

JUSTIFICATION FOR NON-SUBSTANTIVE CHANGE

Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

OMB Control Number 2130-0593

Justification:

FRA is making a non-material/non-substantive change to an IC associated with the Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

The name and title for the Information Collection (IC), which was originally submitted with the name “Railroad Crossing and Trespassing Public Service Announcement (PSA) Survey” is being changed to “FRA’s Trespass Prevention Social Media Pilot Campaign Survey”. No other elements of the survey, the questions, burden hours, form number, etc. are being changed.
