

**Public reporting** burden for this collection of information is estimated to average 93 hours. This includes the time for collecting, reviewing, and reporting the data. The information is being collected to obtain the supportive documentation that must be submitted to HUD for approval, and is necessary to ensure that viable projects are developed and maintained. The Department will use this information to determine if properties meet HUD requirements with respect to development, operation and/or asset management, as well as ensuring the continued marketability of the properties. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

**Warning:** Any person who knowingly presents a false, fictitious, or fraudulent statement or claim in a matter within the jurisdiction of the U.S. Department of Housing and Urban Development is subject to criminal penalties, civil liability, and administrative sanctions

**Privacy Act Notice:** The Department of Housing and Urban Development, Federal Housing Administration, is authorized to collect the information requested in this form by virtue of: The National Housing Act, 12 USC 1701 et seq. and the regulations at 24 CFR 5.212 and 24 CFR 200.6; and the Housing and Community Development Act of 1987, 42 USC 3543(a). ## **INSTRUCTIONS:**

The narrative is a document critical to the Lean Underwriting process. Each section of the narrative and all questions need to be completed and answered. If the lender's underwriter disagrees and modifies any third-party report conclusions, sufficient detail to justify the changes must be provided. This narrative is to identify the strengths and weaknesses of the transactions and demonstrate how the weaknesses are mitigated by the underwriting.

- **Charts:** The charts contained in this document have been created with versatility in mind; however they will not be able to accommodate all situations. For this reason, you are allowed to alter the charts as the situation demands. Be sure to state how you have altered the charts along with your justification. Include all the information the form calls for. Charts that include **blue** text indicate names that should be modified by the lender as the situation dictates.
- **Applicability:** If a section is not applicable, state so in that section and provide a reason. **Do not delete a section heading that is not applicable.** The narrative will be checked to make certain all sections are provided. If a major section is not applicable, add “ – Not Applicable” to the heading and provide the reason. For instance:

### **Parent of the Operator – Not Applicable**

This section is not applicable because there is no operator.

The rest of the subsections under the inapplicable section can then be deleted. This instruction page may also be deleted.

- **Format:** In addition to submitting the PDF version of the Lender Narrative to HUD, please also submit an electronic Word version.

- **Historical Information:** Substantial rehabilitation can encompass a wide range of renovations—from “gut” rehabilitations that replace or newly construct nearly everything, to replacements and renovations that barely exceed the substantial rehabilitation threshold. Because of these types of variables, historical financial data on the previous operations may not be available or applicable. In those instances where historical information is not applicable, the underwriter should follow the above instructions for inapplicable sections and provide the reason. Acceptable reasons for not providing historical data include: the lack of data due to a sale or previous use or a significant change in use. Be cautioned that changes in census mix without a change in the type of license will likely not warrant elimination of the historical data as an underwriting tool.

Instead of pasting large portions of text from third-party reports into the narrative, it is preferred that the lender simply reference the page number and the report. The focus of this document is for lender conclusions, analyses, and summaries.

Italicized text found between these characters <<EXAMPLE>> is instructional in nature, and may be deleted from the lender’s final version. Please use the gray shaded areas (e.g., ) for your response. Double click on a check box and then change the default value to mark selection (e.g., )

### **Licensing/Certificate of Need/Keys Amendment**

Number of Beds to be licensed:

Lender has verified that the beds or units in operation are in compliance with the State licensing agency.

<<Provide affirmative statement along the lines of: "The facility is to be licensed by the State of {State}'s Department of Health and Welfare as a {Type of Facility} for {X} beds. or commissioned by the state of market need and feasibility. Include in the discussion the number of beds and the date through which it is current.

