| How much do you agree or disagree with the following statements?  |                      |          |                                  |       |                   |
|---|----------------------|----------|----------------------------------|-------|-------------------|
|   | Strongly<br>Disagree | Disagree | Neither<br>Agree nor<br>Disagree | Agree | Strongly<br>Agree |
| 3.1 I know enough about sexual and reproductive health to talk to teens.  | 0                    | 0        | 0                                | 0     | 0                 |
| $3.2\mathrm{I}$ am confident in my ability to discuss preventing STD/HIV and pregnancy prevention with teens in a non-judgmental way.   | 0                    | 0        | 0                                | 0     | 0                 |
| 3.3 I am confident in my ability to conduct a screening to determine if a teen is in need of sexual and reproductive health services (e.g., is at risk for unwanted pregnancy or STI as a result of being sexually active and not using contraception/condoms). | 0                    | 0        | 0                                | 0     | 0                 |
| 3.4 If I talk to teens about sexual activity, STD, HIV and pregnancy this will encourage teens to have sex.   | 0                    | 0        | •                                | 0     | 0                 |
| 3.5 Teens that are sexually active should get information about and referrals to sexual and reproductive health services regularly.   | 0                    | 0        | 0                                | 0     | 0                 |
| 3.6 I am familiar with the different types of birth control, including IUDs and hormonal implants.  | 0                    | 0        | 0                                | 0     | 0                 |
| 3.7 I am comfortable talking about sexual and reproductive health with lesbian, gay, bisexual, transgender, questioning, queer (LGBTQQ) youth.  | 0                    | 0        | 0                                | 0     | 0                 |
| 3.8 It's difficult for me to talk with teens about sexual and reproductive health because I believe teens should not be sexually active.  | 0                    | 0        | 0                                | 0     | 0                 |
| Previous Next Stop  |                      |          |                                  |       |                   |

| ${\bf 1}$ It is important to my supervisor that I refer teens to sexual and reproductive health service eeded.  | when               | 0                | 0                                | 0             | 0                 |  |
| $\!$  | when               | 0                | 0                                | 0             | •                 |  |
| .3 I know my organization's policies about how to provide and document a referral.  | 0                  | 0                | 0                                | 0             | 0                 |  |
| .4 I know $\underline{\text{where}}$ to refer teens for youth-friendly, low or no cost, confidential sexual and reprocealth services.   | ductive            | •                | 0                                | 0             | 0                 |  |
| .5 I am confident in my ability to provide youth information and answer their questions about v<br>xpect during a clinic visit during which sexual and reproductive health would be addressed.  | what to            | 0                | 0                                | 0             | 0                 |  |
| .6 I am confident in my ability to inform teens about their rights to confidential sexual and eproductive health services.  | •                  | •                | 0                                | 0             | 0                 |  |
| .7 I am confident in my ability to provide teens with <u>passive</u> referrals for sexual and reproducti<br>ealth services. n a passive referral, a client is provided with information about a service, such as a clinic name<br>cation. It is then up to the client to access the service.  |                    | 0                | 0                                | 0             | 0                 |  |
| 4.8 I am confident in my ability to provide teens with <u>active</u> referrals for sexual and reproductive alth services. In an active referral, a client is provided with assistance in referral services, suce titing up an appointment, providing transportation, reminder call/text or email, or providing an icentive for clinic visit | ch as              | •                | 0                                | 0             | 0                 |  |
| $.9~\mathrm{I}$ am confident in the quality of sexual and reproductive health services at the local health $c\epsilon$ there I can refer youth.   | enters O           | 0                | 0                                | 0             | 0                 |  |
