Does plan utilize floor pricing?
 Yes
 No
Floor pricing is used when a sponsor negotiates a minimum price, such as for very low cost generics, that a pharmacy(ies) will be paid for filling a prescription.

Does plan utilize ceiling pricing?
 Yes
 No
Ceiling pricing is used when a sponsor negotiates a maximum price that a given pharmacy will be paid for a specific NDC. Ceiling pricing is often used for high cost generics.

Do you offer a free first fill (i.e. \$0 copayment) for any drugs?
 Yes
 No
Example: If your plan offers a \$0 copay for the first fill of a Lipitor prescription, you should answer 'yes' to 'Do you offer a free first fill for any drugs' and indicate the RxGUI for Lipitor in the flat file which must be uploaded through the Formulary Submission Module by Friday, June 7, 2019 at 11:59 am Eastern Time.

Are there quantity limits on certain prescription drugs?
 Yes
 No

Is prior authorization required for certain prescription drugs?
 Yes
 No

Will your plan be limiting on-formulary coverage of drugs to certain indications (i.e., are you implementing indication-based formulary design)?
 Yes
 No

Do any drugs in your formulary require a step therapy plan?
 Yes
 No

Do you pay for Over-the-Counter medications (OTCs) under the Utilization Management Program?
 Yes
 No
If you select "Yes" to "Do you pay for Over-the-Counter medications (OTCs) under the Utilization Management Program?", you must indicate these specific medications in a flat file which must be uploaded through the Formulary Submission Module by Friday, June 7, 2019 at 11:59 am Eastern Time.

OTC Medication Attestation statement
 Per Chapter 4 of the Medicare Managed Care Manual, an MAO cannot offer the same OTC drug under both its Part C supplemental benefit and its Part D benefit. I attest any OTC drugs that are covered under Part C are separate and distinct from OTC drugs covered under Part D.

Do you offer OTCs as a part of a formal Step Therapy Protocol submitted for review and approval by CMS?
 Yes
 No
With respect to OTCs, a Step Therapy protocol is one that requires the use of the OTC product prior to receiving a prescription formulary drug. This is in contrast to a general utilization management strategy that offers OTCs as alternatives to prescription formulary drugs but without a requirement to try the OTC first. All OTC drugs used in either a Part D Step Therapy Protocol or a general utilization management strategy must appear in an OTC supplemental file. However, only those OTCs used in a Step Therapy Protocol must be documented in the Step Therapy Criteria text files submitted with the formulary files.

Indicate number of Tiers in your Part D benefit:

Each plan must indicate one specific cost-sharing tier from its PBP at which it will adjudicate all non-formulary drugs approved through the formulary exceptions process.

What is your Formulary Exception Tier?

Although CMS generally allows Part D sponsors to apply only one level of cost sharing from an existing formulary tier to all approved formulary exceptions, sponsors may also elect to apply a second less expensive level of cost sharing for all approved formulary exceptions for generic drugs, so long as this second level is also associated with an existing formulary tier and is uniformly applied to all approved formulary exceptions for generic drugs.

Do you apply a second less expensive cost sharing level for all generic drugs approved for formulary exceptions?
 Yes
 No

What is the lower level cost sharing Formulary Exceptions Tier?

Indicate the Out-of-Network (OON) cost-sharing structure for this plan:

- Standard Retail Copay/Coinsurance(no differential)*
- Standard Retail Copay/Coinsurance plus a differential between the OON billed charge and the Standard Retail allowable**
- Standard Retail Copay/Coinsurancewith limited days supply

*If a plan chooses this option and does not utilize either a differential in cost-sharing or a differential in days supply for OON coverage, CMS' expectation is that the plan is monitoring for appropriate OON use with either a post authorization process or alternative review tool.

**CMS will pay the OON differential, as applicable, for appropriate OON purchases of covered Part D drugs for individuals receiving the low-income subsidy.

Yes
 No

If you select "Yes" to "Do you cover excluded drugs as part of your supplemental coverage (e.g., drugs used to treat erectile dysfunction)?", you must indicate these specific medications in a flat file which must be uploaded through the Formulary Submission Module by Friday, June 7, 2019 at 11:59 am Eastern Time.

Do you offer additional cost-sharing reductions in the coverage gap?

Yes
 No

The beneficiary cost-sharing for the Defined Standard (DS) gap coverage benefit in CY 2020 is 25% for non-applicable (i.e., generic) drugs and 25% for applicable (i.e., brand) drugs. The coverage gap discount applies to applicable drugs for all benefit types and must be reflected in each plan's bid. The gap coverage section of the PBP is intended only for those enhanced alternative (EA) plans offering additional cost-sharing reductions in the coverage gap through a supplemental Part D benefit. Other benefit types will NOT enter gap coverage information in the PBP.

