**Why you should consider becoming a REGISTERED eFILER**

- What is a **REGISTERED eFILER**?

A Registered eFILER has both an assigned **Customer Number** and **Digital Certificate** for secure access to application documents both during and after the filing of a patent application.

- Digital Certificates provide an e-Filer with the ability to **authenticate** sessions by requiring positive identification of a customer using Public Key Infrastructure technologies.
- Holders of Digital Certificates can take advantage of streamlined logins.
- **Registered e-Filers who authenticate can save "in-progress" submissions** and return to edit them prior to completing filing.
- This ability to save "in-progress" submissions provides added protection against loss of data in the event of a localized internet or office equipment failure or in the event of an unplanned system outage during an online filing session.
- Registered e-Filers can electronically process subsequent actions on electronically filed cases without delay.
- Registered e-Filers can review their confidential Private PAIR records for most of their electronically filed cases.
