New Part 107 Waiver/Authorization Application

Please select one of the following to start your Application.

- OPERATIONAL WAIVER:** Use this to request a waiver to the provisions of Part 107 waivable under 14 C.F.R. 107.200 (e.g. operations at night, operations from a moving vehicle, operation beyond line of sight, operation over people, operation requiring a visual observer, operations of multiple UA by one pilot, operation near aircraft, or waivers from operating limitations on ground speed, altitude, minimum visibility, or minimum distance from clouds).
- AIRSPACE AUTHORIZATION:** Use this to request access to controlled airspace. An airspace authorization is the mechanism by which an operator may seek Air Traffic Control (ATC) approval to operate in controlled airspace. Authorizations can be for a specific location or for broad areas governed by a single ATC jurisdiction.
- AIRSPACE WAIVER:** Use this to request a waiver from 14 C.F.R. § 107.41. Airspace Waivers may be issued where the applicant can demonstrate safety mitigations through equipage that their UAS can safely operate in controlled airspace without seeking ATC authorization prior to each operation. Processing times for airspace waivers are significantly longer than processing times for airspace authorizations.