<<(Applicable on projects with added units/beds.) If a new/updated CON is required by the local regulatory authorities, it is to be issued to the current license holder. Note on this last point that the requirement is not only that the facility be regulated, but that it be regulated specifically pursuant to 1616e. >>

## **Identities-of-Interest**

**Program Guidance:** Handbook 4232.1, Section I, Chapter 1.6

### **Key Questions**

	<b>Yes</b>	<b>No</b>
1. Have you, as the lender, identified any identities of interest on your certification?	<input type="checkbox"/>	<input type="checkbox"/>
2. Does the borrower’s certification indicate any identities of interest?	<input type="checkbox"/>	<input type="checkbox"/>
3. Do any of the certifications provided by principals of the borrower identify any identities of interest?	<input type="checkbox"/>	<input type="checkbox"/>
4. Does the operator’s certification (if applicable) indicate any identities of interest? <input type="checkbox"/> N/A	<input type="checkbox"/>	<input type="checkbox"/>
5. Does the management agent’s certification (if applicable) indicate any identities of interest? <input type="checkbox"/> N/A	<input type="checkbox"/>	<input type="checkbox"/>
6. Does the general contractor’s certification indicate any identities of interest?	<input type="checkbox"/>	<input type="checkbox"/>
7. Does the HUD Addendum to the AIA Agreement of the Design Architect identify any identities of interest?	<input type="checkbox"/>	<input type="checkbox"/>
8. Does the lender know, or have any reason to believe, that any of the assertions in the other Consolidated Certifications submitted herewith, are inaccurate or incomplete?	<input type="checkbox"/>	<input type="checkbox"/>

<<For each “yes” answer above, provide a narrative discussion regarding the topic. As applicable, describe the risk and how it will be mitigated. For example: The borrower and operator are related parties – John Doe has ownership in both entities. No other identities of interest are disclosed.>>

# Risk Factors

## Key Questions

	Yes	No
1. If the project is proposing new construction of assisted living units, is the proposed mortgage higher than the maximum loan-to-value (LTV)?	<input type="checkbox"/>	<input type="checkbox"/>
2. Is the debt service coverage of the loan less than 1.45?	<input type="checkbox"/>	<input type="checkbox"/>
3. Is this a “special use facility”—one that serves a “niche” type of market (e.g., psychiatric facilities; drug, alcohol, or eating disorder recovery facilities; hospice facilities; or short-term rehabilitation facilities)?	<input type="checkbox"/>	<input type="checkbox"/>
4. Is this an Intermediate Care Facility (ICF), Institution for Mental Diseases (IMD), or any other type of facility that caters to a significant population with mental illness (MI), developmental disabilities (DD) or individuals with intellectual disabilities (IID)?	<input type="checkbox"/>	<input type="checkbox"/>
5. Is the project in a state with an Olmstead Plan, pending Olmstead cases, Olmstead settlement agreements, or is the project’s state active in initiatives to “right-size” nursing facilities or otherwise working to “rebalance” long-term supports and services toward home and community-based settings?	<input type="checkbox"/>	<input type="checkbox"/>
6. Does the project rely on Medicaid Waivers or State Plan Options for a significant portion of its resident population, MI/DD residents, or for residents in the assisted living portion of a combined SNF/ALF Facility, subjecting it to HCBS Settings requirements?	<input type="checkbox"/>	<input type="checkbox"/>
7. Is the operator, parent company, affiliates or subsidiaries the subject of an ongoing investigation or judicial or administrative action involving any Federal, State, municipal and/or other regulatory authority, which could have a detrimental impact on the operator’s financial condition or may jeopardize the operator’s license and or its provider agreements?	<input type="checkbox"/>	<input type="checkbox"/>

<<For each “yes” answer above, provide a narrative discussion on the topic describing the risk and how it will be mitigated.

*If you answer “yes” to question 3, the narrative discussion should include an analysis of the following: 1. The long-term viability of funding sources for this client group; 2. The facility’s ability to maintain stabilized occupancy over the long term, and/or the ability to fill the beds occupied by residents with the special use diagnosis, should the funding source cease; this analysis should include a demonstration that a market exists for increasing reliance on a more “traditional” SNF resident; 3. The extent of the successful experience of the operator in dealing with the contemplated population; 4. How the principals of this facility address the higher risk associated with the targeted population (e.g. higher Professional Liability Insurance, etc.); 5. The facility’s capacity to continue servicing the debt in the event that market/provider payment changes dictate that alternative/modified uses of the subject portion of the facility be pursued; and 6. Risk Mitigation.*

*If you answer “yes” to question 5, the narrative discussion should include a discussion of any of the state’s efforts above that might have an impact on the subject facility and what efforts the*

owner and/or operator will take to respond to these impacts. Be sure to reference the state's strategy for moving the following populations: the elderly from skilled nursing facilities, individuals with intellectual or developmental disabilities (ID/DD) from ICFs, the physically disabled, non-elderly from skilled nursing facilities or the mentally ill from psychiatric facilities or other facilities, as appropriate.

