PART I.—GENERAL INFORMATION

Background.--On January 23, 2018, the President, pursuant to section 203 of the Trade Act of 1974, issued Proclamation 9694, imposing a safeguard measure on imports of certain residential washers and parts thereof in the form of a tariff-rate quota, effective February 7, 2018. Section 204 (a) of the Act requires the Commission to submit a report to the President and Congress on its monitoring of industry developments at the midpoint of an initial period of relief exceeding three years, including the progress and specific efforts made by workers and firms in the domestic industry to make a positive adjustment to import competition. Questionnaires and other information pertinent to this proceeding are available at

https://www.usitc.gov/investigations/title_7/2019/large_residential_washers_monitoring_developments/safeguard.htm

Products covered by this investigation

Large residential washers.—The products covered by the investigation are all large residential washers and certain parts thereof.

The term “large residential washers” denotes all automatic clothes washing machines, regardless of the orientation of the rotational axis, with a cabinet width (measured from its widest point) of at least 24.5 inches (62.23 cm) and no more than 32.0 inches (81.28 cm), except as noted below.

Covered parts.-- Also covered are certain parts used in large residential washers, namely: (1) all cabinets, or portions thereof, designed for use in large residential washers; (2) all assembled tubs¹ designed for use in large residential washers which incorporate, at a minimum: (a) a tub; and (b) a seal; (3) all assembled baskets² designed for use in large residential washers which incorporate, at a minimum: (a) a side wrapper;³ (b) a base; and (c) a drive hub;⁴ and (4) any combination of the foregoing parts or subassemblies.

Products excluded from this investigation

(1) Stacked washers-dryers & commercial washers

Excluded are stacked washer-dryers and commercial washers. The term “stacked washer-dryers” denotes distinct washing and drying machines that are built on a unitary frame and share a common console that controls both the washer and the dryer. The term “commercial washer” denotes an automatic clothes washing machine designed for the “pay per use” segment meeting either of the following two definitions:

¹ A “tub” is the part of the washer designed to hold water.

² A “basket” (sometimes referred to as a “drum”) is the part of the washer designed to hold clothing or other fabrics.

³ A “side wrapper” is the cylindrical part of the basket that actually holds the clothing or other fabrics.

⁴ A “drive hub” is the hub at the center of the base that bears the load from the motor.

(1) (a) it contains payment system electronics;⁵ (b) it is configured with an externally mounted steel frame at least six inches high that is designed to house a coin/token operated payment system (whether or not the actual coin/token operated payment system is installed at the time of importation); (c) it contains a push button user interface with a maximum of six manually selectable wash cycle settings, with no ability of the end user to otherwise modify water temperature, water level, or spin speed for a selected wash cycle setting; and (d) the console containing the user interface is made of steel and is assembled with security fasteners;⁶ or

(2) (a) it contains payment system electronics; (b) the payment system electronics are enabled (whether or not the payment acceptance device has been installed at the time of importation) such that, in normal operation,⁷ the unit cannot begin a wash cycle without first receiving a signal from a bona fide payment acceptance device such as an electronic credit card reader; (c) it contains a push button user interface with a maximum of six manually selectable wash cycle settings, with no ability of the end user to otherwise modify water temperature, water level, or spin speed for a selected wash cycle setting; and (d) the console containing the user interface is made of steel and is assembled with security fasteners.

(2) Top load residential washers with PSC/belt drive/clutch

Also excluded are automatic clothes washing machines that meet all of the following conditions: (1) have a vertical rotational axis; (2) are top loading;⁸ (3) have a drive train consisting, inter alia, of (a) a permanent split capacitor (PSC) motor,⁹ (b) a belt drive,¹⁰ and (c) a flat wrap spring clutch.¹¹

(3) Front load residential washers with CIM/belt drive

Also excluded are automatic clothes washing machines that meet all of the following conditions: (1) have a horizontal rotational axis; (2) are front loading;¹² and (3) have a drive train consisting, inter alia, of (a) a controlled induction motor (CIM),¹³ and (b) a belt drive.

⁵ "Payment system electronics" denotes a circuit board designed to receive signals from a payment acceptance device and to display payment amount, selected settings, and cycle status. Such electronics also capture cycles and payment history and provide for transmission to a reader.

⁶ A "security fastener" is a screw with a non-standard head that requires a non-standard driver. Examples include those with a pin in the center of the head as a "center pin reject" feature to prevent standard Allen wrenches or Torx drivers from working.

⁷ "Normal operation" refers to the operating mode(s) available to end users (*i.e.*, not a mode designed for testing or repair by a technician).

