

Federal Communications Commission

Explanation of Non-Substantive Changes to OMB Control Number: 3060-1228

- Fiber/Microwave Network Middle-Mile Maps for Alaska Plan Carriers
-

Purpose of this Submission: This submission is being made for non-substantive changes to an existing information collection pursuant to 44 U.S.C. § 3507. This submission seeks approval for the option to change the submission portal for Fiber/Microwave Network Middle-Mile Maps for Alaska Plan Carriers required pursuant to 47 CFR § 54.316(a)(6).

Summary of Changes to Portal for Alaska Middle Mile Data

- **Changes:** Submission portal would change for one filing only from USAC's High-Cost Universal Broadband (HUBB) portal to a USAC Box portal. This one-time change allows filers to submit data on time while HUBB is receiving changes that may not be fixed in time for the March 1, 2020 deadline. Since the USAC portal cannot be set up yet, screenshots using the FCC's Box account are attached as an example to reflect the process.

These changes will not impact the burden hours or cost for this information collection.