If you answer "yes to question 6, the narrative discussion should include a discussion of the facility's compliance with the HCBS Settings requirements. The discussion might include the State's progress in implementing the HCBS Settings Rule, references to the Statewide Transition Plan, CMS responses to or approval of the Plan, State Regulatory language, or State Medicaid Agency input. If it appears that the facility will not, or will not be able, to comply with the Rule, the Lender should provide a Sensitivity Analysis showing the project's ability to operate without these residents.

## **Architectural Review**

Reviewer: \_\_\_\_\_

### **Key Questions**

	<b>Yes</b>	<b>No</b>
1. Are any drawings or specifications to be “deferred submissions?” If yes, explain below and include special condition requiring that they be submitted prior to initial closing.	<input type="checkbox"/>	<input type="checkbox"/>
2. Does the architectural reviewer recommend any commitment conditions?	<input type="checkbox"/>	<input type="checkbox"/>
3. Are the plans and specification incomplete?	<input type="checkbox"/>	<input type="checkbox"/>
4. Is there an identity of interest between the design architect and any other project participant (i.e., borrower, principal of borrower, operator, and/or general contractor)?	<input type="checkbox"/>	<input type="checkbox"/>
5. Are there any architectural review comments that have not been incorporated into the plans and specifications?	<input type="checkbox"/>	<input type="checkbox"/>
6. Are there any architectural drawings and specifications that do <u>not</u> comply with local building code standards, minimum property standards, or any other HUD requirements?	<input type="checkbox"/>	<input type="checkbox"/>
7. After reviewing the plans, did the architectural reviewer confirm that the plans are <u>not</u> in conformance with FHAG and UFAS requirements?	<input type="checkbox"/>	<input type="checkbox"/>
8. Is the design architect different from the supervisory architect?	<input type="checkbox"/>	<input type="checkbox"/>
9. After reviewing the AIA agreement, did the architectural reviewer find the agreement was <u>not</u> complete?	<input type="checkbox"/>	<input type="checkbox"/>
10. After reviewing the Geotechnical Engineering Evaluation Report, did the architectural reviewer find the report <u>unacceptable</u> showing an <u>insufficient</u> number of borings provided?	<input type="checkbox"/>	<input type="checkbox"/>
11. After reviewing the soils report, did the architectural reviewer find the structural design <u>not</u> in compliance with the findings of the report?	<input type="checkbox"/>	<input type="checkbox"/>
12. After reviewing the survey, did the architectural reviewer find the survey <u>not</u> in compliance with HUD requirements?	<input type="checkbox"/>	<input type="checkbox"/>

Yes No

13. Did the architectural reviewer not find the construction progress schedule and construction period to be acceptable?

<<If you answer “yes” to any of the above questions, please address below. For example, Item 1 – Fire sprinkler system engineering will be completed by XXX, Item 3 – The completed plans and specifications will be submitted prior to closing. The architectural reviewer’s inspector has identified minor revisions to the plans and specifications that will be completed and submitted to HUD prior to closing. A list of the minor revisions includes XXX. The contractor has provided confirmation acknowledging the required revisions and confirms that they do not result in changes to the costs reflected on the HUD 92328-ORCF submitted with this application package. We (the lender) recommend a Special Condition to the Firm Commitment requiring that completed acceptable plans and specifications will be submitted prior to closing.

Item 4 – There is an identity of interest between the design architect and the borrower. The design architect is a principal of the borrower entity. Therefore, to meet HUD requirements, a separate AIA B108 is submitted with this package for an unrelated architect to provide the supervision services. Provide narrative describing the supervising architect’s name, experience, etc. >>

### **Architectural Overview**

<<Provide narrative describing the architectural reviewers report and conclusions and if the lender’s underwriter concurs with the conclusions. Identify any modifications to the report conclusions and provide justification. Confirm if the review complies with the statement of work. Identify deliverables included in the application package. Include a narrative concerning key elements of the reviews, the appropriate HUD forms, and their correspondence with the design architect.>>

