VAF 22-1999v – OMB ICR #2900-0325

Justification: The VA Form 22-1999v (ICR# 2900-0325) was initiated in ROCIS on time, but we later discovered there was a temporary problem that existed in ROCIS whereby the uploaded 30-day FR notice was not correctly displaying.

At the time of the discovery, we were not aware that the 30-day draft FRN was not showing as being added to the ICR and forwarded to OMB for publication. The Publications Office identified the ROCIS issue as being part of the same problem they were experiencing with the ICR we had created for the 2900-0718.

Therefore, a reinstatement of the ICR was warranted.
