GENERAL INSTRUCTIONS

Who Must Report

A. Reporting Criteria

All bank holding companies, savings and loan holding companies,¹ securities holding companies and U.S. intermediate holding companies (collectively “holding companies”), regardless of size, are required to submit financial statements to the Federal Reserve, unless specifically exempted (see description of exemptions below).

The specific reporting requirements for each holding company depend upon the size of the holding company, or other specific factors as determined by the appropriate Federal Reserve Bank. Holding companies must file the appropriate forms as described below:

- (1) **Holding Companies with Total Consolidated Assets of \$3 billion or More.** Holding companies with total consolidated assets of \$3 billion or more (the top tier of a multi-tiered holding company, when applicable) must file:
 - (a) the *Consolidated Financial Statements for Holding Companies* (FR Y-9C) quarterly, as of the last calendar day of March, June, September, and December.
 - (b) the *Parent Company Only Financial Statements for Large Holding Companies* (FR Y-9LP) quarterly, as of the last calendar day of March, June, September, and December.

1. Savings and loan holding companies do not include any trust (other than a pension, profit-sharing, stockholders' voting or business trust) which controls a savings association if such trust by its terms must terminate within 25 years or not later than 21 years and 10 months after the death of individuals living on the effective date of the trust, and (a) was in existence and in control of a savings association on June 26, 1967, or, (b) is a testamentary trust. See Section 238.2 of Regulation LL for more information.

Each holding company that files the FR Y-9C must submit the FR Y-9LP for its parent company.

For tiered holding companies. When holding companies with total consolidated assets of \$3 billion or more, own or control, or are owned or controlled by, other holding companies (i.e., are tiered holding companies), only the top-tier holding company must file the FR Y-9C for the consolidated holding company organization unless the top-tier holding company is exempt from reporting the FR Y-9C. If a top-tier holding company is exempt from reporting the FR Y-9C, then the lower-tier holding company (with consolidated assets of \$3 billion or more) must file the FR Y-9C.

In addition, such tiered holding companies, regardless of the size of the subsidiary holding company, must also submit, or have the holding company subsidiary submit, a separate FR Y-9LP for each lower-tier holding company.

- (2) **Holding Companies that are Employee Stock Ownership Plans.** Holding companies that are employee stock ownership plans (ESOPs) as of the last calendar day of the calendar year must file the *Financial Statements for Employee Stock Ownership Plan Holding Companies* (FR Y-9ES) on an annual basis, as of December 31. No other FR Y-9 series form is required. However, holding companies that are subsidiaries of ESOP holding companies (i.e., a tiered holding company) must submit the appropriate FR Y-9 series in accordance with holding company reporting requirements.
- (3) **Holding Companies with Total Consolidated Assets of Less Than \$3 billion.** Holding companies with total consolidated assets of less than \$3 billion must file the *Parent Company Only Financial Statements for Small Holding Companies* (FR Y-9SP) on a

General Instructions

semiannual basis, as of the last calendar day of June and December.²

For tiered holding companies. When holding companies with total consolidated assets of less than \$3 billion, own or control, or are owned or controlled by, other holding companies (i.e., are tiered holding companies), the top-tier holding company must file the FR Y-9SP for the top-tier parent company of the holding company. In addition, such tiered holding companies, must also submit, or have the holding company subsidiary submit, a separate FR Y-9SP for each lower-tier holding company.

When a holding company that has total consolidated assets of less than \$3 billion is a subsidiary of a holding company that files the FR Y-9C, the holding company that has total consolidated assets of less than \$3 billion would report on the FR Y-9LP rather than the FR Y-9SP.

The instructions for the FR Y-9C, FR Y-9ES, and the FR Y-9SP are not included in this booklet but may be obtained from the Federal Reserve Bank in the district where the holding company files its reports, or may be found on the Federal Reserve Board's public website (www.federalreserve.gov/apps/reportforms).

B. Exemptions from Reporting the Holding Company Financial Statements

The following holding companies do not have to file holding company financial statements:

2. The Reserve Bank with whom the reporting holding company files its reports may require that a holding company with total consolidated assets of less than \$3 billion submit the FR Y-9C and the FR Y-9LP reports to meet supervisory needs. Reserve Banks will consider such criteria including, but not limited to, whether the holding company (1) is engaged in significant nonbanking activities either directly or through a nonbank subsidiary; (2) conducts significant off-balance-sheet activities, including securitizations or managing or administering assets for third parties, either directly or through a nonbank subsidiary; or (3) has a material amount of debt or equity securities (other than trust preferred securities) outstanding that are registered with the Securities and Exchange Commission.

In addition, any holding company that is not subject to the Federal Reserve's Capital Adequacy Guidelines, but nonetheless elects to comply with the guidelines, are required to file a complete FR Y-9C and FR Y-9LP report, and generally would not be permitted to revert back to filing the FR Y-9SP report in any subsequent periods.

- (1) a holding company that has been granted an exemption under Section 4(d) of the Bank Holding Company Act; or
- (2) "qualified foreign banking organization" as defined by section 211.23(a) of Regulation K (12 CFR 211.23(a)) that controls a U.S. subsidiary bank.

Holding companies that are not required to file under the above criteria may be required to file this report by the Federal Reserve Bank of the district in which they are registered.

C. Shifts in Reporting Status

A top-tier holding company that reaches \$3 billion or more in total consolidated assets as of June 30 of the preceding year must begin reporting the FR Y-9C and the FR Y-9LP in March of the current year, and any lower-tier holding companies must begin reporting the FR Y-9LP in March of the current year. If a top-tier holding company reaches \$3 billion or more in total consolidated assets due to a business combination, then the holding company must begin reporting the FR Y-9C and the FR Y-9LP with the first quarterly report date following the effective date of the business combination, and any lower-tier holding companies must begin reporting the FR Y-9LP with the first quarterly report date following the effective date of the business combination. In general, once a holding company reaches or exceeds \$3 billion in total consolidated assets and begins filing the FR Y-9C and FR Y-9LP, it should file a complete FR Y-9C and FR Y-9LP going forward (and any lower-tier holding companies should file a complete FR Y-9LP going forward). If a top-tier holding company's total consolidated assets should subsequently fall to less than \$3 billion for four consecutive quarters, then the holding company may revert to filing the FR Y-9SP (and any lower-tier holding companies in those organizations may revert to filing the FR Y-9SP).

Where to Submit the Reports

Electronic Submission

All holding companies are required to submit their completed reports electronically. Holding companies should contact their district Reserve Bank or go to www.frb services.org/centralbank/reportingcentral/index.html for procedures for electronic submission.

