PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to petitions filed on January 8, 2020, by the Coalition of American Millwork Producers. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2020/wood_mouldings_and_millwork_products_brazil_and/preliminary.htm.

Wood mouldings and millwork products covered by these investigations are made of wood (regardless of wood species), laminated veneer lumber (LVL), or of wood and composite materials (where the composite materials make up less than 50 percent of the total merchandise), and which are woodwork or building materials that are produced in a mill or otherwise undergo remanufacturing.

The covered products include, but are not limited to, the following: interior and exterior door frames or jambs (including split, flat, stop applied, single- or double-rabbeted), frame or jamb kits, packaged door frame trim or casing sets, mullions, mull posts, mouldings (crowns, beds, coves, quarter rounds, half rounds, base shoes, astragals, shelf edge/screen moulds, glass bead mouldings, base caps, brickmould, panel mouldings, drip caps, comer guards, shingle/panel mouldings, battens, closet rod, hand rails, rounds, squares, screen/"surfaced on 4 sides" (S4S) and/or "surface 1 side, 2 edges" (S1S2E) stock (also called boards) that are finger jointed and/or coated with any surface coating (including primed), lattice, dowels, picture moulding, wainscot/ply cap, back bands, chair rails, stops, sashes, base mouldings, casing, trim, panel strips, shelf cleats, chamfer strips, inside comers, window stools (flat/rabbeted), sills, door stiles, thresholds/saddles, decorative wood mouldings (embossed, dentil, carved rope moulding), rosettes, plinth blocks, interior siding, including nickel gap or shiplap, that is LVL or finger jointed and/or coated with any surface coating (including primed), and finger-jointed or edge-glued moulding or millwork blanks (whether or not resawn).

The covered products may be solid wood, laminated, finger-jointed, edge-glued, or otherwise joined in the production or remanufacturing process and are covered by the scope whether imported raw, coated (e.g., gesso, polymer, or plastic), primed, painted, stained, wrapped (paper or vinyl overlay), any combination of the aforementioned surface coatings, treated, or which incorporate rot-resistant elements (whether wood or composite). The covered products are covered by the scope whether or not any surface coating(s) or covers obscures the grain, textures, or markings of the wood, whether or not they are ready for use or require final machining (e.g. endwork/dado, hinge/strike machining, weatherstrip or application thereof, mitre) or packaging.

All wood mouldings and millwork products are included within the scope even if they are trimmed; cut-to-size; notched; punched; drilled; or have undergone other forms of minor processing. Subject merchandise also includes wood mouldings and millwork products that have been further processed in a third country, including but not limited to trimming, cutting, notching, punching, drilling, coating, or any other processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the country of manufacture of the in-scope product.

Excluded from the scope of these investigations are exterior fencing, exterior decking and exterior siding products, finished and unfinished doors, flooring, and parts of stair steps.

Excluded from the scope of these investigations are all products covered by the scope of the antidumping and countervailing duty orders on *Hardwood Plywood from the People's Republic of China*. See *Certain Hardwood Plywood Products from the People's Republic of China: Amended Final Determination of Sales at Less Than Fair Value, and Antidumping Duty Order*, 83 FR 504 (January 4, 2018); *Certain Hardwood Plywood Products from the People's Republic of China: Countervailing Duty Order*, 83 FR 513 (January 4, 2018).

Excluded from the scope of these investigations are all products covered by the scope of the antidumping and countervailing duty orders on *Multilayered Wood Flooring from the People's Republic of China*. *Multilayered Wood Flooring From the People's Republic of China: Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order*, 76 FR 76690 (December 8, 2011); *Multilayered Wood Flooring from the People's Republic of China: Countervailing Duty Order*, 76 FR 76693 (December 8, 2011).

Wood mouldings and millwork products are currently imported under statistical reporting numbers 4409.10.4010, 4409.10.4090, 4409.10.4500, 4409.10.5000, 4409.22.4000, 4409.22.5000, 4409.29.4000, 4409.29.4100, 4409.29.5000, and 4409.29.5100 of the Harmonized Tariff Schedule of the United States (HTSUS). They may also be imported under HTSUS statistical reporting numbers 4409.10.6000, 4409.10.6500, 4409.22.6000, 4409.22.6500, 4409.29.6100, 4409.29.6600, 4418.99.9095 and 4421.99.9780. The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing wood mouldings and millwork products (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or

similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Charles Cummings (202-708-1666, Charles.Cummings@usitc.gov).

D-GRIDS tool.--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macro-enabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

III-22. **Other explanations.**--If your firm would like to further explain a response to a question in Part III for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

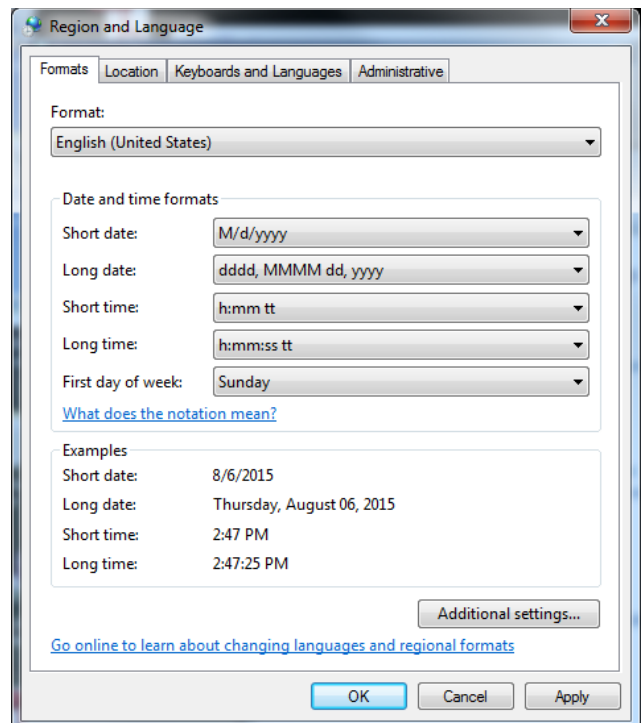

Correcting Valid number error messages.--If you are completing a Commission questionnaire in a country that uses periods (“.”) to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The U.S. International Trade Commission’s questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system’s number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer’s number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. “Italian (Italy)”) to “English (United States)” (see screen shots below)

When you do this the number “twelve million dollars and thirty five cents” would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the questionnaire. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.
