040-0295, EPA ICR Number 2603.01). The number of respondents and the obligation to respond attributed to state, local, and tribal governments reflect a clerical error. The correct information was provided in the Supporting Statement submitted to OMB. This change request corrects the existing information to reflect that presented in the Supporting Statement.