General Instructions

When to Submit the Reports

The *Parent Company Only Financial Statements for Large Holding Companies* (FR Y-9LP) are required to be submitted as of March 31, June 30, September 30 and December 31. The submission date is 45 calendar days after the as of date unless that day fall on a weekend or holiday (subject to the timely filing provisions). For example, the June 30 report must be received by August 14 and the September 30 report by November 14. The term “submission date” is defined as the date by which the appropriate Reserve Bank must receive the holding company’s FR Y-9LP.

If the submission deadline falls on a weekend or holiday, the report must be received on the first business day after the Saturday, Sunday, or holiday. Earlier submission would aid the Federal Reserve in reviewing and processing the reports and is encouraged. No extensions of time for submitting reports are granted.

The reports are due by the end of the reporting day on the submission date (i.e., 5:00 P.M. at each of the Reserve Banks).

How to Prepare the Reports

A. Applicability of GAAP and Equity Method

Holding companies are required to prepare and file the *Parent Company Only Financial Statements for Large Holding Companies* in accordance with generally accepted accounting principles (GAAP) and these instructions. All reports shall be prepared in a consistent manner.

The holding company’s financial records shall be maintained in such a manner and scope so as to ensure that the *Parent Company Only Financial Statements for Large Holding Companies* can be prepared and filed in accordance with these instructions and reflect a fair presentation of the holding company’s financial condition and results of operations.

Holding companies should retain workpapers and other records used in the preparation of these reports.

Equity Method of Accounting for Investments in Bank and Nonbank Subsidiaries and Associated Companies

Each holding company in preparing its parent company only financial statements shall account for all invest-

ments in subsidiaries, associated companies, and those corporate joint ventures over which the holding company exercises significant influence according to the equity method of accounting, as prescribed by GAAP. The equity method of accounting is described in Schedule PC, item 5. (Refer to the instructions for Schedule PC, item 5, “Investments in and receivables due from subsidiaries and associated companies,” for the definitions of the terms subsidiary, associated company, and corporate joint venture.)

B. Report Form Captions, Non-applicable Items and Instructional Detail

No caption on the report forms shall be changed in any way. An amount or a zero should be entered for all items except where the reporting holding company cannot report a line item because of the nature of their organization. For example, if the parent company does not own nonbank subsidiaries, Schedule PC-A, items 2(a) and 2(b) and Schedule PI, item 1(b) should be left blank. Also if the parent company does not, directly or indirectly, own any subsidiary holding companies, Schedule PC-A, items 3(a) and 3(b) should be left blank. A zero should be entered whenever a parent company can participate in an activity, but does not, on the report date, have any outstanding balances.

There may be areas in which a holding company wishes more technical detail on the application of accounting standards and procedures to the requirements of these instructions. Such information may often be found in the appropriate entries in the Glossary section of the instructions for the *Consolidated Financial Statements for Holding Companies* (FR Y-9C) or, in more detail, in the FASB Accounting Standards Codification. For purposes of these instructions, the FASB Accounting Standards Codification is referred to as “ASC.” The accounting entries in the Glossary of the FR Y-9C instructions are intended only to serve as an aid in specific reporting situations; they do not, and are not intended to, constitute a comprehensive statement on accounting for holding companies.

Questions and requests for interpretations of matters appearing in any part of these instructions should be addressed to the appropriate Federal Reserve Bank (that is, the Federal Reserve Bank in the district where the holding company submits this report).

General Instructions

C. Rounding

All holding companies must report all dollar amounts in thousands, with the figures rounded to the nearest thousand. Items less than \$500 will be reported as zero. Rounding may result in details not adding to their stated totals. However, in order to ensure consistent reporting, the rounded detail items should be adjusted so that the totals and the sums of their components are identical.

On the *Parent Company Only Financial Statements for Large Holding Companies*, “Total assets” (Schedule PC, item 10) and “Total liabilities and equity capital” (Schedule PC, item 21), which must be equal, must be derived from unrounded numbers and then rounded in order to ensure that these two items are equal as reported.

For holding companies with total assets of less than \$10 billion, all dollar amounts must be reported in thousands, with the figures rounded to the nearest thousand. Items less than \$500 will be reported as zero. For holding companies with total assets of \$10 billion or more, all dollar amounts may be reported in thousands, but each holding company, at its option, may round the figures reported to the nearest million, with zeros reported in the thousands column. For holding companies exercising this option, amounts less than \$500,000 will be reported as zero.

D. Negative Entries

Except for the items listed below, negative entries are generally not appropriate on the FR Y-9LP and should not be reported. Hence, assets with credit balances must be reported in liability items and liabilities with debit balances should be reported in asset items, as appropriate, and in accordance with these instructions. Items for which negative entries may be made include:

- (1) Schedule PC, item 5, “Investments in and receivables due from subsidiaries and associated companies,”
- (2) Schedule PC, item 20(d), “Retained Earnings,”
- (3) Schedule PC, item 20(e), “Accumulated other comprehensive income.”
- (4) Schedule PC, item 20(f), “Other equity capital components.”
- (5) Schedule PC-A, items 1(a)(2)(a), 2(a)(2)(a), and 3(a)(2)(a), “Goodwill.”

When negative entries do occur in one or more of these items, they shall be recorded with a minus (–) sign rather than in parenthesis.

On the Parent Company Only Income Statement (Schedule PI) and Schedule PI-A “Cash Flow Statement,” negative entries may appear, as appropriate. Income items with a debit balance and expense items with a credit balance must be reported with a minus (–) sign.

E. Confidentiality

The completed version of this report is available to the public upon request on an individual basis. However, a reporting holding company may request confidential treatment for the *Parent Company Only Financial Statements for Large Holding Companies* (FR Y-9LP) if the holding company is of the opinion that disclosure of specific commercial or financial information in the report would likely result in substantial harm to its competitive position, or that disclosure of the submitted information would result in unwarranted invasion of personal privacy.

A request for confidential treatment must be submitted in writing prior to the electronic submission of the report. The request must discuss in writing the justification for which confidentiality is requested and must demonstrate the specific nature of the harm that would result from public release of the information; merely stating that competitive harm would result or that information is personal is not sufficient.

Information, for which confidential treatment is requested, may subsequently be released by the Federal Reserve System if the Board of Governors determines that the disclosure of such information is in the public interest.

F. Verification and Signatures

Verification. All addition and subtraction should be double-checked before reports are submitted. Totals and subtotals in supporting materials should be cross-checked to corresponding items elsewhere in the reports. Before a report is submitted, all amounts should be compared with the corresponding amounts in the previous report. If there are any unusual changes from the previous report, a brief explanation of the changes should be provided to the appropriate Reserve Bank.