⁸ "Top loading" means that access to the basket is from the top of the washer.

⁹ A "PSC motor" is an asynchronous, alternating current (AC), single phase induction motor that employs split phase capacitor technology.

¹⁰ A "belt drive" refers to a drive system that includes a belt and pulleys.

¹¹ A "flat wrap spring clutch" is a flat metal spring that, when engaged, links abutted cylindrical pieces on the input shaft with the end of the concentric output shaft that connects to the drive hub.

¹² "Front loading" means that access to the basket is from the front of the washer.

¹³ A "controlled induction motor" is an asynchronous, alternating current (AC), polyphase induction motor.

(4) "Extra-wide" residential washers

Also excluded are automatic clothes washing machines that meet all of the following conditions: (1) have a horizontal rotational axis; (2) are front loading; and (3) have cabinet width (measured from its widest point) of more than 28.5 inches (72.39 cm).

Large residential washers are currently classifiable under subheading 8450.20.00 (statistical reporting numbers 8450.20.0040 and 8450.20.0080) of the Harmonized Tariff System of the United States (HTSUS). They may also be imported under HTSUS 8450.11.0040, 8450.11.0080, 8450.90.2000, and 8450.90.6000.¹⁴ The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

Reporting of information.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, purchaser and/or foreign producer questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 CFR §§ 206.17(a)(1) and 206.52(c)). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other confidential business information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Trade Act of 1974 (19 U.S.C. § 2252(i)) and sections 206.17 and 206.52 of the Commission's Rules of Practice and Procedure (19 CFR §§ 206.17(a)(1) and 206.52(c)). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

¹⁴ Large residential washers and parts and certain subassemblies covered by the scope are currently subject to tariff-rate quotas under a safeguard measure imposed effective February 7, 2018, under subheadings 9903.45.01 and 9903.45.02 (large residential washers) and 9903.45.05 and 9903.45.06 (covered parts) and related legal notes.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Nathanael Comly (nathanael.comly@ustic.gov; 202-205-3174).

D-GRIDS tool.--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macro-enabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is optional. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

I-1. **OMB statistics.**--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire.

| Hours | Dollars |
|-------|---------|
| | |

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 40 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

I-2. **Establishments covered.**--Provide the name and address of establishment(s) covered by this questionnaire. If your firm is publicly traded, please specify the stock exchange and trading symbol.

"Establishment"--Each facility of a firm involved in the importation of large residential washers, including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

| |
|--|
| |
|--|

I-3. **Ownership.**--Is your firm owned, in whole or in part, by any other firm?

No Yes--List the following information.

| Firm name | Address | Extent of ownership (percent) |
|------------------|----------------|--|
| | | |
| | | |
| | | |

I-4. **Related importers/exporters.**--Does your firm have any related firms, either domestic or foreign, that are engaged in importing large residential washers into the United States or that are engaged in exporting large residential washers to the United States?

No Yes--List the following information.

| Firm name | Country | Affiliation |
|------------------|----------------|--------------------|
| | | |
| | | |
| | | |

I-5. **Related producers.**--Does your firm have any related firms, either domestic or foreign, that are engaged in the production of large residential washers?

No Yes--List the following information.

| Firm name | Country | Affiliation |
|------------------|----------------|--------------------|
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |

I-6. **Importing operations.**--Please indicate the nature of your firm's importing operations on large residential washers. More than one answer may be applicable.

| Importer of record | Takes title to the imported product(s) | Consignee of the imported products(s) | Customs broker or freight forwarder |
|---------------------------|---|--|--|
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

I-7. **Consignees.**--If your firm is an importer of record of large residential washers but is not the consignee, please list the consignees below (firm name, address, telephone number, and individual to contact).

| Firm name | Address | Contact person and phone number |
|-----------|---------|---------------------------------|
| | | |
| | | |
| | | |

I-8. **FTZ, TIB, or bonded warehouses.**--Please indicate whether your firm enters large residential washers into, or withdraws such merchandise from, foreign trade zones or bonded warehouses. Also indicate whether your firm imports large residential washers under the TIB (temporary importation under bond) program.

“Foreign trade zone” is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise, as well as other savings. A foreign trade zone must be designated as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

“Bonded warehouse” is a secured facility supervised by U.S. customs, where dutiable landed imports are stored pending their re-export, or release after payment of import duties, taxes, and other charges. A bonded warehouse must be designed as such pursuant to the rules and procedures set forth in 19 U.S.C. § 1555.

