## MUSE Caregiver Survey

Hello! Thank you for taking the MUSE Caregiver Survey over the phone with me today. My name is [NAME] and I will be helping you complete the survey. I'm going to read you the questions from the survey and record your answers into the computer. If you are unsure how to answer a question, please give the best answer you can.

The questions on this survey are about you and your family and what you expect to get out of the home visiting program. Your answers will be kept private. Only the research study team will be able to see your answers. Your answers will not be shared with your home visitor or anyone at the home visiting program or any other agencies. We will not report information collected in this study in a way that could identify you or your program. The survey will take about 35 minutes to complete over the phone. Finally, I want to remind you that your participation is voluntary.

We want to ensure you have privacy while completing the survey. To do this make sure you are in a private space and that you don't put the phone on speaker phone mode. Let me know when you are in a private space and we can begin.