Signatures. The *Parent Company Only Financial Statements for Large Holding Companies* must be signed by the Chief Financial Officer of the holding company (or by

General Instructions

the individual performing this equivalent function). *Holding companies must maintain in their files a manually signed and attested printout of the data submitted.* By signing the cover page of this report, the authorized officer acknowledges that any knowing and willful misrepresentation or omission of a material fact on this report constitutes fraud in the inducement and may subject the officer to legal sanctions provided by 18 USC 1001 and 1007. The cover page of the Reserve Bank-supplied, holding company's software, or from the Federal Reserve's web site report form should be used to fulfill the signature and attestation requirement and this page should be attached to the printout placed in the holding company's files.

G. Amended Reports

The Federal Reserve may require the filing of amended *Parent Company Only Financial Statements for Large Holding Companies* if reports as previously submitted contain significant errors. In addition, a holding company should file an amended report when internal or external auditors make audit adjustments that result in a restatement of financial statements previously submitted to the Federal Reserve.

The Federal Reserve also requests that holding companies that have restated their prior period financial statements as a result of an acquisition accounted for on a pooling of interest basis submit revised reports for the prior year-ends. In the event that certain of the required data is not available, holding companies should contact the appropriate Reserve Bank for information on submitting revised reports.

H. Organization of the Instruction Book

The instruction book is divided into two sections:

- (1) The General Instructions describing overall reporting requirements.
- (2) The Line Item Instructions for each schedule of the report for the parent company only of the holding company.

Additional copies of this instruction book may be obtained from the Federal Reserve Bank in the district where the reporting holding company submits its FR Y-9LP reports, or may be found on the Federal Reserve Board's public website (www.federalreserve.gov).

Report the net gain or loss realized by the reporting holding company during the calendar year-to-date from the sale, exchange, redemption, or retirement of all securities. The gain or loss is the difference between the sales price (excluding interest at the coupon rate accrued since the last interest payment date, if any) and the amortized cost. If this net amount is a loss, enclose it in parentheses.

Holding companies that have adopted ASU 2016-13, which governs the accounting for credit losses, should adjust the amortized cost for recoveries of any prior chargeoffs when calculating the realized gain or loss on a security, such that the recovery of a previously charged off amount should be recorded before recognizing the gain.

For holding companies that have adopted ASU 2016-01, include realized gains (losses) on available for sale debt securities in item 1(d). Report realized and unrealized gains (losses) during the year-to-date reporting period on equity securities with readily determinable fair values not held for trading in Schedule PI, item 3(b).

Do not adjust for applicable income taxes (income taxes applicable to gains (losses) on securities are to be included in the applicable income taxes reported in item 4 below).

Line Item 2(b) Interest expense.

Line Item 2(c) Provision for loan and lease losses.

Holding companies that have not adopted ASU-2016-13, report the amount charged against current operating earnings to provide for actual and prospective loan and lease losses.

Holding companies that have adopted ASU 2016-13, which governs the accounting for credit losses, report the amount expensed as the provisions for credit losses, during the calendar year-to-date. The provisions for credit losses represents the amount appropriate to absorb estimated credit losses over the life of the financial assets reported at amortized cost within the scope of the standard. *Exclude* the initial allowances established on the purchase of credit-deteriorated (PCD) financial assets, which are recorded at acquisition as an adjustment to the amortized cost basis of the asset.

Line Item 2(d) All other expenses.

Report all other operating expenses of the reporting holding company that cannot properly be reported against Items 2(a), 2(b), and 2(c). Include in this item goodwill impairment losses and amortization expense and impairment losses from other intangible assets. In addition, for purposes of this reporting item, include any interest expense accrued on borrowings reported on Schedule PC, in item 18, “Balances due to subsidiaries and related institutions.”

Line Item 2(e) Total operating expense.

Sum of Items 2(a) through 2(d).

Line Item 3 Income (loss) before applicable income taxes, discontinued operations and undistributed income.

(Item 1(f) minus Item 2(e)). Report a negative in parentheses.

Line Item 3(a) Income (loss) before unrealized holding gains (losses) on equity securities not held for trading, applicable income taxes and discontinued operations.

Report the holding company’s pretax income from continuing operations before unrealized holding gains (losses) on equity securities not held for trading. This amount is determined by subtracting Item 1(f) minus Item 2(e). Report a negative amount in parentheses.

NOTE: Item 3(b) is to be completed only by holding companies that have adopted FASB Accounting Standards Update No. 2016-01 (ASU 2016-01), which includes provisions governing the accounting for investments in equity securities and eliminates the concept of available-for-sale equity securities. ASU 2016-01 requires holdings of equity securities (except those accounted for under the equity method or that result in consolidation), including other ownership interests (such as partnerships, unincorporated joint ventures, and limited liability companies), to be measured at fair value with changes in the fair value recognized through net income. However, an institution may choose to measure equity securities and other equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer.

Holding companies that have not adopted ASU 2016-01 should leave item 3(b) blank and report their unrealized gains (losses) on available-for-sale equity securities during the year-to-date reporting period in Schedule SC, item 16(d), “Accumulated other comprehensive income”.

Line Item 3(b) Unrealized holding gains (losses) on equity securities not held for trading.

Report unrealized holding gains (losses) during the year-to-date reporting period on equity securities with readily determinable fair values not held for trading. Include unrealized holding gains (losses) during the year-to-date reporting period on equity securities and other equity investments without readily determinable fair values not held for trading that are measured at fair value through earnings. Also include impairment, if any, plus or minus changes resulting from observable price changes during the year-to-date reporting period on equity securities and other equity investments without readily determinable

Schedule PI

fair values not held for trading for which this measurement election is made.

If a holding company sells an equity security or other equity investment, but had not yet recorded the change in value to the point of sale since the last value change was recorded, include the change in value of the equity security or other equity investment to the point of sale in this item.

Line Item 3(c) Income (loss) before applicable income taxes and discontinued operations.

Report the institution's pretax income from continuing operations as the sum of Schedule PI, item 3(a), "Income (loss) before unrealized holding gains (losses) on equity securities not held for trading, applicable income taxes, and discontinued operations," and Schedule PI, item 3(b), "Unrealized holding gains (losses) on equity securities not held for trading." Report a negative amount in parentheses.

Line Item 4 Applicable income taxes.