### **Construction Progress Schedule**

<<Provide narrative discussion of the construction period as projected by the general contractor and project architect. Indicate if architectural reviewer agrees. Typically, an updated Construction Progress Schedule that accurately reflects the month and date of construction start and completion will be needed prior to closing.>>

### **Conclusion**

<<Indicate if the review architect has appropriately addressed all architectural aspects of the development and the firm commitment application.>>

## **Contingency Reserve**

**Program Guidance:** The contingency reserve amount is based on available data for the type and condition of structure. Calculate as percentage of the sum of structures, land improvements, and general requirements. Percentage ranges from 1% to 10%, depending on the condition of the project, extent of rehabilitation, and experience and financial capacity of the borrower and contractor.

The contingency reserve can only be used to cover unanticipated costs, such as discovering more extensive dry rot than was expected. The contingency reserve is not available for items such as an increase in cost of carpet.

<<The architectural and cost reviewer concluded that a contingency reserve of       % is sufficient based on the site visit, the type of construction of the existing buildings, and the developer’s knowledge of the existing buildings. The lender agrees (explain modification).>>

## **Conclusion**

<<Provide lender’s conclusions and wrap up of the cost review. Reiterate if any of the cost analyst’s conclusions were modified and justified in the lender’s underwriting.>>

The report was prepared to comply with the reporting requirement outlined under the USPAP as a self-contained report. The report was prepared in accordance with the ORCF Appraisal Guidelines.

**Key Questions**

	<b>Yes</b>	<b>No</b>
1. Will there be a ground lease?	<input type="checkbox"/>	<input type="checkbox"/>
2. Are any tax credits involved in this transaction?	<input type="checkbox"/>	<input type="checkbox"/>
3. Are any real estate tax abatement or exemptions included in the underwriting assumptions?	<input type="checkbox"/>	<input type="checkbox"/>
4. Are there any special escrows or reserves proposed for this transaction?	<input type="checkbox"/>	<input type="checkbox"/>
5. Does the underwriting include income from adult day care? <i>(Note: Non-resident adult day care space <u>may not</u> be located on a separate site. The adult day care space will not be considered commercial space; however, the space may not exceed 20% of the gross floor area of the facility and the income may not exceed 20% of gross income. Provide a Certificate of Need or operating license, if applicable.)</i>	<input type="checkbox"/>	<input type="checkbox"/>
6. Are there any other issues that require special or a-typical underwriting considerations?	<input type="checkbox"/>	<input type="checkbox"/>
7. Does the submission date of the application (date the application enters the queue) exceed the 120-day timeframe from the effective date of the appraisal?	<input type="checkbox"/>	<input type="checkbox"/>

<<For each “yes” answer above, provide a narrative discussion regarding the topic. For example, Item 3, Real Estate Tax Abatement – The borrower will be receiving an abatement of real estate taxes for at least two years after opening the facility. The abatement is to be 70% of the taxes due. We have not assumed the abatement for valuation purposes. The underwriter has, however, excluded 70% of the underwritten taxes from the debt service calculation and from the initial operating deficit calculation.>>

**Hypothetical Conditions and Extraordinary Assumptions**

**Hypothetical Conditions**

<<Identify any conditions that are contrary to what exists but are supposed for the purpose of analysis. For example, “The appraisal assumes that the proposed construction is complete and the property has attained the operating levels concluded by the appraiser. There are no other hypothetical conditions.”>>

**Extraordinary Assumptions**

<<Identify any assumptions specific to this assignment that if found to be false, could alter the appraiser’s opinions or conclusions. For example, “The appraisal assumes the subject project meets the state licensing requirements and that the facility is constructed as planned. There are

no other extraordinary assumptions.>>

**Jurisdictional Exceptions**

<<These are rare and should be discussed with HUD before invoking. >>

**Market Analysis**

<<The Market Study may be an integral part of the appraisal and need not appear under separate cover. If under separate cover, the Market Study should have the same author as the appraisal, so the valuation is consistent with the market conclusions.>>

**Key Questions**

	Yes	No
1. Is the subject located in a declining market in terms of population, target population, real estate values, or employment?	<input type="checkbox"/>	<input type="checkbox"/>
2. Are there any negative market influences that require special consideration?	<input type="checkbox"/>	<input type="checkbox"/>
3. Is there a projected or current oversupply that could affect the subject?	<input type="checkbox"/>	<input type="checkbox"/>

