Disaster Recovery Grant Reporting System Training for NSP Users

Release 7.3

Session Rules

- Ask lots of questions
- Set all cell phones to silent or vibrate.
- Raise your hand if you are having computer problems or fall behind. We are here to help!

Training Objectives

- Train NSP grantees on how to use the DRGR system for NSP reporting.
- Walk through DRGR screens with grantees so they can better understand the basic steps.
- Help prevent common problems with the DRGR system.
- Show grantees how to tell their story to HUD.

This is not an NSP policy training. When it comes to discussions of policy, we'll lean on the experience of the HUD staff in the room.

Training Schedule

- DAY 1
 - Overview of the System
 - Detailed Review of DRGR modules (Action Plans & QPR) and processes
- DAY 2
 - Review of Day 1 Material
 - Detailed Review of DRGR modules (Admin, Drawdown, Reports) and processes
 - How to tell your NSP story in DRGR
 - Common Issues/Troubleshooting

NSP & DRGR

- Disaster Recovery Grant Reporting – DRGR – system was developed specifically for disaster recovery grantees.
- NSP is NOT a disaster recovery program, but it was critical for HUD to act quickly.
- DRGR is relatively easy to update to adapt to changes in NSP
- DRGR had basic components needed by NSP
- DRGR can customize key components quickly and easily
 - Activity Types (i.e. Adding Land Banking as a new eligible activity for HUD)
 - National objectives (i.e. LH25)
 - Narrative fields
 - Performance Measures for grantees by appropriation

NSP & DRGR: Updates

Updates included in recent Release 7.3

1. Receipts, Revolving Loan Funds, and Program Income Accounts
2. Voucher Improvements
3. Audit Trail, User Account Management, and User Certifications
4. Miscellaneous Grantee Functions

The Basics: DRGR Modules

Admin

Assign and certify users; add and track TA and Monitoring Events

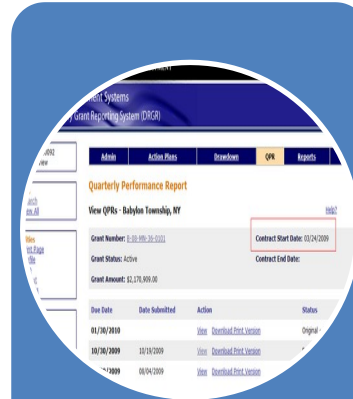

Action Plans

Identify activities to be funded by organization, activity type, and project.

Drawdowns

Obligate funds for draws; create, approve, edit vouchers; receipt program income

QPRs

Summarize drawdowns, expenditures, obligations, and achievements for the quarter

Reports

Look at financial, reporting, and user account information in an easy-to-read and exportable format

Telling Your Story

- DRGR is THE place to tell your story to:
 - Your CPD Representative
 - HUD Headquarters
 - Your Citizens
 - The wider public
 - Organizations and the media who request information on the program's progress

Adding an Action Plan: 'Overall Narrative' data

- Narrative information at the grant level directly corresponds to the NSP Substantial Amendment
- Example of NSP1 sections:
 - Area of Greatest Need
 - Distribution and Use of Funds
 - Definitions and Descriptions
 - Low Income Targeting
 - Acquisition and Relocation
 - Public Comment
- Not all sections were established when NSP1 DRGR Action Plans were originally submitted, grantee must enter the information now.

Adding an AP: Grant Budget

- Enter Estimated PI/RLF Funds to establish the Total Budget.
- May be updated periodically as grantee re-estimates the program income to be received.
- This is the only time the user will enter Program Income separate from Program Funds in a budget.

Project #	Project Title
NSP1- Admin	Administration
01-B.../Rehab...	Acquisition/Rehab.../State...