Report the total estimated amount of current and deferred income taxes—Federal, State and local (estimated or accrued)—on a parent company only basis for the period. Holding companies that report a net tax benefit on a parent company only basis must enclose the amount in parentheses. Exclude taxes reported below against Item 5. Also include the tax benefit of an operating loss carryforward or carryback for which the source of the income or loss in the current year is reported in PI item 3 "Income (loss) before applicable income taxes, discontinued operations and undistributed income."

Line Item 5 Discontinued operations, net of applicable income taxes.

Report the results of discontinued operations, if any, net of applicable income taxes, as determined in accordance with the provisions of ASC Subtopic 205-20, Presentation of Financial Statements – Discontinued Operations (formerly FASB Statement No. 144, "Accounting for the Impairment of Long-Lived Assets"). If the amount reported in this item is a net loss, report it with a minus (-) sign.

Line Item 6 Income (loss) before undistributed income of subsidiaries and associated companies.

Sum of Item 3(c) and Item 5, minus Item 4.

Line Item 7 Equity in undistributed income (losses) of subsidiaries and associated companies.

Line Item 7(a) Bank.

Report the parent's equity in undistributed income of bank subsidiaries and of Edge Act and Agreement subsidiaries and associated banks, *less* applicable taxes. Include equity in securities gains or losses, discontinued operations, and cumulative effects of changes in accounting principles of bank subsidiaries and associated banks, *less* applicable taxes. Report a loss in parentheses.

Exclude any dividends declared or paid, which should be reported in line item 1(a)(1).

Line Item 7(b) Nonbank.

Report the parent's equity in undistributed income of nonbank subsidiaries and associated nonbank companies, *less* applicable taxes. Include equity in securities gains or losses, discontinued operations, and cumulative effects of changes in accounting principles of nonbank subsidiaries and associated nonbanks, *less* applicable taxes. Report a loss in parentheses.

Exclude any dividends declared or paid, which should be reported in line item 1(b)(1).

Line Item 7(c) Subsidiary holding companies.

Report the parent's equity in undistributed income of subsidiary holding companies and associated holding companies, *less* applicable taxes. Include equity in securities gains or losses, discontinued operations, and cumulative effects of changes in accounting principles of subsidiary holding companies and associated holding companies, *less* applicable taxes. Report a loss in parentheses.

Exclude any dividends declared or paid, which should be reported in line item 1(c)(1).

Line Item 8 Net Income (Loss).

Sum of Items 6, 7(a), 7(b) and 7(c).

Memoranda

Line Item M1 Noncash items included in operating expense.

Report the amount of loan and lease financing receivables that the reporting holding company has charged-off on the parent company's books.

Report the amount of loan and lease financing receivables that the reporting holding company has recovered on the parent company's books.

Line Item M4 Interest expense paid to special-purpose subsidiaries that issued trust preferred securities (included in item 2(d) above).

Report the amount of interest expense as of the year-to-date reporting period that has been paid by the parent holding company on parent company notes held by special-purpose subsidiaries that have issued "trust preferred securities." In these transactions, a special-purpose subsidiary (typically, a trust) of the parent company issues preferred securities and lends the proceeds of its issuance to its parent company in exchange for a deeply subordinated intercompany note from the parent company.

NOTE: The amount of interest expense paid to special-purpose subsidiaries that have issued trust preferred securities reported in this item should also be included as part of the total amount reported in Schedule PI, item 2(d), "All other expenses." See the instructions for Schedule PI, item 2(d).

Memorandum item 5 is to be completed by holding companies that have elected to account for financial instruments or servicing assets and liabilities at fair value under a fair value option.

Memoranda item 5 is to be completed by holding companies that have adopted ASC Topic 820, Fair Value Measurements and Disclosures (formerly FASB Statement No. 157, *Fair Value Measurements*), and have elected to report certain assets and liabilities at fair value with changes in fair value recognized in earnings in accordance with U.S. generally accepted accounting principles (GAAP) (i.e., ASC Subtopic 825-10, Financial

Instrument – Overall (formerly FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*); ASC Subtopic 815-15, Derivatives and Hedging – Embedded Derivatives (formerly FASB Statement No. 155, *Accounting for Certain Hybrid Financial Instruments*); and ASC Subtopic 860-50, Transfers and Servicing – Servicing Assets and Liabilities (formerly FASB Statement No. 156, *Accounting for Servicing of Financial Assets*)). This election is generally referred to as the fair value option.

If the holding company has elected to apply the fair value option to interest-bearing financial assets and liabilities, it should report the interest income on these financial assets (except any that are in nonaccrual status) and the interest expense on these financial liabilities for the year-to-date in the appropriate interest income and interest expense items on Schedule PI, not as part of the reported change in fair value of these assets and liabilities for the year-to-date. The holding company should measure the interest income or interest expense on a financial asset or liability to which the fair value option has been applied using either the contractual interest rate on the asset or liability or the effective yield method based on the amount at which the asset or liability was first recognized on the balance sheet. Although the use of the contractual interest rate is an acceptable method under GAAP, when a financial asset or liability has a significant premium or discount upon initial recognition, the measurement of interest income or interest expense under the effective yield method more accurately portrays the economic substance of the transaction. In addition, in some cases, GAAP requires a particular method of interest income recognition when the fair value option is elected. For example, when the fair value option has been applied to a beneficial interest in securitized financial assets within the scope of ASC Subtopic 325-40, Investments-Other – Beneficial Interests in Securitized Financial Assets (formerly Emerging Issues Task Force Issue No. 99-20, *Recognition of Interest Income and Impairment on Purchased and Retained Beneficial Interests in Securitized Financial Assets*), interest income should be measured in accordance with the consensus in this Issue. Similarly, when the fair value option has been applied to a purchased impaired loan or debt security accounted for under ASC Subtopic 310-30, Receivables – Loans and Debt Securities Acquired with Deteriorated Credit Quality (formerly AICPA Statement of Position 03-3, *Accounting for Certain Loans or Debt Securities*

Schedule PI

Acquired in a Transfer), interest income on the loan or debt security should be measured in accordance with this Statement of Position when accrual of income is appropriate.

Revaluation adjustments, excluding amounts reported as interest income and interest expense, to the carrying value of all assets and liabilities reported in Schedule PC at fair value under a fair value option (excluding servicing assets and liabilities reported in Schedule PC, item 7, “Intangible assets,” and Schedule PC, item 17, “Other liabilities,” respectively, and trading assets and trading

liabilities reported in Schedule PC, item 8, “Other assets,” and Schedule PC, item 17, “Other liabilities,” respectively) resulting from the periodic marking of such assets and liabilities to fair value should be reported as “All other operating income” in Schedule PI, item 1(e).

