

PAPERWORK REDUCTION ACT CHANGE WORKSHEET

Program for International Student Assessment 2021 (PISA 2021) Main Study (MS) Recruitment and Field Test (FT) Change Request

Agency/Subagency U.S. Department of Education, Institute of Education Sciences		OMB Control Number 1850-0755 v.24	
Current Record		New Record	
Agency form number(s)	NA	NA	
Annual reporting and record keeping hour burden			
Number of respondent	6,753	6,753	
Total annual responses	11,733	11,733	
Percent of these responses collected electronically	64%	64%	
Total annual hours	5,461	5,461	
Difference		0	
Explanation of difference		NA	
Program change		0	
Adjustment		0	
Annual reporting and record keeping cost burden (in thousands of dollars)			
Total annualized capital/startup costs	NA	NA	
Total annual costs (O&M)	NA	NA	
Total annualized cost requested	NA	NA	
Difference		NA	
Explanation of difference			
Program change		NA	
Adjustment		NA	
Other change**			
<p>The Program for International Student Assessments (PISA) is an international assessment of 15-year-olds which focuses on assessing students' reading, mathematics, and science literacy. PISA was first administered in 2000 and is conducted every three years. The United States has participated in all of the previous cycles and is participating in 2021 in order to track trends and to compare the performance of U.S. students with that of students in other education systems. PISA 2021 is sponsored by the Organization for Economic Cooperation and Development (OECD). In the United States, PISA is conducted by the National Center for Education Statistics (NCES), within the U.S. Department of Education. In each administration of PISA, one of the subject areas (reading, mathematics, or science literacy) is the major domain and has the broadest content coverage, while the other two subjects are the minor domains. PISA emphasizes functional skills that students have acquired as they near the end of mandatory schooling (aged 15 years), and students' knowledge and skills gained both in and out of school environments. PISA 2021 will focus on mathematics literacy as the major domain. Reading and science literacy will also be assessed as minor domains, with additional assessment of financial literacy. In addition to the cognitive assessments described above, PISA 2021 will include questionnaires administered to school principals and assessed students. To prepare for the main study in 2021, PISA countries will conduct a field test in the spring of 2020, primarily to evaluate newly developed assessment and questionnaire items but also to test the assessment operations. The PISA 2021 field test will be conducted in April-May 2020. The PISA 2021 main study recruitment will begin in October 2020 and data collection will be conducted October-November 2021. The request to conduct PISA 2021 main study recruitment and field test and was approved in December 2019 (OMB# 1850-0755 v.23). This change request: (1) makes small edits and replaces outdated screenshots of the MyPISA project website with screenshots of the MyPISA system that is now ready for the Field Test data collection, scheduled to begin in Spring 2020; (2) replaces the 2018 PISA Main Study video with the 2021 PISA Field Test Video; and (3) updates the package to remove all references to this change request.</p>
