#### OMB Control #1910-5184 Exp Date: 10/31/19 Home Performance with ENERGY STAR Implementation Plan Template for Prospective Program Sponsors

Home Performance with ENERGY STAR<sup>®</sup> (HPwES) is a public-private voluntary partnership program designed to turn building science-based recommendations into solutions for improved, energy efficient homes. The U.S. Department of Energy (DOE), in coordination with the U.S. Environmental Protection Agency (EPA), offers HPwES as a programmatic platform designed to systematically enhance home performance for healthier and more comfortable living environments, enhanced durability of the homes' structures and systems, and improved energy savings for the homeowners.

Home Performance with ENERGY STAR, like all ENERGY STAR programs, facilitates market transformation by increasing the availability and adoption of energy-efficient goods and services. HPwES is based on the nationally recognized ENERGY STAR brand and is grounded in a building science driven approach to home improvement that promotes consumer confidence and results in measurable energy savings. Through HPwES, Program Sponsors and stakeholders support an infrastructure of qualified contractors who engage customers, deliver quality work, and drive the market forward for HPwES projects and related services.

Eligible organizations include: Utilities; national, regional, state, or local government entities; or other organizations involved in coordinating and/or administering an energy-efficiency program or environmental education campaign that promotes or intends to promote ENERGY STAR qualified products, homes, Home Performance with ENERGY STAR and/or buildings.

Interested organizations must use this Sponsor Implementation Plan Template to outline your proposed Home Performance with ENERGY STAR program. Review the *Sponsor Guide and Reference Manual (v1.5)* for detailed Program requirements that must be incorporated into your program design. Use Appendix A—the Minimum Requirements Checklist Worksheet as a quick reference to help complete Sponsor Implementation Plan Template.

Please allow HPwES two weeks to review your plan. Once reviewed, HPwES will contact you to discuss your plan with you. Once your plan is approved you will be listed on the HPwES website and receive an email with My Energy Star Account (MESA) instructions to access our in-kind supporting material. DOE reserves the right to decline sponsorship if there are inadequate resources and planning to initiate a HPwES program, and will advise you as to what needs to be addressed.

Please complete and submit the Sponsor Implementation Plan Template to <u>homeperformance@energystar.gov</u>.