Line item M5 Net change in fair values of financial instruments accounted for under a fair value option.

Report the net change in fair values of all financial instruments that the holding company has elected to account for under the fair value option that is included in item 1(f), “Total operating income.”

Cash Flow Statement

Schedule PI-A

General Instructions

The purpose of the statement of cash flows is to provide information about the cash receipts and cash payments of the holding company on a parent company only basis during the reporting period. For purposes of reporting on Schedule PI-A, the reporting period is calendar year-to-date. The statement of cash flows reflects the cash effects during the reporting period from the parent holding companies resulting from operations, investing, and financing. The cash flow statement should be prepared in accordance with ASC Subtopic 230-10, Statement of Cash Flows — Overall (formerly FASB Statement No. 95, *Statement of Cash Flows*).

For purposes of the statement of cash flows, cash flows from investing activities include making and collecting loans and acquiring and disposing of debt or equity instruments and property, plant, and equipment. Cash flows from financing activities include obtaining resources from shareholders and providing them with a return on, and a return of, their investment; borrowing money and repaying amounts borrowed, or otherwise settling the obligation; and obtaining and paying for other resources obtained from creditors on long-term credit. Operating activities include all transactions and other events that are not defined as investing or financing activities. Operating activities generally involve producing and delivering goods and providing services. Cash flows from operating activities are generally the cash effects of transactions and other events that enter into the determination of net income.

Negative Entries

Attention should be given to amounts reported on the Cash Flow Statement. For Part I, Cash Flows from Operating Activities, negative entries recorded with a minus (-) sign must be used for:

- (1) Gain on sales of assets;

- (2) Equity in undistributed earnings of subsidiaries;
- (3) Net change in other liabilities, when other liabilities decrease; and
- (4) Net change in other assets, when other assets increase.

Positive entries must be used for:

- (1) Loss on the sales of assets;
- (2) Equity in undistributed losses of subsidiaries;
- (3) Net change in other liabilities, when other liabilities increase; and
- (4) Net change in other assets, when other assets decrease.

For Part II, Cash Flows from Investing Activities, use **absolute values** in items 1 through 6. In Item 7, “Other, net,” negative entries should be recorded with a minus (-) sign. Items 1, 3 and 5 will be subtracted when the sum is determined for Part II in item 8. For Part III, Cash Flows from Financing Activities, use **absolute values** in items 3 through 11. In Item 1, “Net change in purchased funds and other short-term borrowings” and Item 12, “Other, net,” negative entries should be recorded with a minus (-) sign. Items 4, 6, 8, 10, and 11 will be subtracted when the sum is determined for Part III, in item 13.

Part I. Cash Flows from Operating Activities.

NOTE: Holding companies may carry securities and other assets in a trading account. Cash receipts and cash payments resulting from purchases and sales of securities and other assets shall be classified as operating cash flows if those assets are acquired specifically for resale and are carried at market value in a trading account. Some loans are similar to securities in a trading account in that they are originated or purchased specifically for resale and are held for short periods of time. Cash receipts and cash payments resulting from acquisitions

Schedule PI-A

and sales of loans also shall be classified as operating cash flows if those loans are acquired specifically for resale and are carried at market value or at the lower of cost or market value.

Balances due from all other (i.e., unrelated, or third party) depository institutions should be reported on item 1(b).

Affiliated depository institutions include those institutions that have a direct or indirect relationship with the reporting parent holding company.

Overdrafts should not be reported in this item. Overdrafts with subsidiaries or affiliated companies should be reported under item 18, "Balances due to subsidiaries and related institutions." Overdrafts with unrelated or third party depository institutions should be reported under item 13(b), "Borrowings with a remaining maturity of one year or less: Other borrowings."

Line Item 1(a) Balances with subsidiary or affiliated depository institutions.

Report all currency and coin, demand, time and savings balances, and other cash items due from, or held with, subsidiary or affiliated depository institutions.

Line Item 1(b) Balances with unrelated depository institutions.

ment agencies and corporations, obligations of States and political subdivisions, bonds, notes, debentures, commercial paper, stock, etc. Exclude investments in subsidiaries and associated companies, which are to be reported in item 5 below.

Securities designated as available-for-sale are to be reported at fair value. Securities designated as held-to-maturity are to be reported at amortized cost. Include the amortization of premiums and accretion of discounts.

Holding companies that have adopted ASU 2016-13, report the amortized cost net of any applicable allowance for credit losses for held-to-maturity securities.

Net unrealized holding gains and losses on available-for-sale securities shall be reported in Schedule PC, item 20(e), "Accumulated other comprehensive income."

The fair value of securities should be determined, to the extent possible, by timely reference to the best available source of current market quotations or other data on relative current value. For example, securities traded on national, regional, or foreign exchanges or on organized over-the-counter markets should be valued at the most recently available quotation in the most active market. Quotations from brokers or others making markets in securities that are neither widely nor actively traded are acceptable if prudently used. Unrated debt securities for which no reliable market price data are available may be valued at cost adjusted for amortization of premium or accretion of discount unless credit problems of the obligor or upward movements in the level of interest rates warrant a lower estimate of current value.

Line Item 2(a) U.S. Treasury securities.

Report the appropriate value (i.e., fair value for U.S. Treasury securities designated as available-for-sale and amortized cost for U.S. Treasury securities designated as held-to-maturity) of all U.S. Treasury securities, including all bills, certificates of indebtedness, notes, bonds,

Schedule PC

and any securities issued under the Separate Trading of Registered Interest and Principal of Securities (STRIPS) program.

Exclude all obligations of U.S. Government agencies and corporations (report in item 2(b)) and detached Treasury security coupons and ex-coupon Treasury securities held as the result of either their purchase or the holding company's stripping of such securities and Treasury receipts such as CATs, TIGRs, COUGARs, LIONs, and ETRs (report in item 2(c)).

Report in this item the appropriate value (i.e., fair value or amortized cost) of all securities of U.S. Government agencies and corporations (including U.S. Government-sponsored agencies), other than the U.S. Treasury. Also include all securities issued by states and political subdivisions in the U.S.

For purposes of this item, states and political subdivisions in the U.S. include:

- (1) the fifty States of the United States and the District of Columbia and their counties, municipalities, school districts, irrigation districts, and drainage and sewer districts; and
- (2) the governments of Puerto Rico and of the U.S. territories and possessions and their political subdivisions.

Exclude all debt and equity investments in subsidiaries and associated companies, which are to be reported in item 5 below. Also, exclude equity securities held by the parent holding company that do not have readily determinable fair values, which are to be reported in item 8 below. See the instructions for item 4, Schedule HC-F on the FR Y-9C for further information on equity securities without readily determinable fair values.

