PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on May 22, 2018, by Worthington Industries, (Columbus, Ohio) and Manchester Tank & Equipment Company, (Franklin, Tennessee). Antidumping and countervailing duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce (“Commerce”) makes an affirmative determinations of dumping and/or subsidization. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2018/steel_propane_cylinders_china_and_thailand/final.htm.

Steel propane cylinders for purposes of these investigations are steel cylinders for compressed or liquefied propane gas meeting the requirements of, or produced to meet the requirements of, U.S. Department of Transportation (“USDOT”) Specifications 4B, 4BA, or 4BW, or Transport Canada Specification 4BM, 4BAM, or 4BWM, or a UN pressure receptacle meeting standard ISO 4706, and range from 2.5 pound nominal gas capacity (approximate 4-6 pound tare weight) to 42 pound nominal gas capacity (approximate 28-32 pound tare weight), with up to 100 pound water capacity (“Steel Propane Cylinders”). Steel Propane Cylinders may be certified to USDOT Specification 4B, 4BA, or 4BW either before or after importation. Steel Propane Cylinders have two or fewer ports and may be imported assembled or unassembled (*i.e.*, welded or brazed before or after importation), with or without out all components (including collars, valves, gauges, tanks, foot rings, and overfill prevention devices), and coated or uncoated. Also included within the scope are parts of steel propane cylinders, unfinished propane cylinders, collars, and foot rings for steel propane cylinders.

These petitions also cover steel propane cylinders that meet, are produced to meet, or are certified as meeting, other U.S. or Canadian government, international, or industry standards (including, for example, American Society of Mechanical Engineers (“ASME”), or American National Standard Institute (“ANSI”)), if they also meet, are produced to meet, or are certified as meeting USDOT Specification 4B, 4BA, or 4BW, or Transport Canada Specification 4BM, 4BAM, or 4BWM, or a UN pressure receptacle meeting standard ISO 4706.

Subject merchandise also includes steel propane cylinders that have been further processed in a third country, including but not limited to attachment of collars, foot rings, or handles by welding or brazing, heat treatment, painting, testing, certification, or any other processing that would not otherwise remove the merchandise from the scope of the petitions if performed in the country of manufacture of the in-scope Steel Propane Cylinders.

Specifically excluded are seamless steel propane cylinders and propane cylinders made from stainless steel (*i.e.*, steel containing at least 10.5 percent chromium by weight and less than 1.2 percent carbon by weight), aluminum, or composite fiber material.

The merchandise subject to these investigations is properly classified under statistical reporting numbers 7311.00.0060 and 7311.00.0090 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS statistical reporting numbers are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing steel propane cylinders (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.--If information is not readily available from your records, provide carefully--prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.-- The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Abu Kanu (202-205-2597, abu.kanu@usitc.gov).

D-GRIDS tool.--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macro-enabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from

the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

- I-1. **OMB statistics**.--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 40 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

- I-2. **Establishments covered**.--Provide the name and address of establishment(s) covered by this questionnaire. If your firm is publicly traded, please specify the stock exchange and trading symbol.

“Establishment”--Each facility of a firm involved in the importation of steel propane cylinders, including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

--

I-3. **Ownership.**--Is your firm owned, in whole or in part, by any other firm?

No Yes--List the following information

Firm name	Address	Extent of ownership (percent)

I-4. **Related importers/exporters.**--Does your firm have any related firms, either domestic or foreign, that are engaged in importing steel propane cylinders from China and/or Thailand into the United States or that are engaged in exporting steel propane cylinders from China and/or Thailand to the United States?

No Yes--List the following information.

Firm name	Country	Affiliation

I-5. **Related producers.**--Does your firm have any related firms, either domestic or foreign, that are engaged in the production of steel propane cylinders?

No Yes--List the following information.

Firm name	Country	Affiliation

I-6. **Importing operations.**--Please indicate the nature of your firm's importing operations on steel propane cylinders. More than one answer may be applicable.

Importer of record	Takes title to the imported product(s)	Consignee of the imported products(s)	Customs broker or freight forwarder
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

I-7. **Consignee.**--If your firm is an importer of record of steel propane cylinders but is not the consignee, please list the consignees below (firm name, address, telephone number, and individual to contact).

