

# Health Education and Health Promotion in Myalgic Encephalomyelitis/Chronic Fatigue Syndrome (ME/CFS): Knowledge, Attitudes and Beliefs in the U.S. General Public

## PROJECT INVITATION

Thank you for visiting WebMD.

We value your opinion! You have been randomly selected to participate in a short survey.

Before proceeding, please review the statement below.

[Take The Survey](#) [No Thanks](#)

This survey is being conducted by the WebMD market research department and is supported by the Centers for Disease Control and Prevention (CDC). All information will be used in a manner consistent with the WebMD [privacy policy](#). Your responses will not be disclosed with any information that can personally identify you (e.g. e-mail address, name, etc.). You will not be re-contacted regarding your answers to this survey. The purpose of this survey is to gather your opinions on knowledge, attitudes, and beliefs of myalgic encephalomyelitis/chronic fatigue syndrome (ME/CFS) only. We will not report your answers individually and will report results from this survey for the group as a whole.