Include as debt securities: bonds, notes, and debentures (including equipment trust certificates and collateralized mortgage obligations) and detached U.S. Government

security coupons and ex-coupon U.S. Government securities held as the result of either their purchase or the holding company's stripping of such securities and Treasury receipts such as CATs, TIGRs, COUGARs, LIONs, and ETRs. Also include all holdings of commercial paper.

Debt securities designated as available-for-sale shall be reported at fair value. Debt securities designated as held-to-maturity shall be reported at amortized cost.

Include as equity securities: common stock, perpetual preferred stock, and warrants. All equity securities owned by the parent company shall be carried at fair value and are defined as "available-for-sale" securities in accordance with ASC Topic 320, Investments-Debt and Equity Securities (formerly FASB Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities*).

Line Item 3 Securities purchased under agreements to resell.

Report in this item securities purchased under agreements to resell.

Exclude from this item any securities purchased from direct or indirect subsidiaries of the parent holding company under agreements to resell. Such transactions should be reported in item 5 below.

When the subsidiary holding company in a multi-tier organization is submitting this report, its transactions with its parent(s) or with subsidiaries of its parent(s) should be *excluded* from this item and reported in item 9 below.

Holding companies that have adopted ASU 2016-13, report the amount in this line item net of any applicable allowance for credit losses.

Line Item 4 Loans and lease financing receivables.

Line Item 4(a) Loans.

Report in the appropriate subitems all loans by domicile (U.S. and non-U.S.). Holding companies may report these amounts net of any allocated transfer risk reserve.

Loans are extensions of credit resulting from either direct negotiation between the holding company itself and its customers or the purchase of such assets from others.

Loans may take the form of promissory notes, acknowledgments of advance, due bills, invoices, overdrafts,

Schedule PC

commercial paper, acceptances held, factoring account receivables, customers' liability on trade acceptances, and similar written or oral obligations.

Exclude loans and advances to subsidiaries and associated companies (to be reported in item 5, "Investments in and receivables due from subsidiaries and associated companies"). Also exclude all holdings of commercial paper, which should be reported in item 2(c) above, and securities purchased under agreements to resell, which are to be reported in item 3 above.

Domicile is used to determine the foreign (non-U.S. addressee) or domestic (U.S. addressee) status of a customer of the reporting parent company of a holding company for the purposes of these reports. Domicile is determined by the principal residential address of an individual or the principal business address of a corporation, partnership, or sole proprietorship. If other addresses are used for correspondence or other purposes, only the principal address, insofar as it is known to the reporting holding company, should be used in determining whether a customer should be regarded as a U.S. or non-U.S. addressee. For purposes of defining customers of the reporting holding company, U.S. addressees include residents of the 50 states of the United States, the District of Columbia, Puerto Rico, and U.S. territories and possessions. Non-U.S. addressees include residents of any foreign country. The term non-U.S. addressee generally includes foreign-based subsidiaries of other U.S. banks and holding companies.

Line Item 4(a)(1) To U.S. addressees (domicile).

Report all loans to U.S. addressees.

Line Item 4(a)(2) To non-U.S. addressees (domicile).

Report all loans to non-U.S. addressees.

Line Item 4(b) LESS: Unearned income on loans.

To the extent possible, the preferred treatment is to report the specific loan categories net of unearned income. The reporting parent company should enter in this item unearned income only to the extent that it is not deducted from items 4(a)(1) and 4(a)(2) above. If the reporting parent company reports each loan item net of unearned income, enter a zero or the word "none."

Line Item 4(c) Loans, held for investment and loans held for sale.

Report the sum of items 4(a)(1) and 4(a)(2) less the amount reported in item 4(b).

Holding companies that have adopted ASU 2016-13, should not include any allowance for credit losses that is reported in PC, Item 4.e.

Line Item 4(d) Lease financing receivables, net of unearned income.

Report the book value of all lease financing receivables, net of unearned income. *Exclude* lease receivables when the lessee is a subsidiary or an associated company; such leases are to be reported in item 5.

A lease is an agreement that transfers the right to use land, buildings, or equipment for a specified period of time. This financing device is essentially an extension of credit evidenced by an obligation between a lessee and a lessor.

Line Item 4(e) LESS: Allowance for loan and lease losses.

Report the allowance for loan and lease losses as determined in accordance with generally accepted accounting principles (GAAP).

Holding companies that have adopted ASU 2016-13, report the allowance for credit losses.

Line Item 4(f) Loans and leases, held for investment and loans held for sale, net of allowance for loan and lease losses.

Report the sum of items 4(c) and 4(d) minus item 4(e).

Line Item 5 Investments in and receivables due from subsidiaries and associated companies. (From Schedule PC-A, item 4)

Report the amount of the holding company's direct investments in the stock of and all loans and receivables due from *all* subsidiaries (whether consolidated or unconsolidated), associated companies, and those corporate joint ventures over which the reporting holding company exercises significant influence (collectively referred to as "investees"). Investees include banks, nonbank companies, and lower-tier holding companies.

Schedule PC

Include the following in this item:

- (1) the cost of the parent's holdings of capital stock of subsidiaries and associated companies including any goodwill associated with the acquisitions;
- (2) when the investment is in common stock, the parent's proportionate share in the earnings or losses (net of preferred dividends) of subsidiaries and associated companies since the date of their acquisition, less common stock dividends declared or paid;
- (3) any advances made to, and other receivables due from, direct and indirect subsidiaries and associated companies (including those taking the form of loans and holdings of their bonds and debentures). Investments in the common stock of investees shall be reported using the equity method of accounting in accordance with GAAP. Under the equity method, the carrying value of the holding company's investment in the common stock of an investee is originally recorded at cost but is adjusted periodically to record as income the holding company's proportionate share of the investee's earnings or losses and decreased by the amount of any cash dividends received from the investee and amortization of goodwill.

For bank holding companies the term "subsidiary" is defined by section 2(d) of the Bank Holding Company Act and under Section 225.2 of Federal Reserve Regulation Y, which includes companies 25 percent or more owned or controlled by another company and may include companies less than 25 percent owned, if the Board determined that they are controlled by the holding company. For savings and loan holding companies the term "**subsidiary**," is defined by Section 238.2 of Federal Reserve Regulation LL, which generally includes companies more than 25 percent owned or controlled by another company. However, for purposes of the *Parent Company Only Financial Statements for Holding Companies*, a subsidiary is a company in which the parent holding company directly or indirectly owns more than 50 percent of the outstanding voting stock.

