ADDITIONAL COMMENTS

*** Report Comments:**

Alabama TAA is partnering with vendor Mathematica to conduct a behavioral project evaluating effectiveness of alternative request for worker list letters and potential benefit and service eligibility notifications. This study may clarify best practices surrounding customer engagement that can then be shared with other states. - Following TAA Rhode Island's tour of Oregon TAA's service delivery model, New Jersey, Connecticut, and Pennsylvania TAA will learn about Navigator, Business Services-Trade, and Petition Coordinator models, and TRA administration. Collaboration is an opportunity to gain fresh perspectives on challenges, and enhance Program standards. - The Petition Coordinator is traveling to Montana to provide an in-depth presentation of the petition coordinator role and supporting document research process to USDOL and other states. This will also be an opportunity for the Petition Coordinator to build relationships. - The Portland Metro Navigator has collaborated with Rapid Response, TAA for Firms, and the Regional Business Services Team to deliver a presentation to the City of Gresham's Economic Development. The Navigator role provides leverage to collaborate with partners and build stakeholder understanding of services and customers. - The TAA Data Analyst will join a Tableau User Group with representatives of partner programs. The group will use this business intelligence tool to convey interconnectivity of labor markets and co-enrolled customers to field staff.