Since Project and Activity Budgets must now include PI, the Estimated PI/RLF at the grant level must have enough \$ to accommodate these increased amounts

Adding 'Projects'

- DRGR is a two-tier hierarchy system
 - Projects
 - Activities
- To enter data:
 - Enter Projects first
 - Enter Activities second since they must be assigned to projects.
 - For example:
 - Project 1
 - Activity 1.A
 - Activity 1.B
 - Project 2
 - Activity 2.A

Adding 'Projects'

- PROJECTS should be NSP eligible uses:
 - Financing Mechanisms (Eligible Use A)
 - Acquisition / Rehabilitation (Eligible Use B)
 - Land Bank (Eligible Use C)
 - Demolition (Eligible Use D)
 - Redevelopment (Eligible Use E)
 - Administration

Adding Projects: Examples

Financing Mechanisms (Eligible Use A)

Activity 1.A

Activity 1.B

...

Acquisition / Rehabilitation (Eligible Use B)

Activity 2.A

Activity 2.B

...

Administration

Activity 3.A

Adding Projects: Revolving Loan Funds

Adding Activities: Overview

- Activities should be broken out, at a minimum, by:
 - responsible organization
 - activity type
 - national objective and
 - multifamily building complex(if applicable) .
- Must use correct National Objective
 - Low/Mod/Middle Income Housing (DRGR=LMMI)
 - Low Income Housing 25% Set-aside (DRGR=LH25)
 - Admin (DRGR=NA)
- All funds are drawn and all performance measures captured at the activity level.

Adding 'Activities': Responsible Organizations

- Required at Activity Level
- Defined as an organization with responsibility for completing the activity and meeting applicable federal requirements
 - Subrecipients are always responsible organizations
 - Developers in NSP are usually responsible organizations
 - Contractors are not responsible organizations
- Double-check all required data is provided
- Optional:
 - Responsible Org at Project Level
 - Subordinate Organizations

Adding 'Activities': Responsible Organizations

Only add a Responsible Organization once in DRGR.

Adding Activities: Selecting an NSP Activity Type

- Consolidate multiple “phases” of program into its end use
- Common NSP Activity Types:
 - Rehabilitation/reconstruction of residential structures
 - Administration
 - Construction of new housing
 - Clearance and Demolition
 - Land banking - Acquisition
- After a grantee selects an Activity Type, DRGR will auto-populate the associated performance measures and metrics on Page 2 of the Action Plan-Edit Activity screen.

Determining Activities: City of Zorro Example

Program Description:

1. Financing Mechanisms: Subrecipient will serve only HH at or below 50% AMI.
2. Financing Mechanisms: City expects to serve all LMM income levels
3. Acquisition/Rehab: Subrecipient proposes to buy, rehab, and sell to 4 foreclosed single-family properties to serve HH below 50% AMI
4. Acquisition/Rehab: City proposes to buy, rehab, and rent/sell 12 foreclosed properties. 10 will be single-family to serve all LMM income levels. 2 will be multifamily rental properties for HH at or below 50% AMI

Determining Activities:

City of Zorro Example - Activity Structure

- Financing Mechanisms (Eligible Use A)
 - City LLR LH25
 - City LLR LMMI
 - Sub recipient LLR LH25
- Acquisition/Rehab (Eligible Use B)
 - Sub recipient Acquisition/Rehab LH25
 - City Single Family Acquisition/Rehab LMMI
 - City Multi-Family Oak Street Property LH25
 - City Multi-Family Elm Street Property LH25

Example: Zorro Budget

- Total Budget for Acq/Rehab Sub recipient
Acquisition/Rehab LH25 = \$1MM
- Activity Type = Rehabilitation/Reconstruction of residential structures
- All proposed costs associated with that activity are included in that Activity's budget. A grantee does not need to breakout in DRGR hard costs from activity delivery costs, for example.

Acquisitions		Rehab Costs		Disposition Costs (i.e. Closing Costs)		Activity Delivery Costs		Failed Acquisitions		Estimated PI		Total
\$ 360,000	+	\$ 596,000	+	\$ 20,000	+	\$ 14,000	+	\$ 10,000	+	\$ 500,000	=	\$ 1,500,000

- Eligible households may be
 - low income ($\leq 50\%$ of the area median income)
 - moderate income (51%-80% of the area median income)
 - middle income (81%-120% of the area median income).
- In DRGR, there is NO data field in which to enter middle income data; instead, it must be incorporated into the Proposed Total.

