

Thank you for participating in an evaluation of the AAP Neurodevelopment ECHO program. This program is supported by the Cooperative Agreement Number, NU38OT000282, funded by the Centers for Disease Control and Prevention. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the American Academy of Pediatrics, Centers for Disease Control and Prevention or the Department of Health and Human Services.

To understand how well this program met the needs of learners and achieved the objectives of increasing participant knowledge and confidence to appropriately identify and care for children with neurodevelopmental delays, we ask you to complete the following survey.

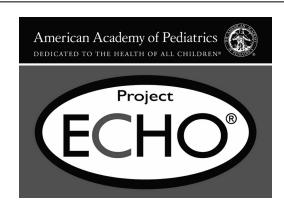

All data collected is confidential and will not be associated with your name or place of work. Data will be stored on password protected computers and responses will be combined with other participants' responses and will be reported in aggregate for dissemination. Your name or any other identifying information will not be disclosed through reports, publications or presentations related to this TeleECHO program.

This program has been reviewed and approved by the AAP Institutional Review Board (IRB). The risks involved with completing this survey are no greater than the risks a person may find in their daily life. You do not have to answer any question that you do not wish to answer, and you may stop completing the survey at any time.

If you have any questions, please contact AAP Program Manager Shannon Limjuco at (630) 626- 6217 or slimjuco@aap.org. Thank you for your time and commitment to the AAP Neurodevelopment ECHO program!

Public reporting burden of this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to - CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333 ATTN: PRA (0920-1154).

* 2. To date, approximately how many AAP Neurodevelopment ECHO sessions did you attend?
* 3. What is your gender?
Female
Male
Prefer to self-describe
* 4. Please list your state and zip code
* 5. Which of the following best describes your professional training?
Physician
(MD/DO) Nurse
Practitioner
Physician Assistant
Nurse
Social Worker
Other (please specify)

* 6. Which of the following best describes your professional position?
Primary care provider who sees children, youth and adults
Primary care provider who exclusively sees children and youth
Specialist/subspecialist in Developmental and Behavioral Pediatrics
Specialist/subspecialist in neurology
Administrative/Support Staff
Other (please specify)
* 7. Which of the following best describes your primary practice setting?
Solo practice
Two physician practice
O Pediatric group
practice
Family medicine group practice
Multispecialty group practice (other than staff model
HMO) Health maintenance organization (staff model)
Medical school or parent
university Non-government
hospital or clinic
City/county/state government hospital or clinic
U.S. government hospital or clinic
Nonprofit community health
center Other (please specify)
* 8. Please indicate your practice/organization's location:
Urban, inner city
Urban, not inner
city Suburban  Rural
O Rollar

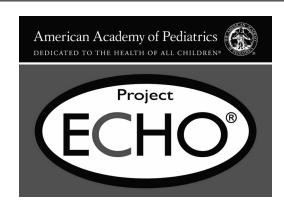

* 9. \	What percentage (%) of your patient population would be considered underserved?
	<u> </u>
* 10.	Please indicate the number of years in practice/profession:
* 11.	Please estimate the number of children and youth that you see in an average month.
	Please estimate the number of children and youth that you see in an average month with
nei	ırodevelopmental delays.

#### **Program Experience**

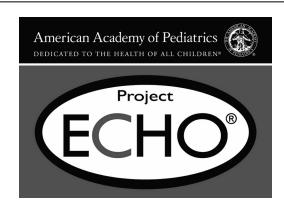

These next questions ask about your Neurodevelopment ECHO program experience. As a reminder, responses are confidential and will be aggregated for analysis with other participant responses. Results will be used by program developers to improve the training experience.

.8. Please indicate how much you agree or c	disagree with the following statements:
Neurodevelopment ECHO provided an appropriate balance between instruction and practice.	<b>\$</b>
Neurodevelopment	
ECHO was a valuable use of my time.	•
Neurodevelopment ECHO contributed to my professional network.	<b>\$</b>
Neurodevelopment ECHO content was relevant to my patient population.	<b>\$</b>
My understanding of the subject matter has improved as a result of participating in Neurodevelopment ECHO.	<b>\$</b>
My interest in the subject matter has increased as a result of participating in Neurodevelopment ECHO.	•
Neurodevelopment ECHO participation made me better at my	<b>\$</b>
job.  Neurodevelopment ECHO participation increased my professional satisfaction.	<b>\$</b>
Neurodevelopment ECHO participation made me feel less	•
isolated.  The quality improvement component was a	
valuable component of Neurodevelopment ECHO.	<b>\$</b>
I was satisfied with the overall training.	
Response Scale Strongly agree, agree, neutral, disagree, strongly disagree	

	What change(s), if any, have you made or do you plan to make in your practice as a result of ticipating in this ECHO? (Select all that apply)
	Change in current best practice or guideline in my work
	Change in my professional practice
	Change in a policy or procedure
	I do not plan to make any changes in my practice
	Other (please specify)
	From the list below, please indicate which factors will be barriers in applying what you have learned
froi	m this ECHO to your work. (select all that apply)
	No barrier
	Insufficient knowledge
	Insufficient skill set
	Lack of support from coworkers
	Lack of support from management
	Other (please specify)

•	21.	What support	do you need	d to overcome	the barrie	r(s) you se	elected a	bove?

* 22. Participation in Neurodevelopment ECHO has made my practice's clinical and operational work (eg,
scheduling, workflow, patient care):
Much easier
Somewhat
easier About the
same
Somewhat more
difficult Much more
difficult
N/A - I did not take part in the QI component
* 23. What was most valuable about the Neurodevelopment ECHO?
* 24. What was least valuable about the Neurodevelopment ECHO?
25. Please provide an example of how your participation in Neurodevelopment ECHO has positively
impacted the health and well-being of your patient/patients.
