SUPPLEMENTARY INFORMATION:

Title: FERC-574 (Gas Pipeline Certificates: Hinshaw Exemption)

OMB Control No.: 1902-0116

Type of Request: Three-year extension of the FERC-574 with no changes to the current reporting requirements.

Abstract: The Commission uses the information collected under the requirements of FERC-574 to implement the statutory provisions of Sections 1(c), 4, and 7 of the Natural Gas Act (NGA). Natural gas pipeline companies file applications with the Commission furnishing information in order to facilitate a determination of an applicant's qualification for an exemption under the provisions of the section 1(c). If the Commission grants an exemption, the natural gas pipeline company is not required to file certificate applications, rate schedules, or any other applications or forms prescribed by the Commission.

The exemption applies to companies engaged in the transportation, sale, or resale of natural gas in interstate commerce if: (a) they receive gas at or within the boundaries of the state from another person at or within the boundaries of that state; (b) such gas is ultimately consumed in such state; (c) the rates, service and facilities of such company are subject to regulation by a State Commission; and (d) that such State Commission is exercising that jurisdiction. 18 CFR Part 152 specifies the data required to be filed by pipeline companies for an exemption.

Type of Respondents: Pipeline companies.

*Estimate of Annual Burden:*¹ The Commission estimates the annual public reporting burden and cost² for the information collection as:

FERC-574, GAS PIPELINE CERTIFICATES: HINSHAW EXEMPTION					
Number of Respondents (1)	Number of Responses Per Respondent (2)	Total Number of Responses (1) * (2) = (3)	Average Burden Hours & Average Cost (\$) per Response (4)	Total Annual Burden Hours & Total Annual Cost (\$) (3) * (4) = (5)	Cost (\$) per Respondent (5) ÷ (1) = (6)
2	1	2	60 hours; \$4,800	120 hours; \$9,600	\$4,800

¹ “Burden” is the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. See 5 CFR 1320 for additional information on the definition of information collection burden.

² Commission staff estimates that the industry’s skill set and cost (for wages and benefits) for FERC-574 are approximately the same as the Commission’s average cost. The FERC 2019 average salary plus benefits for one FERC full-time equivalent (FTE) is \$167,091/year (or \$80.00/hour).

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Secretary.