<<For each “yes” answer above, provide a narrative discussion regarding the topic, describing the risk and how it is mitigated. For example, “Oversupply: The projected oversupply is specifically addressed in the Risk Factors section of this narrative.”>>

**Market Overview**

<<Provide an overview of the market analysis, including general growth and population information, barriers to entry, unique market influences, etc. Please be brief in this section and refrain from pasting large sections from the market study here.>>

**Primary Market Area**

<<Describe primary market area and method of selection (e.g., distance, zip codes, etc.). When making your conclusions about the size of the PMA, pay close attention to where the existing competitors are drawing their tenants from.>>

**Target Population**

<<Describe age, income, and type of resident (i.e., assisted living, independent, dementia, etc.) and acuity of care.>>

## **Demand**

*<<Describe age, income, and type of resident (i.e., assisted living, independent, dementia, etc.) and acuity of care of the target population. Describe target population demographics and demand factors.>>*

## **Competitive Environment (Supply)**

*<<Describe and identify competing facilities, planned facilities, facilities under construction, and other supply factors that compete with the subject facility. Description of supply should include types of facilities, acuity, and occupancy. Discuss recent and/or historic absorption of competitive units. Discuss any perceived changes to competitive environment.>>*

## **Conclusion**

*<<Provide conclusion of market analysis: summarize demand, market saturation, continued health of market, negative and positive factors impacting the continued demand for the subject's units/beds.>>*

## **Income Capitalization Approach – As-Is**

### **Financial Statements**

The appraiser and underwriter have analyzed the following historical financial statements pertaining to the operation of this facility:

*<<If less than three years financial information is available for the project's operations, provide a narrative justifying why the data is not available. Even in the cases where there was an acquisition within the past 3 years, the owners will usually have been supplied with the income and expense information from the previous owner.>>*

<<Provide narrative discussion and support for each other income category as appropriate. An equivalent analysis of the information provided above is required. Additional analysis can be provided at the lender's option to support their conclusion, as appropriate.

*Example: **Additional Personal Care Fees:** The project bases additional care fees on levels of care needed as determined by the initial assessment and subsequent assessments as needed. The appraiser concludes to a net amount of \$X annually. The underwriter has analyzed the history to determine the average monthly charge of \$X, net of vacancies. Insert historical or comparable data as appropriate.*

*Example: **Second Occupant Income:** The appraiser has included a net annual projection of X second occupants at \$X per month. Over the last 12 months, the facility has averaged X second occupants per month. Competitive facilities in the market place report second occupant charges ranging between \$X and \$X with a range of X to X second occupants. Based on the history and the market, the underwriter concurs with the appraiser's conclusion for a net annual income of \$X.*

*Example: **Other Income:** In addition to room rents, additional care, and second occupant income, the project receives miscellaneous income from X (list miscellaneous). The appraiser has included a net annual projection of \$X. Historically, typical miscellaneous income is between X and X percent of effective income. The appraiser's conclusion is x. The underwriter has concluded to a net \$X per annum (calculation shown). >>*

### Net Operating Income (NOI)

<<Provide narrative discussion as necessary. Summarize and compare the NOI of the appraiser and the lender's NOI that incorporates all potential changes to incomes and expenses. Typically, the lender would explain here that the appraiser's "market" NOI was used for valuation and loan sizing based on value. The lender's NOI, which may vary from the appraiser's due to the Office of Residential Care Facilities (ORCF) requirements (e.g., specific

reserve requirements, tax abatements that the appraiser was not allowed to recognize, or unusual management fees) will be used for loan sizing based on Debt Service Coverage.>>

### Capitalization Rate – As Is

<<The selection of the capitalization rate should be primarily based on recent sales rather than from investment models. Ideally, these rates would come from the Building Sales Comparables. However, these are often chosen by location before sale date. Recent cap rate data should be included every time, even if an additional set of cap rate comps or a survey needs to be introduced. In the table below, please add columns or duplicate the table as needed to accommodate additional comps.>>

		<b>5% of Work in Progress</b>	<b>=</b>	<b>422,379</b>

The underwriter calculated the working capital necessary for the work in progress as 5% of the contract balances for all work that was less than 90% complete. The working capital for the planned sister facility in XXXXX is 5% of the contract amount of \$6,356,426. The working capital for the subject is 5% of the contract amount of \$6,502,743.