An associated company is a corporation in which the holding company, directly or indirectly, owns 20 to 50 percent of the outstanding voting stock and over which the holding company exercises significant influence. This 20 to 50 percent ownership is presumed to carry "significant" influence unless the holding company

can demonstrate the contrary to the satisfaction of the Federal Reserve.

A corporate joint venture is a corporation owned and operated by a group of companies ("joint venturers"), no one of which has a majority interest, as a separate and specific business or project for the mutual benefit of the joint venturers. Each joint venturer may participate, directly or indirectly, in the management of the joint venture. An entity that is a majority-owned subsidiary of one of the joint venturers is not a corporate joint venture.

The amount reported for this item should equal the sum of Schedule PC-A, items 1(a)(1) through 3(b)(2).

Line Item 6 Premises and fixed assets (including capitalized leases).

Report the book value, less depreciation, of all premises, furniture, fixtures, and equipment purchased directly or acquired by means of a capital lease. *Exclude* real estate owned other than company premises. Such real estate is to be reported in item 8, "Other assets."

Line Item 7 Intangible assets (other than reported in item 5 above).

Report in the appropriate subitem the amount of intangible assets. Include in this item intangible assets that are not properly reported as part of investments in subsidiaries (to be reported in item 5 above). Such intangibles may arise from acquisitions of portions or segments of another institution's business, such as branch offices, mortgage servicing portfolios, and credit card portfolios.

Intangible assets primarily result from business combinations accounted for under the purchase method in accordance with ASC Topic 805, Business Combinations (formerly FASB Statement No. 141 (revised 2007) *Business Combinations*), that relate to the acquisition of a subsidiary should be reflected in Schedule PC-A.

Purchase acquisition—In a purchase acquisition the assets and liabilities of the acquired business must be recorded on the books of the combined holding company at their fair value. The fair value of an asset is generally its market or appraised value and liabilities are generally valued on a present value basis. Therefore, to the extent possible, the cost of the acquisition is allocated to each identifiable asset or liability being acquired or assumed. Identifiable assets may be tangible (such as securities or fixed assets) or intangible (such as service contracts or the estimated value of certain deposit relationships as

Schedule PC

recognized by the Federal Reserve). Any excess of the cost of the acquisition over the net fair value of the identifiable assets and liabilities acquired or assumed is purchased goodwill.

In a purchase acquisition, the historical equity capital balances of the acquired business are not to be carried forward to the balance sheet of the combined holding company. If the reporting holding company has issued any stock in connection with the acquisition, the fair value of the shares issued shall be used in determining the cost of the acquisition unless the net fair value of the assets acquired and liabilities assumed presents a more accurate measure of the value of the transaction. The aggregate par or stated value of perpetual preferred or common shares issued shall be credited to the acquiring holding company's appropriate stock account and any excess of fair value over par or stated value of shares issued (reduced by any direct costs of issuing the shares) shall be credited to capital surplus. The operating results of the acquired business are to be included in the income and expenses of the reporting holding company only from the date of acquisition.

Line Item 7(a) Goodwill.

Report the amount (book value) of goodwill that is reported on the balance sheet of the reporting holding company and is not part of the investment in subsidiaries and associated companies reported in Schedule PC, item 5 "Investments in and receivables due from subsidiaries and associated companies." This asset represents the excess of the cost of a company over the sum of the fair values of the tangible assets and identifiable intangible assets acquired less the fair value of liabilities assumed in a business combination accounted for as a purchase.

Line Item 7(b) Mortgage servicing assets.

Report the carrying value of mortgage servicing assets, i.e., the cost of acquiring contracts to service loans secured by real estate that have been securitized or are owned by another party, net of any related valuation allowances. Exclude servicing assets resulting from contracts to service financial assets other than loans secured by real estate. Report nonmortgage servicing assets in item 7(c), "Other identifiable intangibles."

Schedule PC-B

the rate can next change and provided that the consolidated holding company reports in the same manner. In addition, holding companies also may choose to report their long-term debt that can be repaid in more than one payment on the basis of their scheduled contractual payments if the consolidated holding company reports in the same manner. Holding companies continuing to report their floating rate debt by earliest repricing opportunity and their multipayment debt on the basis of contractual payments should report in this item:

- (1) the dollar amount of floating or variable rate long-term debt that can be repriced in less than one year even if few, if any, of the contractual payments are scheduled to be repaid within one year. If the multipayment debt has some contractual payments scheduled to be repaid within one year, but cannot be repriced for one year or more, include the dollar amount of the contractual payments to be repaid within one year.
- (2) the dollar amount of the schedule contractual payments that are to be repaid in less than one year if the long-term debt has fixed or predetermined rates.

Exclude from this item commercial paper and other borrowings that had a remaining maturity of one year or less (Schedule PC, items 13(a) and 13(b)), and exclude limited-life preferred stock reported in Schedule PC, item 16, “Subordinated notes and debentures.”

Definitions for Item 6

A *fixed interest rate* is a rate that is specified at the origination of the transaction, is fixed and invariable during the term of the instrument, and is known to both the borrower and the lender.

A *predetermined interest rate* is a rate that changes during the term of the instrument on a predetermined basis, with the exact rate of interest over the life of the instrument known with certainty to both the borrower and the lender when the instrument is acquired. Examples of predetermined-rate transactions are:

- (1) Instruments that carry a specified interest rate, for, say, six months and thereafter carry a rate equal to a specific percentage over the initial rate.
- (2) Instruments that carry a specified interest rate while the transaction amount is below a certain threshold amount but carry a different specified rate above that

threshold (e.g., a line of credit where the interest rate is 14% when the unpaid balance of amounts advanced is \$100,000 or less, and 12% when the unpaid balance is more than \$100,000).

A *floating or adjustable interest rate* is a rate that varies, or can vary, in relation to an index, to some other interest rate such as the rate on certain U.S. Government securities or the bank’s “prime rate” or to some other variable criterion the exact value of which cannot be known in advance. Therefore, the exact rate the instrument carries at any subsequent time cannot be known at the time of origination. If the interest rate can float or be adjusted daily, the rate is considered immediately adjustable, even if the rate is not, in fact, changed.

For purposes of this item, when the rate on an instrument with a floating or adjustable rate can no longer float because it has reached a floor or ceiling level, the instrument is to be treated as “fixed rate” rather than as “floating rate” until the rate is again free to float.