“Temporary Importation under Bond (“TIB”) program” is a procedure whereby, imported merchandise may be entered under certain conditions for a limited time into the United States free of duty. Under the program, an importer posts a bond for twice the amount of duty, taxes, etc. that would otherwise be owed on the importation and agrees to export or destroy the merchandise within a specified time or pay liquidated damages. This program is restricted to certain categories of merchandise listed in subheadings 9813.00.05 through 9813.00.75 of the Harmonized Tariff Schedule (HTS).

II-4. **Reasons for importing if producer.**--If your firm also produces large residential washers in the United States, please indicate the reasons for importing this product. If your firm's reasons differ by source, please elaborate.

Definitions

"Imports" –Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty) or consignee (i.e., to which the merchandise was first delivered).

"Import quantities" –Quantities reported should be net of returns.

"Import values" –Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

"U.S. commercial shipments" – Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" –Product consumed internally by your firm. Such transactions are valued at fair market value.

"Transfers to related firms" –Shipments made to related domestic firms. Such transactions are valued at fair market value.

"Related firm" –A firm that your firm solely or jointly owns, manages, or otherwise controls.

"Export shipments" – Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" --Finished goods inventory, not raw materials or work in progress.

"Retailers"--Firms that sells large residential washers to the public for use in personal consumption rather than for resale.

"Distributors"--Firms that purchase large residential washers for the purpose of reselling them to other firms.

"Buying Groups"--Firms that negotiate prices on behalf of multiple retailers.

"Homebuilders/contractors"--Firms whose business is in the construction of residential dwellings.

"End users/consumers" –Entities who purchase large residential washers for their own personal consumption.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-5a. **Imports from China.**--Report your firm's imports and your firm's shipments and inventories of large residential washers imported from China during the specified periods.

II-5a. U.S. imports: China--Continued

RECONCILIATION OF SHIPMENTS, IMPORTS, AND INVENTORIES.--Generally, the data reported for the end-of-period inventories (i.e., line N) should be equal to the beginning-of-period inventories (i.e., line A), plus imports (i.e., lines B and D), less total shipments (i.e., lines H, J, and L). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

Report data for all SKUs/model numbers/product codes that fall under each above definition.

If the DOE rated capacity for a particular SKU/model number/product code changed during the period, classify the SKU/model number/product code consistent with the capacity being advertised at the time of sale. Classify a washer as Energy Star if it was being advertised as Energy Star at the time of sale.

Please report values as follows:

Total dollar values should be f.o.b. port and should not include U.S.-inland transportation costs. Report the U.S. f.o.b. sales value and quantity on an invoice basis (i.e., the quantity-weighted total of the prices indicated on the invoice for the product in question), and net of direct and indirect discounts (i.e., all discounts, incentives, allowances, rebates, promotional amount, cash incentives for retail sales personnel (SPIFFs) or other sales support, and/or any other form of payment or allowance to a retailer). Exclude any additional equipment provided (e.g. cold/hot water connection hoses), that may be included in the invoice price.

Direct discounts are tied to sales of the specific large residential washer(s) for which pricing data are requested, whether or not such discounts are given on the sales price to the customer or are in the form of a post-sale discount, rebate or other type of sales support after the customer resells the product to its customer.

Indirect discounts, while not specifically tied to the products in question, are properly allocable to sales of such products because sales of such products were part of the basis on which the discount, incentive, allowance, etc. was given. In each case, the basis for the allocation of these allocated discounts, rebates, etc. should be the value of sales of the pricing product at issue as a percentage of the value of all the products sold by your firm to a customer that also qualified for the same discount, rebate, etc. Thus, for example, the value of a discount given to a customer because it reached an annual large residential washer sales target would be allocated over large residential washer sales to that customer.

Note: Items such as discounts, allowances, and rebates, which are included as adjustments to revenue, should be consistent with the company's accounting procedures; i.e., they should not include items that are treated separately as costs.

III-2a. During January 2016-March 2019, did your firm import and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

Correcting Valid number error messages.--If you are completing a Commission questionnaire in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the questionnaire. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a “fillable” form in MS Word format on the Commission’s website at:

https://www.usitc.gov/investigations/title_7/2019/large_residential_washers_monitoring_developments/safeguard.htm

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

- **Upload via Secure Drop Box.**—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission’s secure upload facility:

Web address: <https://dropbox.usitc.gov/oinv/> **Pin:** LRWS

- **E-mail.**—E-mail the MS Word questionnaire to nathanael.comly@usitc.gov; include a scanned copy of the signed certification page (page 1). *Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm’s nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.*

If your firm does not import this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

Parties to this proceeding.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission’s Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
