GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on June 6, 2019, by Kyocera Senco Industrial Tools, Inc., Cincinnati, Ohio. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization/dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2019/certain_collated_steel_staples_china_taiwan_and_preliminary.htm.

Certain Collated Steel Staples ("CCS staples") covered by these investigations are made from steel wire having a nominal diameter from 0.0345 inch to 0.0830 inch, inclusive, have a nominal leg length from 0.25 inch to 3.0 inches, inclusive, and a nominal crown width from 0.187 inch to 1.125 inch, inclusive.

Certain collated steel staples may be manufactured from any type of steel, and are included in the scope of the investigation regardless of whether they are uncoated or coated, and regardless of the type or number of coatings, including but not limited to coatings to inhibit corrosion.

Certain collated steel staples may be collated using any material or combination of materials, including but not limited to adhesive, glue, and adhesive film or adhesive or paper tape.

Certain collated steel staples are generally made to American Society for Testing and Materials (ASTM) specification ASTM F1667-17, but can also be made to other specifications. Regardless of any applicable specification, however, all certain collated steel staples exhibiting the physical characteristics of the written scope description are included in the scope.

Certain collated steel staples are currently imported under statistical reporting numbers 8305.20.00.00 of the Harmonized Tariff Schedule of the United States (HTSUS). The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. In addition, if your firm is a U.S. producer, the information you provide on your production and imports of CCS staples and your responses to the questions in Part I of the producer questionnaire will be provided to the U.S. Department of Commerce, upon its request, for use in connection with (and only in connection with) its requirement pursuant to section 702(c)(4)/732(c)(4) of the Act (19 U.S.C. § 1671a(c)(4)/1673a(c)(4)) to make a determination concerning the extent of industry support for the petition requesting this proceeding.