Additional reductions in gap cost-sharing offered by EA plans through a supplemental benefit represents cost-sharing that is significantly better than the defined standard cost-sharing benefits for generic and/or brand drugs that must be offered by all plans. When offering additional cost-sharing reductions for applicable drugs in the gap, the plan liability is first applied to the plan-negotiated price, followed by the manufacturer coverage gap discount for applicable beneficiaries.

Example: A sponsor intends to offer additional coverage in the gap such that the plan's liability for applicable drugs is 50% (100% minus 50% coinsurance). For drug with a plan-negotiated price of \$150, the plan liability is \$75, and the remaining \$75 will be shared by the manufacturer at 70% (\$52.50) and the beneficiary at 30% (\$22.50). By comparison, under the DS gap coverage for the same applicable drug, the manufacturer discount of 70% (\$105) is applied first, the beneficiary cost-sharing is 25% (\$37.50), and the plan's liability is 5% (\$7.50).

Consistent with guidance issued in the June 2, 2010 HPMS memo "Medicare Coverage Gap Discount Program Beginning in 2011: Additional Guidance Concerning Part D Supplemental Benefits, Employer Group Waiver Plans, Platino Plans, and Subrogation Claims," PBPs may not incorporate the coverage gap discount into their benefit design. Manufacturer payments count toward a beneficiary's out-of-pocket costs and as such are to be included in the cost-sharing entered into the PBP. In the case of either a coinsurance or copayment design, the amount the beneficiary pays at point of sale would be approximately 30% of the expected cost-sharing entered in the PBP for applicable drugs.

The maximum additional gap beneficiary cost-sharing for non-applicable drugs in CY 2020 is 15%. Since the manufacturer discount does not apply, the amount entered in the PBP and experienced by the beneficiary at point of sale is the same. The CY 2020 maximum additional gap cost-sharing for applicable drugs is 50%, which is inclusive of the 70% manufacturer discount. While the maximum beneficiary cost-sharing that should be experienced at the point of sale would be 15%, based on the above guidance, the PBP entry should reflect 50% cost-sharing, inclusive of the manufacturer discount.

Are all of the drugs on your formulary available with an extended day supply?

Yes

No

Are any of the drugs available at an extended day supply limited to a 1-month supply for the first fill?

Yes

No

When you select a 2-month and/or a 3-month supply at a retail or mail order pharmacy, you must indicate whether or not all drugs on the entire FORMULARY are available with an extended day supply.

The beneficiary cost-sharing for the Defined Standard (DS) gap coverage benefit in CY 2020 is 25% for non-applicable (i.e., generic) drugs and 25% for applicable (i.e., brand) drugs. The coverage gap discount applies to applicable drugs for all benefit types and must be reflected in each plan's bid. The gap coverage section of the PBP is intended only for those enhanced alternative (EA) plans offering additional cost-sharing reductions in the coverage gap through a supplemental Part D benefit. Other benefit types will NOT enter gap coverage information in the PBP.

Sponsors who utilize a coinsurance cost-share structure are required to enter the Average Expected Cost Sharing amount. The average expected cost share amount represents the average expected cost-sharing amount in dollars that a beneficiary would be expected to pay at a network retail pharmacy for a one month supply of drugs.

Average Expected Cost sharing Attestation:

I attest that the value(s) entered have been reviewed by the plan's certifying actuary and are accurate.

Sponsors who choose to offer a dual eligible SNP with zero dollar cost-sharing under Part D must buy down the entire 25% actuarial equivalent cost-sharing amount using MArebate dollars in the bid. Per Chapter 13 of the Medicare Prescription Drug Benefit Manual, sponsors do not have an option of only applying MArebate dollars to the statutory patient pay amounts and receiving federal cost-sharing subsidies for the remainder.

Zero Dollar Cost Sharing Attestation:

I attest that it is the plan sponsor's intention to buy down the entire cost-sharing amount for the zero dollar cost-share tier(s) and this has been confirmed with the plan's certifying actuary.

Previous Next Exit (Validate) Exit (No Validate) Go To: Medicare Rx - Notes

Notes:

NOTE: The Medicare Rx notes field should ONLY be used when required to clarify information that cannot otherwise be entered into the PBP. Generally, there should be little or no need to enter any information in the notes field and therefore this field should only be completed for unusual circumstances. For more information refer to the on-screen label on the Medicare Rx notes screen. This field is limited to 225 characters.

The following should not be included in the Medicare Rx Notes field:

- 1) Statements that may reduce any Part D benefits;
- 2) Redundant information that is either contained elsewhere in the PBP or in a Part D requirement;
- 3) Information concerning excluded drugs or OTC items (these must be submitted in the Excluded Drugs or OTC Supplemental files);
- 4) Statements concerning out-of-network coverage and cost-sharing; or
- 5) Information that is not related to Part D benefits.

It is the Part D sponsor's responsibility, both before and after bid approval, to ensure that the information included in the Medicare Rx notes section complies with the requirements above. Once bids are approved, additions to the notes field during the plan corrections period will not be allowed.
