## ASSENT FORM FOR CHILDREN/MINORS IN A RESEACH STUDY

You are being asked to participate in a research study. We would like to ask you a couple of questions about what it was like to have us in your home, and your feelings about emergencies. We would like to use a digital recorder to record what you say so we can write it down later, and share your thoughts with other people who are helping us with this project.

If we find out someone has hurt you, we must report this to a responsible adult, but not the person who has hurt you.

Child's Assent: I have been told about the study and know why it is being done and what to do. I also know that I do not have to do it if I do not want to. If I have questions, I can ask Reggie or Iris from the Drexel study team. I can stop at any time.

My parents/guardians know that I am being asked to be in this study.