Based on the above adjustments and analysis, the underwriter concludes to the following working capital analysis:

Current Assets		10,150,000
Current Liabilities		(7,911,000)
<b>Working Capital</b>		<b>\$ 2,239,000</b>
Working Capital for Other Work in Progress		(422,379)

Working Capital for planned SISTER Facility	(317,821)
Working Capital for Subject	(325,137)
<b>Excess Working Capital</b>	<b>\$ 1,173,663</b>

The contractor clearly demonstrates sufficient working capital for the current work in progress and the planned sister facility and the subject facility. In addition to the above working capital, the contractor also has a \$XXXXM revolving line of credit that currently has no balance. The line of credit is available to supplement the above working capital, if necessary, during construction. >>

**Conclusion**

<<Provide narrative discussion of underwriter’s conclusion and recommendation. For example, “The general contractor has demonstrated an acceptable financial and credit history. The general contractor has the experience to continue to complete the construction. The underwriter recommends this general contractor for approval as an acceptable participant in this transaction.” >>

**Risk Management Program**

**Program Guidance:** See Risk Management Program grid on the Section 232 program website for additional guidance. Note that the below tier descriptions are general descriptions and HUD retains discretion to require additional risk management measures, as warranted, on a case by case basis.

Risk Management Tier General Descriptions:

**Tier 1 Baseline:** For most assisted living and low-risk skilled nursing projects with no more than one incident of actual harm/immediate jeopardy in the past three years. In these instances, the risk management program may be administered internally or by a third party provided the party administering the program is qualified.

**Tier 2 Elevated Risk:** Higher risk projects with two more incidents of actual harm/immediate jeopardy within the past three years. In these instances the risk management program should be administered by a third party.

1. Will the facility be subleased (master lease)?	<input type="checkbox"/>	<input type="checkbox"/>
2. At closing, will the lease have a term that expires within 5 years with no lease renewal options (see guidance above)?	<input type="checkbox"/>	<input type="checkbox"/>

4. Does the lease require the borrower to escrow any funds other than those associated with this loan?	<input type="checkbox"/>	<input type="checkbox"/>
5. Are there proposed changes to the current operating lease?	<input type="checkbox"/>	<input type="checkbox"/>
6. Has the lender recommended any special conditions concerning the lease?	<input type="checkbox"/>	<input type="checkbox"/>

Yes No

7. Does the current lease payment need to be increased to provide sufficient debt coverage for the mortgage payment, MIP, other insurance premiums, taxes, reserves, or impounds?

<<For each “yes” answer above, provide a narrative discussion on the topic describing the risk and how it will be mitigated.>>

**Lease Payment – During Rehabilitation Period**<<Provide narrative explaining the terms of the lease and the payments to be made during the construction and/or rehabilitation.>>

**Lease Payment – During Lease Up**

<<Provide narrative explaining the terms of the lease and the payments to be made while the project is in lease-up.>>

**Lease Payment Analysis – Stabilized, As Rehabilitated**

The lease payments must be sufficient to (1) enable the borrower to meet debt service and impound requirements and (2) enable the operator to properly maintain the project and cover operating expenses. The minimum annual lease payment must be at least 1.05 times the sum of the annual principal, interest, mortgage insurance premium, reserve for replacement deposit, property insurance and property taxes.

The underwriter has prepared an analysis demonstrating the minimum annual lease payment.

a. Annual principal and interest	\$
b. Annual mortgage insurance premium	
c. Annual replacement reserves	
d. Annual property insurance	
e. Annual real estate taxes	
f. Total debt service and impounds	\$
<b>h Minimum annual lease payment</b>	<b>\$</b>
.	

