## U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

### PRIVACY THRESHOLD ANALYSIS (PTA)

Mortgagee's Application for Insurance Benefits (Multifamily Mortgage)

OMB Control Number 2502-0419

## Office of Housing

May 30, 2019

#### PRIVACY THRESHOLD ANALYSIS (PTA)

The PTA is a compliance form developed by the Privacy Branch to identify the use of Personally Identifiable Information (PII) across the Department. The PTA is the first step in the PII verification process, which focuses on these areas of inquiry:

- Purpose for the information,
- Type of information,
- Sensitivity of the information,
- Use of the information,
- And the risk to the information.

Please use the attached form to determine whether a Privacy and Civil Liberties Impact Assessment (PCLIA) is required under the E-Government Act of 2002 or a System of Record Notice (SORN) is required under the Privacy Act of 1974, as amended.

Please complete this form and send it to your program Privacy Liaison Officer (PLO). If you have no program Privacy Liaison Officer, please send the PTA to the HUD Privacy Branch:

John Bravacos, Senior Agency Official for Privacy Privacy Branch U.S. Department of Housing and Urban Development

privacy@hud.gov

Upon receipt from your program PLO, the HUD Privacy Branch will review this form. If a PCLIA or SORN is required, the HUD Privacy Branch will send you a copy of the PCLIA and SORN templates to complete and return.

#### **SPECIFIC PTA QUESTIONS**

W1				
1. Reason for submitting the PTA: Choose a	an item.			
A lender with an insured multifamily mortgage Department. When and if the mortgage goes in insurance benefits with the Department. A requ of an application for insurance benefits, via the	to default, the lender may elect to file a claim for irement of the claims process is the submission			
The form is posted on <u>www.hud.gov</u> in electron mortgagee.	nic format and can be downloaded easily by the			
The lender is responsible for the MIP's up to the date the application is received by the Department (Commissioner). Delinquent premiums prior to the Commissioner's receipt date can be deducted from insurance benefits payable to the lender.				
This is a renewal PTA.				
2. Does this system employ the following	☐ Social Media			
technologies?  If you are using these technologies and want	Web portal <sup>1</sup> (e.g., SharePoint)			
coverage under the respective PIA for that technology, please stop here and contact the HUD	Contact Lists			
Privacy Branch for further guidance.	Public website (e.g. A website operated by HUD, contractor, or other organization on behalf of the HUD			
	None of these			
3. From whom does the Project or	This program collects no personally identifiable information <sup>2</sup>			
Program collect, maintain, use, or	Members of the public			
disseminate information?	HUD employees/contractors (list programs):			
Please check all that apply.	Contractors working on behalf of HUD			
	Employees of other federal agencies			

Informational and collaboration-based portals in operation at HUD and its programs that collect, use, maintain, and share limited personally identifiable information (PII) about individuals who are "members" of the portal or "potential members" who seek to gain access to the portal.

<sup>&</sup>lt;sup>2</sup> HUD defines personal information as "Personally Identifiable Information" or PII, which is any information that permits the identity of an individual to be directly or indirectly inferred, including any information that is linked or linkable to that individual, regardless of whether the individual is a U.S. citizen, lawful permanent resident, visitor to the U.S., or employee or contractor to the Department. "Sensitive PII" is PII, which if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual. For the purposes of this PTA, SPII and PII are treated the same.

	Other (e.g. business entity)	. 1

Not applicable.		
4(a) Does the project, program, or system retrieve information from the system about a U.S. Citizen or lawfully admitted permanent resident aliens by a personal identifier?	<ul><li>No. Please continue to next question.</li><li>☐ Yes. If yes, please list all personal identifiers used:</li></ul>	
4(b) Does the project, program, or system have an existing System of Records Notice (SORN) that has already been published in the Federal Register that covers the information collected?	No. Please continue to next question.  Yes. If yes, provide the system name and number, and the Federal Register citation(s) for the most recent complete notice and any subsequent notices reflecting amendment to the system	
4(c)Has the project, program, or system undergone any significant changes since the SORN?	<ul><li>No. Please continue to next question.</li><li>☐ Yes. If yes, please describe.</li></ul>	
4(d) Does the project, program, or system use Social Security Numbers (SSN)?	<ul><li>☑ No.</li><li>☐ Yes.</li></ul>	
4(e) If yes, please provide the specific legal authority and purpose for the collection of SSNs:	Not applicable.	
4(f) If yes, please describe the uses of the SSNs within the project, program, or system:	Not applicable.	
4(g) If this project, program, or system is an information technology/system, does it relate solely to infrastructure?  or example, is the system a Local Area Network (AN) or Wide Area Network (WAN)?	<ul><li>☑ No. Please continue to next question.</li><li>☐ Yes. If a log kept of communication traffic, please answer this question.</li></ul>	

Payload data: The actual data to be transmitted, often called the payload of the message (metaphorically borrowing a term from the space industry!) Most messages contain some data of one form or another, but some actually contain none: they are used only for control and communication purposes. For example, these may be used to set up or terminate a logical connection before data is sent.

Header: Information that is placed before the actual data. The header normally contains a small number of bytes of control information, which is used to communicate important facts about the data that the message contains and how it is to be interpreted and used. It serves as the communication and control link between protocol elements on different