Adding Proposed Accomplishments

- Activity Types determine proposed accomplishments. Administration activity does not have accomplishment fields.
- All grantees are encouraged to enter data in the fields as applicable.
- NSP2 & NSP3 grantees are required to identify and report on certain green features. HUD is requiring all 'gut rehab' and new construction must be designed to meet the standard for Energy Star Qualified New Homes.

QPR Overview

- Purpose
 - Report progress for quarter and cumulative basis by:
 - Identifying accomplishments once a national objective has been met
 - Pulling financial data as entered in the Drawdown Module
 - Detail, in narrative format, progress of the grant as a whole and per activity
- HUD FO role
 - Approval or rejection of the QPR in a timely manner
 - Provide and share comments with grantees (if desired)

QPR-Action Plan Relationship

- QPRs cannot be submitted if changes have been made to the Action Plan such as
 - Projects added
 - Activities added
 - Budgets changed
- Submit changes to Action Plan in advance of QPR due dates to allow time for review
- Performance goals changed Action Plan locked when QPRs is submitted

Activity Description:

CPLC will acquire and rehab 92 units for households who incomes are 50% below AMI. 35 of the 92 unit will be rentals. 47 out of the 92 units acquired will be receive soft second financing within this activity. CPLC will inspect each unit and ascertain the need of rehabilitation work or if demolition is required. Although rehabilitation budgets will vary widely, this proposal assumes an average \$40,000 rehabilitation budget for Maricopa and \$30,000 for Santa Cruz. CPLC's construction manager for the area will oversee the rehabilitation process. CPLC requires each consortium member to enter property address in an electronic database to collect, manage and monitor all rehabilitation and redevelopment activities for each property acquired under NSP2.

Location Description:

Maricopa and Santa Cruz Counties Arizona

Activity Progress Narrative:

Under NSP II Single-family Acquisition and Rehabilitation Strategy for Arizona, due diligence was performed on 200 single-family residential properties and 4 Multi-family properties year-to-date. Between both counties, CPLC currently has acquired 123 Single Family homes; 1 Duplex and 1 (400 unit) complex; including 1 property donated by Chase Bank. Currently the NSP II team has completed the Sale of 25 Homes and has converted the 3 homes on short term Lease/Purchase to completed sales; we have offers on over 20 homes for re-sale:

There are many homes currently undergoing various stages of rehab, in addition to more homes awaiting scopes of work and bidding for rehab.

The Section 3 Program has been implemented with the engagement of three (4) workers under contract to perform cleaning duties on homes in Maricopa County that are available for sale following completion of rehab and one (1) in Santa Cruz County who carries out basic weed control in addition to cleaning the homes that are available for sale .and one (1) new section 3 hire

Prior Period Adjustments (Direct Benefit Activity)

- DRGR will check the cumulative totals for total households from the race/ethnicity data and compare it to the cumulative totals by income level. Additionally, it checks cumulative totals by tenure and by housing unit.
- **If there is an inconsistency, DRGR will display an error message and a user must make prior-period corrections.**
- Error message example:

Cumulative sum of income levels for 'Households - Total' must be equal to cumulative sum of 'Owner - Total' <Number>

Prior Period Adjustments (Direct Benefit Activity)

Common reasons for a grantee needing to make prior period adjustments:

- In the Action Plan during the quarter, a new benefit type was selected. However, in prior QPRs, the grantee has already reported accomplishment data.
- In the Action Plan during the quarter, benefit measures (i.e. owner/renter, single-family/multi-family) are added or modified. However, in prior QPRs, the grantee has already reported accomplishment data.
- Backing out incorrect data

Prior Period Adjustments

Purpose:

Bring key categories and subcategories into balance depending on what has already been entered.