<<Compare the minimum annual lease payment to the current lease payment. If the lease payment needs to increase, add the following language: “The lease payment must be increased to \$XX per year (\$XX per month). The underwriter has included a special condition to the firm commitment requiring the lease payment be revised to meet or exceed this minimum.” If the lease payment does not need to increase, add the following language: “The current lease payment is sufficient. The recommended annual lease payment also provides the operator with an acceptable profit margin.”>>

## Responsibilities

<<Provide a description of the responsibilities of the lessor and lessee under the terms of the lease with regard to the following: payment of real estate taxes, maintenance of building, capital improvements, replacement of equipment, property insurance, etc.>>

## Master Lease

**Program Guidance:** Handbook 4232.1, Section II Production, Chapter 13. It is the lender's responsibility to read the handbook chapter and provide HUD with a full set of documents for review of the proposed master lease or alternative master lease structure.

### Key Questions

	<b>Yes</b>	<b>No</b>

**Proposed AR Loan Costs**

<<If the AR borrower is obtaining AR financing for the first time, provide a financial analysis that demonstrates that the AR borrower has sufficient financial capacity to pay all projected operating expenses, AR financing costs and loan payments, and all rent or debt service payments. The analysis must assume the maximum AR loan amount to stress test the AR financing based on the lesser of the operator’s 12-month trailing operating statements or the underwritten NOI. Calculate the impact on the borrower’s debt coverage after payment of the AR loan expenses and payments.>>

Assuming the \$ \_\_\_\_\_ maximum AR loan limit, an annual interest rate of \_\_\_\_\_ %, and that the entire amount is outstanding for the year, the maximum annual interest expense would be \$ \_\_\_\_\_. In addition to the interest, the other associated fees are the \_\_\_\_\_ fees <<list types of fees>>, that total \$ \_\_\_\_\_ per year for the same assumed balance. An analysis of the operator’s 12 month trailing financial statement (Month 20XX – Month 20XX) is below:

<b>12-Month Trailing Operating History</b>	
Operating revenue	\$ _____
Less: Operating expenses	_____
Net operating income (NOI)	\$ _____
Annual P&I + MIP	\$ _____
AR fee: Interest	_____
AR fee: Other	_____
Total annual mortgage & AR debt service	\$ _____
DSCR including AR	

The underwriting assumed an NOI of \$ \_\_\_\_\_. The 12-month trailing NOI is \$ \_\_\_\_\_. The annual debt service including the MIP amount is \$ \_\_\_\_\_ per year. Adding the AR fees equates to a total mortgage and AR debt service expense of \$ \_\_\_\_\_ per year. This equates to \_\_\_\_\_ prospective debt service coverage.

<<If multiple FHA-insured facilities have access to the AR loan, repeat the analysis above with the consolidated revenues and expenses for all those facilities.>>

|---|--------------------------|--------------------------|
| 1. Does the insurance policy cover multiple properties?   | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. Is less than 6 years of lost history available?  | <input type="checkbox"/> | <input type="checkbox"/> |
| 3. Does the loss history indicate any professional liability claims over \$35,000?  | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. Does the loss history or potential claims certification indicate any uncovered claims?   | <input type="checkbox"/> | <input type="checkbox"/> |
| 5. Does the loss history or potential claims certification indicate any claims that would exceed the per occurrence or aggregate coverage limits at the facility?   | <input type="checkbox"/> | <input type="checkbox"/> |
| 6. Has the facility been covered by a “claims made” policy at any time during the statute of limitations for the State in which the facility is located?  | <input type="checkbox"/> | <input type="checkbox"/> |
| 7. Is the policy funded on a “cash front” basis?  | <input type="checkbox"/> | <input type="checkbox"/> |
| 8. Is an actuarial study applicable (self-insurance)? <i>(If yes, discuss results below.)</i>   | <input type="checkbox"/> | <input type="checkbox"/> |
| 9. For all facilities Owned, Operated or Managed by the operator and/or parent of the operator, are there any surveys/reports that have open G-level or higher citations outstanding? (As appropriate, provide a complete analysis of the surveys.) | <input type="checkbox"/> | <input type="checkbox"/> |
| 10. Are any entities that provide resident care (as discussed in the Provider Agreements and Resident Care Agreements/Rental Agreements) not covered by the PLI policy?   | <input type="checkbox"/> | <input type="checkbox"/> |
| 11. Are there any PLI issues that require special consideration?  | <input type="checkbox"/> | <input type="checkbox"/> |

*If you answer “yes” to any of the above questions, please address here. Examples:*

Multiple properties: The underwriter notes that the professional liability policy is a “blanket” policy covering XXX facilities, including the subject... {Address potential impact of other facilities on the subject’s coverage}

Less than 6-year loss history: The claims history reports were examined for the period XX through XX. The underwriter determined that there were no professional liability XX claims during that period...{address claims and sufficiency of coverage, etc. based on history}.