Firm name	Address	Contact person and phone number

I-8. **FTZ, TIB, or bonded warehouses.**--Please indicate whether your firm enters steel propane cylinders into, or withdraws such merchandise from, foreign trade zones or bonded warehouses. Also indicate whether your firm imports steel propane cylinders under the TIB (temporary importation under bond) program.

“Foreign trade zone” is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise, as well as other savings. A foreign trade zone must be designed as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

“Bonded warehouse” is a secured facility supervised by U.S. customs, where dutiable landed imports are stored pending their re-export, or release after payment of import duties, taxes, and other charges. A bonded warehouse must be designed as such pursuant to the rules and procedures set forth in 19 U.S.C. § 1555.

“Temporary Importation under Bond (“TIB”) program” is a procedure whereby imported merchandise may be entered under certain conditions for a limited time into the United States free of duty. Under the program, an importer posts a bond for twice the amount of duty, taxes, etc. that would otherwise be owed on the importation and agrees to export or destroy the merchandise within a specified time or pay liquidated damages. This program is restricted to certain categories of merchandise listed in subheadings 9813.00.05 through 9813.00.75 of the Harmonized Tariff Schedule of the United States (HTS).

II-4. **Reasons for importing if producer.**--If your firm also produces steel propane cylinders in the United States, please indicate the reasons for importing this product. If your firm’s reasons differ by source, please elaborate.

“Imports”--Those products identified for Customs purposes as imports for consumption and/or which were admitted into a foreign trade zone (FTZ) in the United States for which your firm was the importer of record (i.e., was responsible for paying any import duty or clearing the goods through customs or re-exporting if an FTZ operator). Imports / admissions can include complete steel propane cylinders as well as partially completed steel propane cylinders and parts for such products. See definition page 2.

“Import quantities”--Quantities reported should be net of returns.

“Import values”--Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

“Shipments”--Shipments can include complete steel propane cylinders as well as partially completed steel propane cylinders and parts for such products. See definition on page 2.

“Non-retail commercial U.S. shipments” -- Shipments made within the United States, to be limited to sales of unfilled steel propane cylinders, as a result of an arm's length commercial transaction in the ordinary course of business other than through own or related firm's retail establishments. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment. While non-retail commercial U.S. shipments properly excludes retail-level sales made by your firm or a related firms, non-retail commercial U.S. shipments should include commercial U.S. shipments made to customers that are retailers.

“Internal consumption / including for own firm's retail sales” --Product consumed internally by your firm. Such transactions should be valued at fair market value of the steel propane cylinders that were consumed/used (i.e., not the retail price, not the total value of the downstream products). Internal consumption should include (1) any steel propane cylinders your firm filled for use within a gas exchange business model, (2) any steel propane cylinders your firm physically installed within a larger set of machinery such as a recreation vehicle, and (3) any steel propane cylinders your firm stocked for online or bricks and mortar retail sales. Once one of those three usage events occur, you should report the disposition of your imported steel propane cylinders as internal consumption and no longer report those data in inventory. For example, if a gas exchanger imports 80 units in 2016, and fills those steel propane cylinders with propane and stocks them in their gas exchange facility in that same year, that firm should report all 80 units under “internal consumption” in 2016 valued at fair market value in unfilled form and zero (0) units in ending inventory in 2016. Likewise, if an importer/retailer imports 80 units in 2016, and stocks those units on their shelves at a bricks and mortar retail store location that same year, that firm should report all 80 units under “internal consumption” in 2016 valued at fair market value (which is understood to be the wholesale purchase cost value, not the eventual retail sales value) and zero (0) units in ending period inventory in 2016. Finally, if an RV manufacturer imports 80 units in 2016, and welds those units into a partially assembled RV that same year, that firm should report all 80 units under “internal consumption” in 2016 valued at fair market value of the unwelded/unprocessed steel propane cylinder input into their production process and zero (0) units in ending period inventory in 2016 (even though the company has WIP inventories for their RVs those no longer represent inventories steel propane cylinders available for sale or usage for this proceeding, they are already used).

“Transfers to related firms” --Shipments made to related domestic firms. Such transactions are valued at fair market value.