How to:

- Step A: Determine the correct ACTUAL cumulative data for that Activity (regardless of what DRGR shows).
- Step B: Determine the cumulative data showing in the DRGR (based on information from the immediately prior QPR).
- Step C: Adding Step A and Step B together, calculate the IN QUARTER data to be entered in the QPR.

Prior Period Adjustments

Two methods to review and analyze data:

- Pull DRGR PerfReport 1 and PerfReport 6
- 'View Cumulative Totals' Link

Beneficiaries Performance Measures

	This Report Period			Cumulative Actual Total / Expected		
	Low	Mod	Total	Low	Mod	Total Low/Mod%
# of Households	0	0	0	19,0	106,100	125,100 100
# Owner Households	0	0	0	19,0	106,100	125,100 100

Prior Period Adjustments

Step C. Automatically sums totals for grantee to enter into current APR
(combines in-quarter data and prior period corrections)

Rent	Own	Total		HOUSING UNITS	
0	0	0		SF	146
0	11	11		MF	0
0	11	11		TOTAL	11

Prior Period Adjustments

Issue	Guidance
New benefit measure selected with existing data in old QPRs	<p>The “HOUSING UNIT” data in yellow demonstrates an example where 135 housing units were entered through the prior QPR, but the grantee had not entered any data in “SF” (i.e., single-family). If the grantee selected SINGLE FAMILY in the Action Plan during the last quarter and another 14 units were completed, they would enter 11 in HOUSING UNITS and 146 in SF HOUSING UNITS.</p>
Backing out old data	<p>Grantees can enter negative numbers in QPRs in different beneficiary data fields as long as cumulative totals equal.</p>
Regular data entry (categories and subcategories already selected in prior QPRs)	<p>If there is only one subcategory and it was selected before the last QPR, then there is a low likelihood for prior period corrections needed. In this case, there are 11 new households showing and 11 new owner households.</p>

Prior Period Adjustments: Example

- For Activity: NSP1-B A/R SF HP LH25 
- This quarter end-use met
 - 1 low-income household, White/Hispanic, female head of household, Single Family unit

Submission

Prior to submitting the QPR, review the following:

- Make sure Action Plan is not under review
- Are you in compliance of funding restrictions?
- Is Overall Progress Narrative sufficient to explain the progress or lack of progress?
- When reviewed as a whole, does QPR provide HUD enough information to show sufficient progress?
- Are all the performance metrics entered in compliance? Have they met an end-use?

Deadlines

First QPR is due: 30 days after the first full quarter after the grant agreement is executed. Then,

- For NSP1 and NSP3, remaining QPRs are due within 30 days of the end of the calendar quarter.
- For NSP2, remaining QPRs are due within 10 days of the end of the calendar quarter.
- If a QPR has been rejected, a grantee has 10 days to remedy the issue and resubmit. Second consecutive late QPR = finding

HUD's Action:

- QPR action is due within 30 days of QPR submission.

Add/Edit/Save a QPR

QPR Review

- QPRs are crucial for showing progress – both financial and performance!
- Performance Measure data is directly tied to the Activity Type entered in the Action Plan.
- Timing
 - NSP1 & 3: due within 30 days
 - NSP2: due within 10 days
 - Do not be late in submission!
 - Plan out timing for changes to Action Plan

Welcome to the
Disaster Recovery Grant Reporting System

DRGR News:

March 29, 2011: Known Issues with Area Benefit Data Duplication: Release 7.0 from Sept 2010 was supposed to make the number of CUMULATIVE ACTUAL PERSONS = PROJECTED PERSONS for the area benefit activities regardless of whether data is entered using the CENSUS or SURVEY methods in the DRGR Action Plan. We recently noticed it has been built where IN QUARTER = PROJECTED for each QPR that a grantee has edited the area benefit activity. This has resulted in doubling and tripling of some beneficiary numbers. Our contractors are working towards a data correction to clear out extra data and determine what code changes that will be needed for a permanent fix. - - - - -