Claims made coverage: The project’s previous professional liability insurance coverage was a “claims made” form policy with XXXX, which expired XXXX, when the current policy was put in place. In XXXX, the borrower purchased a “nose coverage” policy, which is the coverage needed when going from a “claims made” form of insurance to a “per occurrence” form of insurance. The premium for this “nose” coverage liability was a one-time charge and was paid in XXX. Because of that additional insurance coverage, the insurance expense for XXXX was substantially higher than the current expense. The current “per occurrence basis” insurance policy covers the entire statute of limitations. The project’s professional liability insurance is in compliance with HUD’s requirements.>>

## **Lawsuits**

<<Identify all potential or expected professional liability insurance (PLI) claims in excess of \$35,000 that have been or may be filed for all periods within the statute of limitations for the state where the claim occurred. Identify any reserves held for potential claims. Discuss the risk associate with each potential PLI claim. Discuss how that risk is mitigated. Describe the circumstances, identify the potential award amount, provide evidence and analysis showing that the suits are covered by PLI insurance, and if the insurance is not sufficient, does the insured demonstrate adequate funds to cover the potential excess? Describe any other information that mitigates the risk.

As applicable, discuss other types of lawsuits (non-PLI) and describe the potential risk related to the party’s participation in the proposed project. Discuss how that risk is mitigated. If the suit is closed, does it contribute to a pattern? Does it materially affect the party’s ability to participate in the project? If not closed, describe the circumstances, identify the potential award amount, provide evidence and analysis showing that the suits are covered by insurance (general liability), and if the insurance is not sufficient, do they demonstrate adequate funds to cover the potential excess? Describe any other information that mitigates the risk.>>

## **Commercial General Liability Insurance**

<<Provide narrative discussion of policy coverage for bodily injury, property damage and personal injury. For example: General liability insurance will be provided by XX. The underwriter has confirmed estimates of the cost and coverage for underwriting and will re-verify this information prior to closing. The insurance coverage will comply with HUD requirements prior to closing.>>

## Property Insurance

<<Provide narrative discussion of review. For example, “Hazard and Liability insurance has been and/or will be provided by XX. The underwriter has confirmed estimates of the cost and coverage for underwriting and that it complies with HUD requirements.”>>

## Builder’s Risk

<< If contractor is paying, show in contractor’s other fees. If borrower is paying, show in borrower’s other fees.>>

## Fidelity Bond/Employee Dishonesty Coverage

Provide narrative discussion of fidelity bond / crime insurance coverage. For example: “A fidelity (crime) insurance with the limit of \$XX and \$XX deductible will be put into place prior to Permission to Occupy. The HUD requirement for at least two months **potential** gross income receipts would total \$XX.

Provide narrative discussion of fidelity bond / crime insurance coverage. For example: “A fidelity (crime) insurance with the limit of \$XX and \$XX deductible will be put into place prior to Permission to Occupy. The HUD requirement for at least two months **potential** gross income receipts would total \$XX.

## Recommendation

<<Provide narrative recommendation regarding acceptability of professional and general liability insurance. For example: “The borrower’s professional and general liability insurance was analyzed in accordance with Handbook 4232.1, Section II Production, Chapter 14 and Appendix 14.1.). The property has XX current potential (threatened) insurance claims at this time as reflected on the certification provided by the borrower. It is {lender’s} opinion that the information provided above and in the application sufficiently demonstrates that the existing professional liability coverage meets HUD’s requirements and that the risk from professional liability issues is sufficiently addressed. No modifications to the current coverage are recommended.”>>

## Tax Credits

**Program Guidance:** If the proposed documents do not currently comply with the requirements, outline the differences, what changes are required, and how they are justified. Note that proposed changes to OMB form documents must go through the ORCF document change protocol. Also, documents previously negotiated Multifamily documents are not automatically approved for use in Section 232 transactions, and must receive specific ORCF approval for use.

Will the subject have tax credits? (If no, skip this section) Yes  No