“Export shipments”--Shipments to destinations outside the United States, including shipments to related firms.

“Inventories”--Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

If your firm uses a different basis for valuing these transactions in your records, please specify that basis (e.g., cost, cost plus, etc.): _____. However, the data provided above in this table should be based on fair market value. ³ Identify your firm's principal export markets: _____.			

RECONCILIATION OF SHIPMENTS, IMPORTS, AND INVENTORIES.—Generally, the data reported for the end-of-period inventories (i.e., line L) should be equal to the beginning-of-period inventories (i.e., line A), plus imports (i.e., line B), less total shipments (i.e., lines D, F, H, and J). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

PRICE DATA

III-2. This question requests quarterly quantity and value data for your firm’s commercial shipments to **unrelated U.S. customers** since January 1, 2016 of the following products your firm imported from China and Thailand. (Values reported should exclude the value of any accessories sold with the steel propane cylinders).

Product 1.--20-pound capacity steel cylinder for compressed or liquefied propane gas, without gauge, meeting the requirements of U.S. Department of Transportation specification 4BA.--**Sold to RV manufacturers.**

Product 2.--20-pound capacity steel cylinder for compressed or liquefied propane gas, without gauge, meeting the requirements of U.S. Department of Transportation specification 4BA.--**Sold to gas exchangers.**

Product 3.--20-pound capacity steel cylinder for compressed or liquefied propane gas, without gauge, meeting the requirements of U.S. Department of Transportation specification 4BA.--**Sold to distributors.**

Product 4.--20-pound capacity steel cylinder for compressed or liquefied propane gas, without gauge, meeting the requirements of U.S. Department of Transportation specification 4BA.--**Sold to retailers.**

Product 5.--30-pound capacity steel cylinder for compressed or liquefied propane gas, without gauge, meeting the requirements of U.S. Department of Transportation specification 4BA.--**Sold to distributors.**

Product 6.--30-pound capacity steel cylinder for compressed or liquefied propane gas, without gauge, meeting the requirements of U.S. Department of Transportation specification 4BA.--**Sold to RV manufacturers.**

Product 7.--30-pound capacity steel cylinder for compressed or liquefied propane gas, without gauge, meeting the requirements of U.S. Department of Transportation specification 4BA.--**Sold to retailers.**

Please note that values should be f.o.b., U.S. point of shipment and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

During January 2016-December 2018, did your firm import from China and Thailand and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

III-3d. **Inland transportation costs for your firm's direct imports of steel propane cylinders for internal use or retail sale.**--What is the approximate percentage of the total cost of the steel propane cylinders that you directly imported from China or Thailand that is accounted for by U.S. inland transportation costs from the port of importation to your distribution network or retail stores?

Country	Percent
China	%
Thailand	%

III-3e. **Additional costs for your firm's direct imports of steel propane cylinders for your firm's internal use or retail sale.**

(i) If your firm reported direct import purchase costs above (question III-3a-d), please identify the factors (**other than U.S. inland transportation costs** or costs already included in landed duty-paid values) that add to your cost of importing directly since January 1, 2015. Estimate the share of the cost of the landed duty-paid value, and explain the specific costs associated with each category.

Factors	Estimated share of landed duty-paid value (percent)	Explanation

III-24. **Other explanations.**--If your firm would like to further explain a response to a question in Part III for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

Correcting Valid number error messages. --If you are completing a Commission questionnaire in a country that uses periods (“.”) to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission’s questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system’s number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer’s number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. “Italian (Italy)”) to “English (United States)” (see screen shots below)

When you do this the number “twelve million dollars and thirty five cents” would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the questionnaire. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a “fillable” form in MS Word format on the Commission’s website at:

https://www.usitc.gov/investigations/701731/2018/steel_propane_cylinders_china_and_thailand/final.htm.

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

- **Upload via Secure Drop Box.**—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission’s secure upload facility:

Web address: <https://dropbox.usitc.gov/oinv/> **Pin:** **PROP**

- **E-mail.**—E-mail the MS Word questionnaire to Lawrence.jones@usitc.gov; include a scanned copy of the signed certification page (page 1). *Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm’s nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.*

If your firm did not import this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

Parties to this proceeding.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission’s Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
