GENERAL INFORMATION

Background.--This proceeding was instituted in response to petitions filed on September 21, 2018, by Encore Wire Corporation, McKinney, Texas, and Southwire Company, LLC, Carrollton, Georgia. Countervailing and antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2018/aluminum_wire_and_cable_china/preliminary.htm.

Aluminum wire and cable (AWC) covered by these investigations is an assembly of one or more electrical conductors made from 8000 Series Aluminum Alloys,¹ Aluminum Alloy 1350,² and/or Aluminum Alloy 6201,³ provided that: (1) at least one of the electrical conductors is insulated; (2) each insulated electrical conductor has a voltage rating greater than 80 volts and not exceeding 1000 volts; and (3) at least one electrical conductor is stranded and has a size not less than 16.5 kcmil and not greater than 1000 kcmil. The assembly may or may not: (1) include a grounding or neutral conductor; (2) be clad with aluminum, steel, or other base metal; or (3) include a steel support center wire, one or more connectors, a tape shield, a jacket or other covering, and/or filler materials. Most AWC products conform to National Electrical Code ("NEC") types THHN, THWN, THWN-2, XHHW-2, USE, USE-2, RHH, RHW, or RHW-2, and also conform to Underwriters Laboratories ("UL") standards UL-44, UL-83, UL-758, UL-854, UL-1063, UL-1277, UL-1569, UL-1581, or UL-4703, but such conformity is not required for the merchandise to be included within the scope.

The scope specifically excludes conductors that are included in equipment already assembled at the time of importation. Also excluded are aluminum wire and cable products in lengths less than six feet.

AWC is currently imported under statistical reporting number 8544.49.9000 of the Harmonized Tariff Schedule of the United States (HTSUS). It may also be imported under HTSUS statistical reporting number 8544.42.9090. The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

Reporting of information.-- If information is not readily available from your records, provide carefully prepared estimates.

Confidentiality.--The data furnished in response to this survey that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (*see* 19 U.S.C. 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

¹ 8000 Series Aluminum Alloys is defined in accordance with American Society for Testing and Materials ("ASTM") B800.

² Aluminum Alloy 1350 is defined in accordance with ASTM B230/B230M or B609/B609M

³ Aluminum Alloy 6201 is defined in accordance with ASTM B398/B398M

Release of information.--The information provided by your firm in response to this survey, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. Please also retain a copy of the final document that you submit.

Contact information.--Please identify the responsible individual and the manner by which Commission staff may contact that individual regarding the confidential information submitted in this survey. This may or may not be the person whose signature is at the bottom of page 1.