Remaining maturity is the amount of time remaining from the report date until the final contractual maturity of the instrument *without regard to the instrument’s repayment schedule, if any.*

Repricing frequency is how often the contract permits the interest rate on an instrument to be changed (e.g., daily, monthly, quarterly, semiannually, annually) without regard to the length of time between the report date and the date the rate can next change.

Line Item 7 Loans and lease financing receivables of the parent.

Report in the appropriate subitem the total amount of the parent holding company’s assets, including those in the form of loans, lease financing receivables, and placements, that are past due 90 days or more and still accruing (item 7(a)) or in nonaccrual status (item 7(b)). Include in this item the dollar amount of assets that have been restructured, but are no longer in compliance with the restructured terms and are now past due or in non-accrual status.

Line Item 7(a) Past due 90 days or more and still accruing.

Line Item 7(b) Nonaccrual status.

Report on a holding company parent company only basis assets, including loans, lease financing receivables, and

Schedule PC-B

placements, that are past due or are in nonaccrual status. Loan amounts should be reported net of unearned income to the extent that the same categories of loans are reported net of unearned income in Schedule PC. Report the full outstanding balances of past due and nonaccrual assets, as reported for the purposes of Schedule PC-B, not simply the delinquent payments.

Definitions for Item 7

Past due—For purposes of this item, grace periods allowed by the holding company after an asset technically has become past due but before the imposition of late charges are not to be taken into account in determining past due status. Assets (including loans, lease financing receivables, and placements) are to be reported in this item when either the interest or principal is due and unpaid 90 days or more and still accruing.

Furthermore, loans and lease financing receivables are to be reported as past due when either interest or principal is unpaid in the following circumstances:

- (1) Closed-end monthly installment loans are to be reported as past due when the borrower is in arrears (At a holding company's option, loans and leases with payments scheduled monthly may be reported as past due when one scheduled payment is due and unpaid for 30 days or more.) Other multipayment obligations with payments scheduled other than monthly are to be reported as past due when one scheduled payment is due and unpaid for 30 days or more.
- (2) Open-end credit such as charge-card plans, check credit, and other revolving credit plans are to be reported as past due when the customer has not made the minimum payment for two or more billing cycles.
- (3) Amortizing loans secured by real estate are to be reported as past due when the borrower is in arrears two or more monthly payments. (Holding company may use 30 days as a proxy for a month if they prefer.) Such obligations with payments scheduled other than monthly are to be reported as past due when one scheduled payment is due and unpaid for 30 days or more.
- (4) Single payment and demand notes providing for the payment of interest at stated intervals are to be

reported as past due after one interest payment is due and unpaid for 30 days or more.

- (5) Single payment notes providing for the payment of interest at maturity are to be reported as past due after maturity if interest or principal remains unpaid for 30 days or more.
- (6) Unplanned overdrafts are to be reported as past due if the account remains continuously overdrawn for 30 days or more.

For purposes of this item, a full payment in computing past due status for consumer installment loans (both closed-end and open-end) is defined to include a partial payment equivalent to 90 percent or more of the contractual payment.

NOTE: The time period used for reporting past due status as indicated above may not in all instances conform to those utilized by the Federal Reserve in holding company examinations.

Nonaccrual—For purposes of this item, assets (including loans, lease financing receivables, and placements) are to be reported as being in nonaccrual status if: (a) they are maintained on a cash basis because of deterioration in the financial position of the borrower, (b) payment in full of interest or principal is not expected, or (c) principal or interest has been in default for a period of 90 days or more unless the obligation is both well secured and in the process of collection.

A debt is "well secured" if it is secured (1) by collateral in the form of liens on or pledges of real or personal property, including securities, that have a realizable value sufficient to discharge the debt (including accrued interest) in full, or (2) by the guaranty of a financially responsible party. A debt is "in the process of collection" if collection of the debt is proceeding in due course either through legal action, including judgment enforcement procedures, or, in appropriate circumstances, through collection efforts not involving legal action which are reasonably expected to result in repayment of the debt or in its restoration to a current status.

NOTE: Loans to individuals for household, family, and other personal expenditures and loans secured by 1–4 family residential properties on which principal or interest is due and unpaid for 90 days or more are not required to be reported as nonaccrual loans. Nevertheless, such loans should be subject to other alternative methods of evaluation to assure that the holding company's net income is

Schedule PC-B

not materially overstated. To the extent that the holding company has elected to carry any loans in nonaccrual status on its books, such loans must be reported as nonaccrual in this schedule.

Line Item 8 Loans of the parent restructured in troubled debt restructurings that are in compliance with their modified terms.

Report on a holding company parent company only basis all loans and lease financing receivables that have been restructured because of a deterioration in the financial position of the obligor but, as of the report date, are in compliance with the modified terms. Loan amounts should be reported net of unearned income to the extent that the same categories of loans are reported net of unearned income in Schedule PC above.

Definition for Item 8

Loans restructured in troubled debt restructurings—For purposes of this report, loans restructured in troubled debt restructurings (i.e., renegotiated debt) includes those loans restructured in troubled debt restructurings renegotiated to provide a reduction of either interest or principal because of a deterioration in the financial position of the borrower. A loan extended or renewed at a stated interest rate equal to the current interest rate for new debt with similar risk is not considered a troubled debt restructuring.

Include in memoranda item 8 only those loans restructured in troubled debt restructurings that are in compliance with the modified terms of the renegotiation. If such loans are past due or in nonaccrual status, they are to be excluded from memoranda item 8 and reported in memoranda items 7(a) and 7(b) above.

Include all loans to individuals for household, family, and other personal expenditures, and all loans secured by 1–4 family residential properties.

For further information, see ASC Subtopic 310-40, Receivables – Troubled Debt Restructurings by Creditors (formerly FASB Statement No. 15, *Accounting by Debtors and Creditors for Troubled Debt Restructurings*), as amended by FASB Statement No. 114, *Accounting by Creditors for Impairment of a Loan*.

Report in this item the fair value of all securities included in Schedule PC, item 2(a) through 2(c), “Securities,” that have been designated as available-for-sale. For example, securities traded on national, regional, or foreign exchanges, or on organized over-the-counter markets should be valued at the most recently available quotation in the most active market. Quotations from brokers or others making markets in securities that are neither widely nor actively traded are acceptable if prudently used. Unrated debt securities for which no reliable market price data are available may be valued at cost adjusted for amortization of premium or accretion of discount unless credit problems of the obligor or upward movements in the level of interest rates warrant a lower estimate of current value. Equity securities that do not have readily determinable fair values shall be reported at historical cost. (NOTE: The sum of items 11(a) through 11(c) must equal the sum of Schedule PC, item 2(a) through 2(c)).
