

### Drinking Water Information Collection Form for Water Purveyors

Form Approved  
OMB No. 0923-00xx  
Exp. Date xx/xx/20xx

1. Is the site served by a public water supply?

*If yes, the following information will be requested from the water purveyor:*

- *List of residences served by the water purveyor*
  - *Name of person and street address*
- *Distribution system characteristics*
  - *Specifically, whether the PFAS concentrations can be assumed to be relatively uniform throughout the system or whether the system had specific areas with substantially higher or lower PFAS concentrations.*
  - *Sources of drinking water (e.g., supply wells, reservoir)*
  - *Any interconnections between water systems; if so, then frequency of use of the interconnection and the amount of water supplied by the interconnection when in use*
- *If distribution system characteristics indicate supply wells, the following information will be requested*
  - *Historical and current supply well information*
    - *Monthly/Daily production logs*
    - *Dates of operation*
- *Results from all relevant PFAS sampling*

*If no, please proceed to question 2.*

2. Does the site have contaminated private wells?

*If yes, the following information will be requested from state and/or local health and environmental agencies:*

- *List of residences with a contaminated private well*
  - *Name of person and street address*
- *Results from all relevant PFAS sampling of private wells*
