General – This information is being collected by the National Marine Fisheries Service (NMFS) to ensure that timely and accurate records are available concerning the fishing vessels of the U.S. that participate in Pacific Ocean fisheries for highly migratory species (HMS). This collection of information concerning U.S. fishing vessels harvesting tuna in the eastern Pacific Ocean (EPO) is also necessary for the U.S. to comply with its obligations as a member of the Inter-American Tropical Tuna Commission (IATTC).

This permit is required for commercial fishing vessels and recreational charter vessels that harvest any of the species that are included in the HMS Fisheries Management Plan. They are: striped marlin (*Tetrapturus audax*), swordfish (*Xiphias gladius*), common treshers shark (*Alopias vulpinus*), shortfin mako or bonito shark (*Isurus oxyrinchus*), blue shark (*Prionace glauca*), north Pacific albacore (*Thunnus alalunga*), yellowfin tuna (*Thunnus albacares*), bigeye tuna (*Thunnus obesus*), skipjack tuna (*Katsuwonus pelamis*), northern Bluefin tuna (*Thunnus orientalis*), and dorado or dolphinfish (*Coryphaena hippurus*).

Instructions

Section 1- Vessel Information. Enter vessel information as it appears on the Coast Guard documentation, or if the vessel is not documented, as it appears on the state registration, vessel tonnage certificate, and/or marine survey. Provide all other information required to the best of your ability.

Home Port: City and state where the vessel is customarily kept, not necessarily the home port list on the certificate of documentation.

Radio Call Sign – Leave blank if your vessel does not have one.

Operational Vessel Monitoring System (VMS) – Required for vessels fishing in the high seas (outside 200 nm) and commercial vessels greater than 24 m (78.74 ft.). Contact the permits office at wcr-permits@noaa.gov for more information.

Section 2 – Gear Endorsements. For commercial fishing vessels, mark only gears that the vessel will use to harvest HMS. Some gears are subject to additional requirements prior to approved endorsements. It is not necessary to list any gear for recreational charter or commercial passenger fishing vessels (CPFV).

Section 3 – Vessel ownership. Enter the owner's date of birth. The owner's date of birth will be used as an additional identifier and to establish the two-year renewal date for the permit. Contact information for the vessel owner is required.

Section 4 – Eligibility. The following vessel owners are eligible to hold a Pacific HMS permit:

- (1) An individual who is a citizen of the United States.
- (2) An association, trust, joint venture, or other entity if—(A) each of its members is a citizen of the United States; and (B) it is capable of holding title to a vessel under the laws of the United States or a State.
- (3) A partnership if—(A) each general partner is a citizen of the United States; and (B) the controlling interest in the partnership is owned by citizens or the United States.
- (4) A corporation if—(A) it is incorporated under the laws of the United States or a State; (B) its chief executive officer, by whatever title, and the chairman of its board of directors are citizens of the United States; and (C) no more of its directors are noncitizens than a minority of the number necessary to constitute a quorum.
- (5) The United States Government.
- (6) The government of a State.

Application Processing Fee – Include a check or money order payable to “US Department of Commerce – NOAA.” Cash is not accepted. To pay by credit card, apply online at <http://fisheriespermits.noaa.gov>.

Privacy Act Statement: Federal Regulations (at 50 CFR Part 660) authorize collection of this information. This information is used to verify the identity of the applicant(s) and to accurately retrieve confidential records related to federal commercial fishery permits. Where the requested information is a Social Security Number, disclosure is mandatory in accordance with the Debt Collection Act (31 U.S.C. 7701).

Paperwork Reduction Act - Public reporting burden for this collection of information is estimated to average 40 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining data, and completing and reviewing the collection of information. Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Regional Administrator, National Marine Fisheries Service, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213.
